Rising From The Ruins Reason Being And The Good After Auschwitz:

Rising from the Ruins Garth Jackson Gillan, 2012-02-01 Rising from the Ruins is an assessment of reason being and the good in a world fractured by the passage of the Shoah or Holocaust The historical character of evil that appeared in the Shoah damaged the relationship of human existence to being creating a time when the confidence of reason to possess the truth no longer exists Rising from the Ruins relocates the relationships among being reason and the good in terms of a metaphysics ethics and politics that derive from faith and heteronomy Rather than another attempt to document the horror of the Shoah this book chronicles what the world is like for those who have read and listened to previous accounts Rising from the Ruins doesn't celebrate surviving the Holocaust instead it speaks of a rationality that sees truth and the good through the eyes of suffering and the silence of death Such a rationality Gillan suggests looks more like faith and it takes its place among the sweat and tears of common men and women who are dedicated to building a human city populated with children the poor the sick and the aged

Adorno on Politics after Auschwitz Gary A. Mullen, 2015-12-30 In the minds of many critical theorists Theodor W Adorno epitomizes the failure of critical theory to provide any concrete guidance for political practice His name is almost synonymous with the retreat of the progressive intellectual from the creeping totalitarianism of contemporary mass democracy This book endeavors to disrupt this misconception by offering a close reading of Adorno's philosophical confrontation with the Holocaust and the modern conceptions of history morality and subjectivity that are complicit in genocide By rethinking the relationship between reason and remembrance morality and materiality mimesis and political violence Adorno's work offers not only incisive criticism of modern political ideas and institutions it also shows us intimations of a different political practice

Human Rights for Refugees and Other Marginalised Persons Devorah Wainer, 2023-08-07 This book provides a new framework for conducting qualitative research into Asylum Seeking Refugees based on Emmanuel Levinas' ethic of the face to face encounter The methodology originates in the term Midrash a narrative form that exposes investigates searches It reconceptualises encounters between Asylum Seeking Refugees and those

Bibliographisch repertorium van de wijsbegeerte ,1998 **Bowie, Beckett, and Being** Rodney Sharkey,2024-01-11 Addressing their shared passion for literature art and music this book documents how Samuel Beckett and David Bowie produce extraordinarily empathetic creative outputs that reflect the experience and the effect of alienation

Through an exploration of their artistic practices the study also illustrates how both artists articulate shared forms of human experience otherwise silenced by normative modes of representation To liberate these experiences Bowie and Beckett create alternative theatrical musical and philosophical spaces which help frame the power relations of the psychological verbal and material places we inhabit The result is that their work demonstrates how individuals are disciplined by the implicitly repressive social order of late capitalism while simultaneously offering an informed political alternative In making the injunctions of the social order apparent Beckett and Bowie also transgress its terms opening up new spaces beyond the conventional identities of family nation and gender until both artists finally coalesce in the quantum space of the posthuman
