Main Street Mystics Margaret M. Poloma, 2003 On January 20 1994 the worshippers at the Toronto Airport Vineyard Church began to feel the Holy Spirit move them They began to laugh uncontrollably collapse to the floor stagger as if drunk But what was truly startling in this occurrence now commonly known as the Toronto Blessing is that these manifestations keep appearing at the Toronto church and have sparked a worldwide charismatic revival Visitors from around the world have come and started revivals in their home churches upon return In Main Street Mystics Margaret Poloma explains what is happening with this contemporary charismatic revival without explaining it away From her unique position as both a scholar and a pilgrim Poloma offers an intimate account of the movement while always attempting to understand it through the lenses of social science She looks at Pentecostalism as a form of mysticism but a mysticism that engages Pentecostals and charismatics in the everyday world With its broad overview and up close portraits Main Street Mystics is essential for anyone wanting to understand the ever renewing movement of Pentecostalism

**Age of the Spirit** John Maiden, 2022-12-06 This expansive study offers an interpretation of the new Pentecost the rise of charismatic Christianity before during and after the long 1960s It examines the translocal actors networks and media which constructed a Spiritscape of charismatic renewal in the Anglo world contexts of Australia the British Isles Canada New Zealand South Africa and the United States It places this arena also in a wider and dynamic worldwide setting exploring the ways in which charismatic imaginations of an age of the Spirit were shaped by interpenetrations with the Third World the Soviet Bloc and beyond in the global Sixties and Seventies Age of the Spirit explains charismatic developments within Protestantism and Catholicism mainline and non denominational churches and within existing pentecostalsisms and places these in relation to lively scholarly

themes such as secularisation authenticity and cosmopolitanism It offers an unrivalled analysis of charismatic music books television conferences personalities community living and controversies in the 1960s and 1970s It looks forward to the many global legacies of charismatic renewal for example in relation to the politics of sexuality in the Anglican Communion or to support for President Donald J Trump The essential question at the heart of this book is relevant for scholars and practitioners of Christianity alike how did charismatic renewal transform the churches in the twentieth century moving from the periphery to the mainstream *Charisma and Christian Life* ,2002 **Church, Cosmovision and the Environment** Evan Berry,Robert Albro,2018-06-27 Though currently only partially understood evolving interactions among Latin American communities of faith governments and civil societies are a key feature of the popular mobilizations and policy debates about environmental issues in the region This edited collection describes and analyses multiple types of religious engagement with environmental concerns and conflicts seen in modern Latin American democracies This volume contributes to scholarship on the intersections of religion with environmental conflict in a number of ways Firstly it provides comparative analysis of the manner in which diverse religious actors are currently participating in transnational national and local advocacy in places such as Peru Argentina Brazil Bolivia Ecuador Guatemala and Mexico It also considers the diversity of an often plural religious engagement with advocacy including Catholic Evangelical and Pentecostal perspectives alongside the effects of indigenous cosmological ideas Finally this book explores the specific religious sources of seemingly unlikely new alliances and novel articulations of rights social justice and ethics for the environmental concerns of Latin America The relationship between religion and environmental issues is an increasingly important topic in the conversations around ecology and climate change This book is therefore a pertinent and topical work for any academic working in Religious Studies Environmental Studies and Latin American Studies
