Rite Of The Damned:

Rituals for the Dead William J. Courtenay, 2018-12-30 In his fascinating new book based on the Conway Lectures he delivered at Notre Dame in 2016 William Courtenay examines aspects of the religious life of one medieval institution the University of Paris in the thirteenth and fourteenth centuries In place of the traditional account of teaching programs and curriculum however the focus here is on religious observances and the important role that prayers for the dead played in the daily life of masters and students Courtenay examines the university as a consortium of sub units in which the academic and religious life of its members took place and in which prayers for the dead were a major element Throughout the book Courtenay highlights reverence for the dead which preserved their memory and was believed to reduce the time in purgatory for deceased colleagues and for founders of and donors to colleges The book also explores the advantages for poor scholars of belonging to a confraternal institution that provided benefits to all members regardless of social background the areas in which women contributed to the university community including the founding of colleges and the growth of Marian piety seeking her blessing as patron of scholarship and as protector of scholars Courtenay looks at attempts to offset the inequality between the status of masters and students rich and poor and college founders and fellows in observances concerned with death as well as rewards and punishments in the afterlife *Rituals for the Dead* is the first book length study of religious life and remembrances for the dead at the medieval University of Paris Scholars of medieval history will be an eager audience for this title

The Legend of Miaoshan Glen Dudbridge, 2004-02-19 In Chinese legend the princess Miaoshan defied her father by refusing to marry and pursued her austere religious vocation to the death but returned to life to be his saviour and the saviour of all mankind The story is inseparable from the female bodhisattva Guanyin whose cult dominated religious life at all levels in traditional China and is still powerful in rural China today Miaoshan herself became a lasting symbol of the tension in women s lives between individual spiritual fulfilment and the imperatives of family duty The previous edition of this book was the first full monograph on the subject It deals with the story s background early history and more developed later versions bringing much of this material to the attention of modern readers for the first time It analyses the basic sources many of them in Buddhist scripture and the overall pattern of development It finally offers a range of interpretations which discover here myths of religious celibacy of filial piety and of ritual salvation of the dead The legend of Miaoshan spans the uncertain boundaries between Chinese popular literature theatre and religion and this book directly addresses students of those fields But it holds a larger significance for those interested in the position of women in traditional society and students of comparative literature and folklore will find here a version of the King Lear story This new edition takes account of epigraphical evidence discovered and accessed since the time of first publication which enriches and refines the discussion This and other additional evidence introduced for the sake of a more complete picture leave the argument and conclusions of the original study still essentially intact

China John Lagerwey,2010-12-01 Over the last 40 years our vision of Chinese culture and history has been transformed by the discovery of the role of religion in Chinese state making and in local society The Daoist religion in particular long despised as superstitious has recovered its place as the native higher religion But while the Chinese state tried from the fifth century on to construct an orthodoxy based on Confucianism Daoism and Buddhism local society everywhere carved out for

itself its own geomantically defined space and organized itself around local festivals in honor of gods of its own choosing gods who were often invented and then represented by illiterate mediums Looking at China from the point of view of elite or popular culture therefore produces very different results John Lagerwey has done extensive fieldwork on local society and its festivals This book represents a first attempt to use this new research to integrate top down and bottom up views of Chinese society culture and history It should be of interest to a wide range of China specialists students of religion and popular culture as well as participants in the ongoing interdisciplinary dialogue between historians and anthropologists John Lagerwey is professor of Daoist history at the cole Pratique des Hautes tudes and of Chinese studies at the Chinese University of Hong Kong He is author of Taoist Ritual in Chinese Society and History and editor of the 30 volume Traditional Hakka Society Series as well as the recently published four volume set Early Chinese Religion *Rite of the Damned* Louise Osborne,1977

The Daēva Cult in the Gāthās Amir Ahmadi,2015-04-10 Addressing the question of the origins of the Zoroastrian religion this book argues that the intransigent opposition to the cult of the da was the ancient Indo Iranian gods is the root of the development of the two central doctrines

of Zoroastrianism cosmic dualism and eschatology fate of the soul after death and its passage to the other world The da va cult as it appears in the G th s the oldest part of the Zoroastrian sacred text the Avesta had eschatological pretensions The poet of the G th s condemns these as deception The book critically examines various theories put forward since the 19th century to account for the condemnation of the da vas It then turns to the relevant G thic passages and analyzes them in detail in order to give a picture of the cult and the reasons for its repudiation Finally it examines materials from other sources especially the Greek accounts of Iranian ritual lore mainly in the context of the mystery cults Classical Greek writers consistently associate the nocturnal ceremony of the magi with the mysteries as belonging to the same religious cultural category This shows that Iranian religious lore included a nocturnal rite that aimed at ensuring the soul s journey to the beyond and a desirable afterlife Challenging the prevalent scholarship of the Greek interpretation of Iranian religious lore and proposing a new analysis of the formation of the Hellenistic concept of magic this book is an important resource for students and scholars of History Religion and Iranian Studies

Pygmalion's Power Thomas E. A. Dale, 2020-01-29 Pushed to the height of its illusionistic powers during the first centuries of the Roman Empire sculpture was largely abandoned with the ascendancy of Christianity as the apparent animation of the material image and practices associated with sculpture were considered both superstitious and idolatrous In Pygmalion s Power Thomas E A Dale argues that the reintroduction of architectural sculpture after a hiatus of some seven hundred years arose with the particular goal of engaging the senses in a Christian religious experience Since the term Romanesque was coined in the nineteenth century the reintroduction of stone sculpture around the mid eleventh century has been explained as a revivalist phenomenon one predicated on the desire to claim the authority of ancient Rome In this study Dale proposes an alternative theory Covering a broad range of sculpture types including autonomous cult statuary in wood and metal funerary sculpture architectural sculpture and portraiture Dale shows how the revitalized art form was part of a broader shift in emphasis toward spiritual embodiment and affective piety during the late eleventh and twelfth centuries Adding fresh insight to scholarship on the Romanesque Pygmalion s Power borrows from trends in cultural anthropology to demonstrate the power and potential of these sculptures to produce emotional effects that made them an important sensory part of the religious culture of the era

Theory and Practice in Essene Law Aryeh Amihay, 2016-10-28 This book offers a novel approach for the study of law in

the Judean Desert Scrolls using the prism of legal theory Following a couple of decades of scholarly consensus withdrawing from the Essene hypothesis it proposes to revive the term and suggests employing it for the sectarian movement as a whole while considering the group that lived in Qumran as the Yahad It further proposes a new suggestion for the emergence of the Yahad based on the roles of the Examiner and the Instructor in the two major legal codes the Damascus Document and the Community Rule The understanding of Essene law is divided into concepts and practices in order to emphasize the discrepancy between creed rhetoric and practices The abstract exploration of notions such as time space obligation intention and retribution is then compared against the realities of social practices including admission initiation covenant leadership reproof and punishment The legal analysis yields several new suggestions for the study of the scrolls first Amihay proposes to rename the two strands of thought of Jewish law formerly referred to as nominalism and realism with the terms legal essentialism and legal formalism The two laws of admission in the Community Rule are distinguished as two different laws one of an association for a group as a whole the other as an admission of an individual The law of reproof is proven to be an independent legal procedure rather than a preliminary stage of prosecution The methodological division in this study of thought and practice provides a nuanced approach for the study of law in general and religious law in particular

Myths and Rites Victoria Charles, 2015-09-15 Since the first funerary statues were placed in the first sepulchres the ideas of death and the afterlife have always held a prominent place at the heart of the art world An unlimited source of inspiration where artists can search for the expression of the infinite death remains the object of numerous rich illustrations as various as they are mysterious The ancient Egyptian Book of the Dead the forever sleeping statues on medieval tombs and the Romantic and Symbolist movements of the 19th century are all evidence of the incessant interest that fuels the creation of artworks featuring themes of death and what lies beyond it In this work Victoria Charles analyses how through the centuries art has become the reflection of these interrogations linked to mankind's fate and the hereafter

The Making of a Savior Bodhisattva Shi Zhiru, 2007-08-14 In modern Chinese Buddhism Dizang is especially popular as the sovereign of the underworld Often represented as a monk wearing a royal crown Dizang helps the deceased faithful navigate the complex underworld bureaucracy avert the punitive terrors of hell and arrive at the happy realm of rebirth The author is concerned with the formative period of this important Buddhist deity before his underworldly aspect eclipses his connections to other religious expressions and at a time when the art mythology practices and texts of his cult were still replete with possibilities She begins by problematizing the reigning model of Dizang one that proposes an evolution of gradual sinicization and increasing vulgarization of a relatively unknown Indian bodhisattva Ksitigarbha into a Chinese deity of the underworld Such a model the author argues obscures the many faceted personality and iconography of Dizang Rejecting it she deploys a broad array of materials art epigraphy ritual texts scripture and narrative literature to recomplexify Dizang and restore as much as possible from the fragmented historical sources what this figure meant to Chinese Buddhists from the sixth to tenth centuries Rather than privilege any one genre of evidence the author treats both material artifacts and literary works canonical and noncanonical sources Adopting an archaeological approach she excavates

motifs from and finds resonances across disparate genres to paint a vibrant detailed picture of the medieval Dizang cult. Through her analysis the cult far from being an isolated phenomenon is revealed as integrally woven into the entire fabric of Chinese Buddhism functioning as a kaleidoscopic lens encompassing a multivalent religious cultural assimilation that resists the usual bifurcation of doctrine and practice or elite and popular religion. *The Making of a Savior Bodhisattva* presents a fascinating wealth of material on the personality iconography and lore associated with the medieval Dizang. It elucidates the complex cultural religious and social forces shaping the florescence of this savior cult in Tang China while simultaneously addressing several broader theoretical issues that have preoccupied the field. Zhiru not only questions the use of sinicization as a lens through which to view Chinese Buddhist history she also brings both canonical and noncanonical literature into dialogue with a body of archaeological remains that has been ignored in the study of East Asian Buddhism.
