Shakespeare's Culture In Modern Performance:

Shakespeare's Culture in Modern Performance M. Jones, 2003-10-23 Shakespeare's Culture in Modern Performance is an original study at the interface of a historicizing literary criticism and the study of modern performance In a critical climate that views the cultural object of performance as authentic in itself is there any point in exploring a script's original history The writer argues for a dialogic understanding of Shakespeare's plays in performance relative to unresolved issues of modernity in a study of modern productions on stage and screen

Don C Selwyn's New Zealand made film *The Maori Merchant of Venice* 2001 Philip Osment's appropriation of *The Tempest* in *This Island's Mine* for London's Gay Sweatshop 1988 and Nicholas Hytner's *Henry V* 2003 for the National Theatre in London

Retheorizing Shakespeare through Presentist Readings James O'Rourke, 2011-11-18 This book offers a theoretical rationale for the emerging presentist movement in Shakespeare studies and goes on to show in a series of close readings that a presentist Shakespeare is not an anachronism Relying on a Brechtian aesthetic of naïve surrealism as the performative model of the early modern urban public theater James O'Rourke demonstrates how this Brechtian model is able to capture the full range of interplays that could take place between Shakespeare s words the nonillusionist performance devices of the early modern stage and the

live audiences that shared the physical space of the theatre with Shakespeare's actors O'Rourke argues that the limitations placed upon the critical energies of early modern drama by the influential new historicist paradigm of contained subversion is based on a poetics of the sublime which misrepresents the performative aesthetic of the theater as a self-sufficient spectacle that compels reception in its own terms Reimagining Shakespeare as our contemporary O'Rourke shows how the immanent critical logic of Shakespeare's works can enter into dialogue with our most sophisticated critiques of our cultural fictions

The English Renaissance and the Far East

Adele Lee, 2017-10-25 *The English Renaissance and the Far East: Cross-Cultural Encounters* is an original and timely examination of cultural encounters between Britain China and Japan It challenges accepted Anglocentric models of East-West relations and offers a radical reconceptualization of the English Renaissance suggesting it was not so different from current developments in an increasingly Sinocentric world and that as China in particular returns to a global center stage that it last occupied pre-1800 a curious and overlooked synergy exists between the early modern and the present Prompted by the current eastward tilt in global power in particular towards China Adele Lee examines cultural interactions between Britain and the Far East in both the early modern and postmodern periods She explores how key encounters with and representations of the Far East are described in early modern writing and demonstrates how work of that period particularly Shakespeare has a special power today to facilitate encounters between Britain and East Asia Readers will find the past illuminating the present and vice versa in a book that has at its heart resonances between Renaissance and present-day cultural exchanges and which takes a cyclical long view of history to offer a new innovative approach to a subject of contemporary importance
