moment for early modern cultural studies the academy has been called to attend to questions of social justice It requires a revision of the critical lexicon to be able to probe the relationship between Shakespeare studies and the intractable forms of social injustice that infuse cultural political and economic life This volume helps us to imagine what radical and transformative pedagogy theatre making and scholarship might look like The contributors both invoke and invert the paradigm of Global Shakespeare building on the vital contributions of this scholarly field over the past few decades but also suggesting ways in which it cannot quite accommodate the various global Shakespeares presented in these pages A focus on social justice and on the many forms of social injustice that demand our attention leads to a consideration of the North South constructions that have tended to shape Global Shakespeare conceptually in the same way the material histories of North and South have shaped global injustice as we recognise it today Such a focus invites us to consider the creative ways in which Shakespeare's imagination has been taken up by theatre makers and scholars alike and marshalled in pursuit of a more just world
