Governor of the Cordillera Shelton Woods,2023-07-15 Governor of the Cordillera tells the story of an American colonial official in the Philippines who took the unpopular position of defending the rights of the Igorots was fired in disgrace and made a triumphal return During the first fifteen years of colonial rule 1898 1913 a small group of Americans controlled the headhunting tribes who were wards of the nascent colonial government These officials ignored laws carved out fiefdoms and brutalized or killed those who challenged their rule John Early was cut from a different cloth Battling colleagues and supervisors over their treatment of the mountain people Early also had run ins with lowland Filipino leaders like Manuel

Quezon Early's return as governor of the entire Cordillera was celebrated by all the tribes. In Governor of the Cordillera Shelton Woods combines biography with colonial history. He includes a discussion on the exhibition of the Igorots at the various fairs in the US and Europe which Early tried to stop. The life of John Early is a testament to navigating political and racial divides with integrity. *World Insurance* Peter Borscheid, Niels Viggo Haueter, 2012-08-23 Since the end of the eighteenth century the insurance industry has cast a safety net around the world first in the British Isles and then further afield irrespective of cultural political and ideological divides. Unlike previous publications on insurance history which tend to discuss the development of national markets or individual companies this book focuses on the creation of networks across borders from the end of the eighteenth century to the present day. Distinguished international economic historians draw upon examples from twenty countries across the continents to demonstrate how what was called the British system of risk management spread out in waves and describes the forces that made this possible first among them migration from Europe and international trade. The book explores the economic political religious and cultural obstacles that blocked the path of this European invention not only religious law and traditional practices but above all protectionism inflation and political ideologies. It examines the process of transformation through which modern insurance supplanted traditional forms of protection against perils and risks and was able to keep on offering new ways of dealing with the risks of modern life. As well as discussing primary insurance it also considers the role played by reinsurance without which the losses arising out of today's natural and man made disasters would be immeasurably greater. Finally taking modern day disaster scenarios as examples the book shows just what the limits of insurability are and what risks worldwide networks entail. *Westerners in China* Foster Stockwell, 2015-10-03 Today the doors of China are opening to foreign investment and trade as never before but the history of contact between China and the West goes back many centuries. Goods from China were being traded in Rome long before the birth of Christ transported over the famous silk road that crossed Mongolia and Russia. But not until the mid fifteenth century when Marco Polo published his account of his travels did China really capture the European imagination. Subsequent centuries saw missionary trips to China by Franciscans and Jesuits a European craze for Chinese silk and porcelain European visits to Tibet the infamous Opium War between Britain and China and further instances of contact commerce and conflict. China has shown amazing economic growth since 1949 and today it has set ambitious goals for growth in trade and technology. This book traces the history of Western exploration in and trade with China. It follows the events outlined above and touches on many other highlights including exploration by the Russian Nikolay Przhevalsky who traveled deep into China and today is largely remembered for the horse he discovered and identified there the travels of nineteenth century women explorers in China American Roy Chapman's discovery of the first fossilized dinosaur eggs in the Gobi Desert and the competition between two American explorers to be the first to capture a live panda. Also included are a chronology of Chinese history and a pronunciation guide. The Western Classical Music Industry in Twenty-First Century
