Legacies of the Drunken Master Luke White, 2020-04-30 In 1978 the films Snake in the Eagle's Shadow and Drunken Master both starring a young Jackie Chan caused a stir in the Hong Kong cinema industry and changed the landscape of martial arts cinema Mixing virtuoso displays of acrobatic kung fu with knockabout humor to huge box office success they broke the mold of the tragic and heroic martial arts film and sparked not only a wave of imitations but also a much longer trend for kung fu comedies that continues to the present day Legacies of the Drunken Master the first book length analysis of kung fu comedy interrogates the politics of the films and their representations of the performing body It draws on an interdisciplinary engagement with popular culture and an interrogation of the critical literature on Hong Kong and martial arts cinema to offer original readings of key films These readings pursue the genre in terms of its carnival aesthetic the utopias of the body it envisions its highly stylized depictions of violence its images of masculinity and the registers of its hysterical laughter The book's analyses are carried out amidst kung fu comedy's shifting historical contexts including the aftermath of the 1960s radical youth movements the rapidly globalizing colonial enclave of Hong Kong and the emerging consciousness of its 1997 handover to China and the transnationalization of cinema audiences It argues that through kung fu comedy's images of the body the genre articulated in complex and often contradictory ways political realities relevant to late twentieth century Hong Kong and the wider conditions of globalized capitalism The kung fu comedy entwines us in a popular cultural history that stretches into the folk past and forward into utopian and dystopian possibilities Theoretically rich and critical Legacies of the Drunken Master aims to be at the forefront of scholarship on martial arts cinema It also addresses readers with a broader interest in Hong Kong culture and politics during the 1970s and 1980s postcolonialism in East Asia and action and comedy films in a global context as well as those fascinated with the performing body in the martial arts

Shaolin take a prominent place in the history of Chinese Buddhism. Shaha has mastered a prodigious amount of secondary scholarship, pored over a wealth of primary documents and brought a critical rigor to the study of these materials that is unprecedented in any language. Throughout his analysis is cogent and clear. The result is a delightful tour of one of the most enigmatic and compelling stories of Chinese religion: the emergence and development of martial arts at Shaolin Si. Entertaining as the book is, it delivers as well a meditation on the sources of Chinese religion and how fiction and scripture, myth and history combine to produce novel traditions. The Shaolin Monastery will appeal not only to scholars of Chinese religion but to those interested in military history, self-cultivation, martial arts and popular culture. John Kieschnick, University of Bristol. The Shaolin Monastery charts for the first time in any language the history of the Shaolin Temple and the evolution of its world-renowned martial arts. In this meticulously researched and eminently readable study, Meir Shaha considers the economic, political and religious factors that led Shaolin monks to disregard the Buddhist prohibition against violence and instead create fighting techniques that by the twenty-first century have spread throughout the world. He examines the monks' relations with successive Chinese regimes, beginning with the assistance they lent to the seventh-century Emperor Li Shimin and culminating more than a millennium later with their complex relations with Qing rulers who suspected them of rebellion. He reveals the intimate connection between monastic violence and the veneration of the violent divinities of Buddhism and analyzes the Shaolin association of martial discipline and the search for spiritual enlightenment. Shaha's exploration of the evolution of Shaolin fighting techniques serves as a prism through which to consider martial art history in general. He correlates the emergence of the famous bare-handed techniques of Taiji, Quan, Xingyi, Quan and Shaolin Quan in the sixteenth and seventeenth centuries to the social, political and religious trends of that age. He then goes on to argue that these techniques were created not only for fighting but also for religious and therapeutic purposes. Thus his work fills an important gap in the understanding of Chinese religion and medicine as well as the martial arts. The Shaolin Monastery is the most exhaustive study to date on the topic and the most systematic introduction to the history and the religious context of the Chinese martial arts tradition. It will engage those interested in Chinese religion and history and martial arts, illuminating for specialists, martial artists and general readers alike the history and nature of a martial tradition that continues to grow in popularity in its native land and abroad. Lingnan Hung Kuen: Kung Fu in Cinema and Community Hing Chao, 2018-05-02. For so many around the world it was in the cinema that they saw their first glimpse of martial arts. Through the films of Lau Kar Leung among others they came to appreciate the power and skill of many kung fu techniques. However, devotees and practitioners of kung fu and Hung Kuen were aware of the much longer tradition of these arts and in particular the contribution of both the Lam family and the Lau family. In 2009 the Hong Kong Government endeavoured to identify and recognize forms of intangible cultural heritage. It was this awareness of a vibrant part of Hong Kong history and culture which led to the creation of the Hong Kong Martial Arts Living Archive and from this the exhibition Lingnan Hung Kuen.

Across the Century Kung Fu Narratives in Hong Kong Cinema and Community In the exhibition and this companion book the histories of the Lam and Lau families are traced and their role in preserving and creating new stances and forms and bringing Hung Kuen to a wider audience through the medium of film Using the latest technologies including 3D imagery the work of past masters has been here brought back to life
