communication media such as print cinema television Web series and social media There is a lack of book titles that study media sexism in the present times and the proposed book aims to explore an unexplored area that is of social and scholarly importance This book highlights the duality of media platforms while media is a critical tool associated with fourth wave feminism they still remain to be a deterrent to the development of women engendering inherent and age old patriarchal notions This book will be an eye opener to the general readers about benevolent sexism and train them to identify sexism hidden in seemingly pro women media representations
