Shaping the Lotus Sutra Eugene Yuejin Wang, 2005 The Lotus Sutra has been the most widely read and most revered Buddhist scripture in East Asia since its translation in the third century The miracles and parables in the king of sutras inspired a variety of images in China in particular the sweeping compositions known as transformation tableaux that developed between the seventh and ninth centuries Surviving examples in murals painted on cave walls or carved in relief on Buddhist monuments depict celestial journeys bodily metamorphoses cycles of rebirth and the achievement of nirvana Yet the cosmos revealed in these tableaux is strikingly different from that found in the text of the sutra Shaping the Lotus Sutra explores this visual world Challenging long held assumptions about Buddhist art Eugene Wang treats it as a window to an animated and spirited world Rather than focus on individual murals as isolated compositions Wang views the entire body of pictures adorning a cave shrine or a pagoda as a visual mapping of an imaginary topography that encompasses different temporal and spatial domains He demonstrates that the text of the Lotus Sutra does not fully explain the pictures and that a picture or a series of them constitutes its own text In exploring how religious pictures sublimate cultural aspirations he shows that they can serve both political and religious agendas and that different social forces can co exist within the same visual program These pictures inspired meditative journeys through sophisticated formal devices such as mirroring mapping and spatial programming analytical categories newly identified by Wang The book examines murals in cave shrines at Binglingsi and Dunhuang in northwestern China and relief sculptures in the grottoes of Yungang in Shanxi on stelae from Sichuan and on the Dragon and Tiger pagoda in Shandong among other sites By tracing formal impulses in medieval Chinese picture making such as topographic mapping and pictorial illusionism the author pieces together a wide range of visual evidence and textual sources to reconstruct the medieval Chinese cognitive style and mental world The book is ultimately a history of the Chinese imagination Read an interview with the author <http://dgeneratefilms.com/cinemataalk/cinemataalk-interview-with-professor-eugene-wang-on-chinese-art-and-film> **Shaping the Lotus Sutra** Eugene Y. **Buddhist Practice and Visual Culture** Julie Gifford, 2011-03-16 This is the first study to provide an overall interpretation of the Buddhist monument Borobudur in Indonesia Including both the narrative reliefs and the Buddha images the book opens up a wealth of information on Mahayana Buddhist religious ideas and practices that could have informed Borobudur and it convincingly interprets Borobudur within that context Presenting new material the book contributes immensely to a new and better understanding of the significance of the Borobudur for the field of Buddhist and Religious Studies *Buddhist Visual Cultures, Rhetoric, and Narrative in Late Burmese Wall Paintings* Alexandra Green, 2018-01-04 Step into a Burmese temple built between the late seventeenth and early nineteenth centuries and you are surrounded by a riot of color and imagery The majority of the highly detailed wall paintings displays Buddhist biographical narratives inspiring the devotees to follow the Buddha's teachings Alexandra Green goes one step further to consider the temples and

their contents as a whole arguing that the wall paintings mediate the relationship between the architecture and the main Buddha statues in the temples This forges a unified space for the devotees to interact with the Buddha and his community with the aim of transforming the devotees current and future lives These temples were a cohesively articulated and represented Burmese Buddhist world to which the devotees belonged Green s visits to more than 160 sites with identifiable subject matter form the basis of this richly illustrated volume which draws upon art historical anthropological and religious studies methodologies to analyze the wall paintings and elucidate the contemporary religious political and social concepts that drove the creation of this lively art form Buddhist Visual Cultures Rhetoric and Narrative in Late Burmese Wall Paintings is truly a tour de force that allows us to see Burmese temple paintings of the Life of the Buddha and similar themes as an open ended genre that like literary discourse participates in wider social intellectual and religious contexts Juliane Schober Arizona State University Alexandra Green introduces this relatively unknown material and subjects it to sophisticated analysis This study is major step towards creating a template that could be used for analyzing other late traditions of Buddhist painting Janice Leoshko University of Texas at Austin *Visual and Material Cultures in Middle Period China*, 2017-07-20 Eight studies examine key features of Chinese visual and material cultures ranging from tomb design metalware ceramic pillows and bronze mirrors to printed illustrations calligraphic rubbings colophons and paintings on Buddhist landscape and narrative themes Questions addressed include how artists and artisans made their works the ways both popular literature and market forces could shape ways of looking and how practices and imagery spread across regions The authors connect visual materials to funeral and religious practices drama poetry literati life travel and trade showing ways visual images and practices reflected adapted to and reproduced the culture and society around them Readers will gain a stronger appreciation of the richness of the visual and material cultures of Middle Period China The Spatiality of Emotion in Early Modern China Ling Hon Lam, 2018-05-15 Emotion takes place Rather than an interior state of mind in response to the outside world emotion per se is spatial at turns embedding us from without transporting us somewhere else or putting us ahead of ourselves In this book Ling Hon Lam gives a deeply original account of the history of emotions in Chinese literature and culture centered on the idea of emotion as space which the Chinese call emotion realm qingjing Lam traces how the emotion realm underwent significant transformations from the dreamscape to theatricality in sixteenth to eighteenth century China Whereas medieval dreamscapes delivered the subject into one illusory mood after another early modern theatricality turned the dreamer into a spectator who is no longer falling through endless oneiric layers but pausing in front of the dream Through the lens of this genealogy of emotion realms Lam remaps the Chinese histories of morals theater and knowledge production which converge at the emergence of sympathy redefined as the dissonance among the dimensions of the emotion realm pertaining to theatricality The book challenges the conventional reading of Chinese literature as premised on interior subjectivity examines historical changes in the spatial logic of performance through media and theater archaeologies and

ultimately uncovers the different trajectories that brought China and the West to the convergence point of theatricality marked by self deception and mutual misreading A major rethinking of key terms in Chinese culture from a comparative perspective The Spatiality of Emotion in Early Modern China develops a new critical vocabulary to conceptualize history and existence

Lopez, Jr.,2016-10-04 A concise and accessible introduction to the classic Buddhist text The Lotus Sutra is arguably the most famous of all Buddhist scriptures Composed in India in the first centuries of the Common Era it is renowned for its inspiring message that all beings are destined for supreme enlightenment Here Donald Lopez provides an engaging and accessible biography of this enduring classic Lopez traces the many roles the Lotus Sutra has played in its travels through Asia Europe and across the seas to America The story begins in India where it was one of the early Mahayana sutras which sought to redefine the Buddhist path In the centuries that followed the text would have a profound influence in China and Japan and would go on to play a central role in the European discovery of Buddhism It was the first Buddhist sutra to be translated from Sanskrit into a Western language into French in 1844 by the eminent scholar Eug ne Burnouf That same year portions of the Lotus Sutra appeared in English in The Dial the journal of New England s Transcendentalists Lopez provides a balanced account of the many controversies surrounding the text and its teachings and describes how the book has helped to shape the popular image of the Buddha today He explores how it was read by major literary figures such as Henry David Thoreau and Gustave Flaubert and how it was used to justify self immolation in China and political extremism in Japan Concise and authoritative this is the essential introduction to the life and afterlife of a timeless masterpiece      **Silver Screen Buddha** Sharon A.
