## **Sharing Power Women In Politics:**

**Sharing Power** Manon Tremblay, 2017-03-02 The representation of women in parliament is a subject of extensive research and a focus for political action in the last decade. The wide variation in women's parliamentary presence contradicts the expectation that established or consolidated democracies are more supportive of the presence of women in political life than emerging democracies. This volume explains this variation through a series of closely investigated case studies from the post-Communist transition democracies of Eastern Europe and emerging democracies in Asia and the Middle East to the long established liberal democratic states. The volume examines the history of women's legislative involvement clearly addressing the issue of equal opportunities for women in political life on a cross-national basis. It also identifies innovative solutions to redress the power sharing balance between women and men. Offering a unique comparative perspective, **Sharing Power** will appeal to students and scholars of politics, women's studies, history, and legislative studies.

**Sharing Power** Barbara Frechette, 2011-09 After Barbara Frechette arrived in Colombia in 1994 as the wife of the United States ambassador, she witnessed the fascinating rise of powerful women leaders during the uncertainty of a dangerous drug war that raged for years. Fascinated as to how and why women progressed with such extraordinary speed in Colombia despite facing seemingly insurmountable obstacles, Frechette asked seven influential women leaders to analyze this paradoxical development. In this re-released version of her original comprehensive study of a women's movement in Colombia that sprang to life after women won the vote in 1957 and blossomed in 1998 when two of the women in this book ran for president, Frechette offers captivating chronological leadership profiles of outstanding women and the family influences, leadership styles, and religious roots that inspired them to seek to better their nation despite death threats and risks of political exile.

**Women, Politics, and Power** Pamela Paxton, Melanie M. Hughes, Tiffany D. Barnes, 2020-03-17 **Women Politics and Power: A Global Perspective** provides a clear, detailed introduction to women's political participation and representation across a wide range of countries and regions. Through broad statistical overviews and detailed case study accounts, the authors document both historical trends and the contemporary state of women's political strength. Readers see the cultural, structural, political, and international influences on women's access to political power and the difference women make once in political office. The fourth edition includes the latest information available on women in politics around the world, including current events as they have unfolded across the globe. The newest thinking in the field is presented, including on violence against women in politics. Approach and Features: Nine thematic chapters explain women's access to office in the executive, legislative, and judicial branches and why it matters. Six chapters cover women's political power in specific geographic regions with recent research and events. The book's intersectional perspective attends to the ways gender interacts with other forms of difference both throughout the volume and in a dedicated chapter. A bounty of figures, maps, and tables provide visual accounts of the variations in women's access to political power around the world, the growth in women's political power over time, and

persistent obstacles to gender equality in politics

**Political Empowerment of Women** Monique

Leyenaar, 2004-11-01 The problem of ensuring that women are at the heart of political decision making is now very topical in Europe This is because despite all of the international agreements the research the recommendations and the untold other efforts the participation of women in political bodies remains low in most European countries European governance in short still fails to include 50 per cent of women in its political decision making Why do political leaders attach importance to this issue The under representation of women in national parliaments poses a problem in terms of both the practice and the theory of politics In practical terms the under representation of women in political leadership is even more remarkable when one realizes that women have succeeded in gaining access to other sectors of society in many European countries Moreover equality between men and women is now a leading political principle all over Europe Taking part in decision making however in politics as well as in the private sector typically remains a male privilege This book explains the high level of current concern for the under representation of women in politics It explores the reasons behind recent favourable attitudes towards sharing political power with women in the Netherlands and in other European countries It identifies the many obstacles and strategies and it points out future expectations about the representation of women in Europe Under which circumstances can political players be influenced to change institutions and procedures in favour of newcomers to politics The current crisis of politics opens a window of opportunity for changing the underlying male biased structures
