Sharing Power? Patrick Porter, 2013 The subject of U S grand strategy has been getting increasing attention from the policy and academic communities However too often the debate suffers from being too reductionist limiting America s choices to worldwide hegemony or narrow isolation There is a wide spectrum of choices before Washington that lie somewhere in the middle Frequently not enough thought is given to how such alternative strategies should be designed and implemented The future cannot be known and earlier predictions of American decline have proven to be premature However there is a shift in wealth and power to the extent that America may not be able to hold on to its position as an unrivaled unipolar superpower Therefore it is worth thinking about how the United States could shape and adjust to the changing landscape around it What is more there are a number of interlocking factors that mean such a shift would make sense transnational problems needing collaborative efforts the military advantages of defenders the reluctance of states to engage in unbridled competition and hegemony fatigue among the American people Alternative strategies that are smaller than global hegemony but bigger than narrow isolationism would be defined by the logic of concerts and balancing in other words some mixture of collaboration and competition Can the United States adjust to a concert balance grand strategy that made space for other rising powers without sacrificing too much of its forward military presence without unleashing too much regional instability and without losing the domestic political will It is not certain that a cumulative shift to a new grand strategy would necessarily succeed since other powers might turn down the chance to cooperate But with soaring budget deficits and national debt increasing burdens on social security and possible agonizing choices in the future between guns and butter it is surely worth a try

Choosing Partnership, Sharing Ministry Marcia Barnes Bailey, 2007-06-20 Like many clergy Marcia Barnes Bailey began her work as an ordained leader with a vision of the pastor as leader extraordinaire empowered by education authority position and resources She soon found herself thinking There has to be another way In this book Bailey invites pastors and congregations to a new understanding of ministry leadership and the church that challenges hierarchy by fully sharing responsibilities risks and rewards in mutual ministry This model took shape over 10 years as Bailey pastoral colleague Marcus Pomeroy and the congregation they served began writing their own definition of partnership creating their own map trusting their own instincts making their own mistakes For Bailey this kind of partnership began when she discovered the courage to listen to herself and to the Spirit for the inklings of another way to incarnate Jesus s example a ministry that was widely inclusive delegated power shared authority and thrived with the multiplication of gifts Partnership invites us on a journey that can transform us as leaders as human beings and as the church It is challenging and exciting and it requires hard work It is also energizing engaging and empowering Partnership unleashes the Spirit to create a new vision and reality among us moving us one step closer to living into God s reign , **Study**

Niehaus, K.F. Price, 2012-12-06 This volume is the proceedings of a symposium entitled Human Resource Strategies for Organizations in Transition which was held at Salve Regina College Newport Rhode Island on May 30 June 2 1989 The meeting was sponsored by the Research Committee of the Human Resource Planning Society HRPS In developing the agenda the Research Committee built upon the format of the previous HRPS research symposia The intent in these meetings is on the linkage of the state of practice with the state of the art Particular attention was placed on research studies which were application oriented so that member organizations can see examples of ways to extend current practices with the knowledge presented by the applications The meeting has sessions on 1 Reshaping the Organization for the Twenty first Century 2 Coping with Major Organizational Change 3 Organization Downsizing 4 Evaluating the Human Resource Function and 5 The Impact of Corporate Culture on Future Human Resource Practices Thirty papers were presented with discussion sessions at appropriate points in the meeting This volume contains twenty one of these papers along with an introductory paper A short summary is also provided at the beginning of each major subdivision into which the papers are arranged *Handbook of Africa's International Relations* Tim Murithi, 2013-09-05 Africa's international relations have often been defined and oriented by the dominant international and geopolitical agendas of the day In the aftermath of colonialism the Cold War became a dominant paradigm that defined the nature of the continent's relationship with the rest of the world The contemporary forces of globalization are now exerting an undue influence and impact upon Africa's international relations Increasingly the African continent is emerging as a vocal and in some respects an influential actor in international relations There is a paucity of analysis and research on this emerging trend This timely book proposes to fill this analytical gap by engaging with a wide range of issues with chapters written by experts on a variety of themes The emerging political prominence of the African continent on the world stage is predicated on an evolving internal process of continental integration In particular there are normative and policy efforts to revive the spirit of Pan Africanism the 21st century is witnessing the evolution of Pan Africanism notably through the constitution and establishment of the African Union AU Given the fact that there is a dearth of analysis on this phenomenon this volume will also interrogate the notion of Pan Africanism through various lenses notably peace and security development the environment and trade The volume will also engage with the emerging role of the AU as an international actor e.g. with regard to its role in the reform of the United Nations Security Council climate change the International Criminal Court ICC the treaty establishing Africa as a nuclear free zone Internally Displaced Persons the Millennium Development Goals MDGs international trade the environment public health issues security and development

issues This book will assess how the AU's role as an international actor is complicated by the difficulty of promoting consensus among African states and then maintaining that consensus in the face of often divergent national interests This book will in part assess the role of the AU in articulating collective and joint policies and in making interventions in international decision and policy making circles The Handbook will also assess the role of African social movements and their relationship with global actors The role of African citizens in ameliorating their own conditions is often underplayed in the international relations discourse and this volume will seek to redress this oversight Throughout the book the various chapters will also assess the role that these citizen linkages have contributed towards continental integration and in confronting the challenges of globalization
