Sharkes In The North Woods:

Sharks in the Northwoods Jane Zaring,1982 **North Woods** ,1914 The Sharks of North America Jose I. Castro,2011-07-28 A complete reference to all the sharks inhabiting North American waters with excellent color illustrations of all the species **The Gremlin's Shoes (Big Foot and Little Foot #5)** Ellen Potter,2021-04-20 Book 5 in the charming chapter book series about the adventures of a human boy and a young Sasquatch now in paperback Hugo and Boone were having a bad case of Nothing to do itis They have free time but can t think of a single thing to do Finally they decide to head to Uncle Figgy s Toy Store where they discover the legendary Mad Marvin presenting his new invention the Marvelous Monster Magnet The only problem is the toy costs twenty five nubbins a huge sum Hugo and Boone set off on an adventure to earn the money a journey that leads them to a treasure hunt through the woods As always the friends will find much more than they expected Wild Capital Barbara K. Jones,2019-11-11 In Wild Capital Barbara Jones demonstrates that looking at nature through the lens of the marketplace is a surprisingly effective approach to protecting the environment Showing that policy makers and developers rarely associate wild places with monetary values Jones argues that nature can and should be viewed as a capital asset like any other in order for environmental preservation to be a competitive alternative to development Jones describes how the ecosystem services model a tool that connects human well being with the services nature provides can play a critical role in assigning species and their habitats measurable values She uses five highly recognizable animal species moose manatees sharks wolves and bald eagles as examples to show how highly valued charismatic fauna can serve as symbolic representations of entire ecosystems at risk Through an emphasis on branding incentives and ecotourism Jones advocates for channeling the social and economic power of these and other faces of nature to inspire greater environmental awareness and stewardship Contending that many people don t realize how fiscally pragmatic environmental initiatives can be Jones is optimistic that by recognizing the costs of habitat destruction and diminished biodiversity we will make better choices regarding conservation and development In doing so we can more readily move toward co existence with nature and a sustainable future **Pennsylvania Forests** ,1890 Forest Leaves ,1887 **Father Water, Mother Woods** Gary Paulsen,Ruth Wright Paulsen,2011-08-31 Survival in the wilderness Gary Paulsen writes about it so powerfully in his novels Hatchet and The River because he s lived it These essays recount his adventures alone and with friends along the rivers and in the woods of northern Minnesota There fishing and hunting are serious business requiring skill secrets and inspiration Luck too not every big one gets away This book takes readers through the seasons from the incredible taste of a spring fish fresh from the smokehouse to the first sight of the first deer to the peace of the winter days spent dreaming by the stove in a fishhouse on the ice In Paulsen s north country every expedition is a major one and often hilarious Once again Gary Paulsen demonstrates why he is one of America s most beloved writers for he shows us fishing and hunting as pleasure as art as companionship and as sources of life s deepest lessons **Lancelets,**

Clay Creswell, 2021-06-14 A detailed account of over one hundred shark related incidents on the coast of the Carolinas from a shark bite investigator Powerful and mysterious sharks inspire both fascination and fear Worldwide oceans are home to some five hundred species and of those fifty six are known to reside in or pass through the waters off the coast of both North and South Carolina At any given time waders swimmers and surfers enjoying these waters are frequently within just one hundred feet of a shark While it s unnerving to know that sharks often swim just below the surface in the shallows W Clay Creswell a shark bite investigator for the Shark Research Institute s Global Shark Attack File explains that attacks on humans are extremely rare In 2019 the International Shark Attack File confirmed sixty four unprovoked attacks on humans including three in North Carolina and one in South Carolina While acknowledging that they pose real dangers to humans Creswell believes the fear of sharks is greatly exaggerated During his sixteen year association with the Shark Research Institute he has investigated more than one hundred shark related incidents and has maintained a database of all shark human encounters along the Carolina coastlines back to 1817 Creswell uses this data to expose the truth and history of this often sensationalized topic Beyond the statistics related to attacks in the Carolina waters *Sharks in the Shallows* offers a history of shark human interactions and an introduction to the world of shark attacks Creswell details the conditions that increase a person s chances of an encounter profiles the three species most often involved in attacks and reveals the months and time of day with the highest probability of an encounter With a better understanding of sharks responses to their environment and what motivates them to attack humans he hopes people will develop a greater appreciation of the invaluable role sharks play in our marine environment
