Olivier Jean Chothia's study is in two parts beginning with a portrait of the period setting the narrative context and considering the dramatic social and cultural changes at work during this time. The Broadview Anthology of Nineteenth-Century British Performance Tracy C. Davis, 2011-12-20 This collection provides a representative set of theatrical performances popular on the nineteenth century British stage. All are newly edited critical editions that account for variant sources reflecting the process of rehearsal, licensing and production. Detailed introductions and extensive notes explain the texts' relationship to repertoires, the circulating discourses of intelligibility that constantly recombine in performance. The plays address the topical concerns of slavery, imperial conquest, capitalism, interculturalism, uprisings at home and abroad, modernist aesthetic innovation and the celebration of collective identities. Adaptations from novels, travelogues and other plays are discussed along with the theatrical history that sustained these works on the stage.

Bernard Shaw's Marriages and Misalliances Robert A. Gaines, 2017-10-25 This book combines the insights of thirteen Shavian scholars as they examine the themes of marriage, relationships and partnerships throughout all of Bernard Shaw's major works. It also connects Shaw's own experiences of love and marriage to the themes that emerge in his works, showing how his personal relationships in and out of matrimonial bonds change the ways his characters enter and exit marriages and misalliances. While providing a wealth of new analysis, this collection of essays also leaves lingering questions for the reader to spark continuing dialogue in both individual and academic settings.
