Islamic Legal Methodology Ahmad Kazemi Moussavi ,Hamid Mavani ,2024-07-16 This book discusses the historical development of the legal methodology for the interpretation of the Shari ah and analyzes proposed reforms by modern Muslim scholars This study has two goals 1 to summarize usul al fiqh s rise and development from its rudimentary form to its advanced and mature phase by articulating the contributions of eminent jurists on key intellectual debates and 2 to present a schema of reforms new hermeneutics and epistemology proposed by modernists to bring about foundational changes in Islamic legal methodology so that they can bypass the authority of the legal language The critical distinction between the timeless Shari ah and mutable jurisprudence allows for a mechanism that can review and revise juridical opinions in the light of new information *The Caliph and the Imam* Toby Matthiesen,2023 The authoritative account of the sectarian division that for centuries has shaped events in the Middle East and the Islamic world In 632 soon after the prophet Muhammad died a struggle broke out among his followers as to who would succeed him The majority argued that the new leader of Islam should be elected by the community s elite Others believed only members of Muhammad s family could lead This dispute over who should guide Muslims the appointed Caliph or the bloodline Imam marks the origin of the Sunni Shii split in Islam Toby Matthiesen explores this hugely significant division from its origins to the present day Moving chronologically his book sheds light on the many ways that it has shaped the Islamic world outlining how over the centuries Sunnism and Shiism became Islams two main branches particularly after the Muslim Empires embraced sectarian identity It reveals how colonial rule institutionalised divisions between Sunnism and Shiism both on the Indian subcontinent and in the greater Middle East giving rise to pan Islamic resistance and Sunni and Shii revivalism It then focuses on the fall out from the 1979 revolution in

Iran and the US led military intervention in Iraq As Matthiesen shows however though Sunnism and Shiism have had a long and antagonistic history most Muslims have led lives characterised by confessional ambiguity and peaceful co existence Tensions arise when sectarian identity becomes linked to politics Based on a synthesis of decades of scholarship in numerous languages The Caliph and the Imam will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots

Studies in Medieval Islamic Intellectual Traditions Hassan Ansari, Sabine Schmidtke, 2017-11-01 The present volume focuses on aspects of Islamic thought in Iran and Yemen and other regions of the Middle East ninth through fifteenth century CE through a close study of manuscript materials The book's sixteen chapters are arranged under five rubrics Mu'tazilism Zaydism in Iran and in Yemen Twelver Shiism Mysticism and Bibliographical Traditions The material included in the book has been published previously in a different version The appearance of these studies together in a single volume makes this book a significant and welcome contribution to the field of classical Islamic Studies

Theocratic Secularism Naser Ghobadzadeh, 2022 This book articulates a religious rationale for political secularism in the Iranian shi'i context The genealogy of Twelver shi'i political theology shows that the bitter experience and lack of success of the shi'ia in the field of governance in the early centuries of Islamic history led them to link the realisation of their ideal political system to transcendental factors Belief in theocracy has always been the basis of shi'i political theology but with the messianic conception of the 12th Imam in the fourth/tenth century its realisation came to depend on the will and intervention of the divine As a result shi'i leaders while awaiting the return of the 12th Imam not only do not have the authority or responsibility to take over the institution of government but have been forbidden from doing so For more than 1300 years the political thought and action of shi'i religious leaders was shaped by the political theology formulated in this book as Theocratic secularism In opposition to orthodox shi'i theology a new politico-religious discourse emerged at the initiative of Ayatollah Khomeini in the last decades of the twentieth century which in this book is referred to as governmental shiism In sharp contrast to shi'i orthodoxy governmental shiism considers the occupation of the government apparatus as the duty of shi'i religious leaders In this book it is argued that governmental shiism was neither the product of a theological transformation of shi'i orthodoxy nor used as a blueprint to establish the Islamic Republic Rather the formation of the Islamic Republic and the clergy's rise to power led to the birth of governmental shiism and bestowed importance on Khomeini's doctrine of wilayat-i faqih

Hawza-yi 'Ilmiyya, Shi'i Teaching Institution Gholamali Haddad Adel, Mohammad Jafar Elmi, Hassan Taromi-Rad, 2012-08-31 For centuries the hawza system of seminary education has produced outstanding scholars and fostered the development of Islamic studies throughout the Shi'i world The present book discusses the hawza from its formative period in the second Islamic century until the modern day In addition to discussing the major hawza centres of Qum and Najaf it also discusses the history and development of hawzas in Rayy Baghdad Hilla Jabal Amil Isfahan Tehran and Mashhad Academic concerns such as texts curricula and pedagogical methodologies are

discussed along with the sociopolitical conditions that affected the awzas This book is part of a series of translations from the Encyclopaedia of the World of Islam EWI which was originally compiled in Persian Other entries from this encyclopaedia which are available in English include Hadith History and Historiography Periodicals of the Muslim World Muslim Organizations Politics Political Parties Qur'anic Commentaries Qur'anic Exegesis Sufism and Education in Islamic Civilisation

Religious Authority and Political Thought in Twelver Shi'ism Hamid Mavani, 2013-06-26 Ranging from the time of the infallible Imams to the contemporary era this book provides a comprehensive overview of Shi'i religious and political authority focusing on Iran and Lebanon without limiting the discourse to Khomeini's version of an Islamic State Utilising untapped Arabic and Persian sources Hamid Mavani provides a detailed nuanced and diverse theoretical discussion on the doctrine of leadership Imamate in Shi'ism from traditional theological philosophical and mystical perspectives This theoretical discussion becomes the foundation for an analysis of the transmission of the Twelfth Imam's religious and political authority vis-à-vis the jurists during his Greater Occultation Bringing the often overlooked diversity within the Shi'i tradition into sharp focus Religious Authority and Political Thought in Twelver Shi'ism discusses what constitutes an Islamic state if there is such a notion as an Islamic state Hamid Mavani further explores the possibility of creating a space for secularity facilitating a separation between religion and state and ensuring equal rights for all This book argues that such a development is only possible if there is a rehabilitation of ijtihad If this were to materialise modern religious social economic political and cultural challenges could be addressed more successfully This book will be of use to scholars and students with interests ranging from Politics to Religion to Middle East Studies

Hussein Ali Abdulsater, 2017-06-02 Examines the critical turn that shaped Imami Shi'ism in the 10th and 11th centuries a God is not free to act He is bound by human ethics To be just He must create an individual of perfect intellect and infallible morality People are obligated to submit to this person otherwise eternal damnation awaits them While these claims may be interpreted as an affront to God's power an insult to human judgment and a justification for despotism Shi'ite Muslims in the eleventh century eagerly adopted them in their attempts to forge a rational religious discourse They utilized everything from literary studies and political theory to natural philosophy and metaphysical speculation in support of this project This book presents the contribution of al-Shar'af al-Murta'ad 1044 of Baghdad the thinker most responsible for this irreversible change which remains central to Imami identity It analyzes his intellectual project and establishes the dynamic context which prompted him to pour the old wine of Shi'ite doctrine into the new wineskin of systematic Mu'tazili theology a Key Features Comprehensive coverage of al-Murta'ad's enormous oeuvre running to several thousand pages and diversity spanning virtually all contemporary fields of knowledge A meticulous engagement with long and dense theoretical texts that are either in manuscript form or poorly edited An orderly presentation that equips readers with an overall understanding of Shi'ite theology in its main phases while preserving the profundity of analysis The study of a little known author whose views nonetheless are still a major influence for Shi'ite Muslims
