Blackwood's Magazine, 1916 Blackwood's Edinburgh Magazine, 1894 **The Ophthalmic Review**, 1914 **The Assassination of President John F. Kennedy: The Final Analysis** David W. Mantik, M.D., Ph.D.,Jerome R. Corsi, Ph.D.,Douglas P. Horne, In this decisive analysis of the JFK assassination medical expert Dr David W Mantik and New York

Times bestselling author Jerome R Corsi definitively validate the observations of the physicians at Parkland Hospital who recognized immediately that the wound in JFK's throat and the massive avulsed blow out in the back of his head both involved frontal shots. What distinguishes this book from the myriad of books written on the JFK assassination is that Dr Mantik's optical density measurements of the JFK skull X rays in the National Archives leave no doubt the X rays were altered to disguise evidence of the two frontal shots. With over four decades of experience reading X rays Dr Mantik has examined the JFK assassination materials more than anyone else. Mantik and Corsi present overwhelming testimonial and documentary evidence that proves the Bethesda surgeons performed pre autopsy surgery on JFK's head to remove evidence of the forehead bullet as well as to gain access to his brain and thus sanitize the crime scene by removing bullet fragments and bullet tracks in the brain tissue. The world is starving for objective science. This book contains objective forensic science for which the world will never be ready. If the X rays were doctored the CIA the FBI and the US Secret Service have some questions to answer. The public deserves the final analysis of these issues.
