Louisiana Legacy Evans J. Casso, 1976 **Louisiana Legacy** Evans J. Casso, 1976-09-01 *Louisiana Legacy* Evans J. Casso, 1999-04-30 From the militia of colonial days to the National Guard of modern times America's citizen soldiers have symbolized the preparedness the unselfish service and the devotion to duty that have sustained the nation in war and peace In times of grave national crisis including wars civil disorders and natural disasters these often unheralded patriots have served willingly faithfully and well And having contributed their special abilities to the task at hand they returned to their citizen roles to await the next summons to duty Here for the first time is the complete detailed documented history of the Louisiana National Guard a facet of the state's rich and colorful history that has never before been treated in depth Author Evans J Casso has woven an intricate tapestry of this continuing chronicle drawing heavily upon extensive research from official state papers archives journals narrative reports and numerous personal interviews With a disciplined historian's eye he traces the evolution of the Guard from its forerunners of the frontier days to the highly trained well equipped organization of modern times This work places in perspective the growth of the National Guard and the vital role it has played in the development of the Louisiana Territory and later of both the state and the nation *United States Army unit histories* George Sotiros Pappas, 1978 United States Army Unit Histories George S. Pappas, 1978 Armies, Corps, Divisions, and Separate Brigades, 1987 Special Bibliography, 1978 Uncivil War James K. Hogue, 2011-11-15 No other Reconstruction state government was as chaotic or violent as Louisiana's located in New Orleans the largest southern city at the time James K Hogue explains the unique confluence of demographics geography and wartime events that made New Orleans an epicenter in the upheaval of Reconstruction politics and a critical battleground in the struggle for the future of southern society No other Reconstruction state government was as chaotic or violent as Louisiana's located in New Orleans the largest southern city at the time James K Hogue explains the unique confluence of demographics geography and wartime events that made New Orleans an epicenter in the upheaval of Reconstruction politics and a critical battleground in the struggle for the future of southern society Hogue characterizes Reconstruction in Louisiana as a continuation of civil war waged between well organized and well armed forces vying to control the state's government He details five key New Orleans street battles in which elite Confederate veterans played central roles and gives an in depth account of how the Republican state government raised militias and a state police force to defend against the violence In response a white supremacist movement arose in the mid 1870s and finally overthrew the Republicans The occupation of Louisiana by federal troops from 1862 to 1877 was the longest of its kind in American history Not coincidentally Hogue argues one of the longest unbroken periods of one race one party dominance in American history followed lasting until 1972 Uncivil War reveals that the long term military impact of the South's occupation included twenty five years of crippled War Department budgets inflicted by southern congressmen who feared another Reconstruction Within Louisiana the biracial Republican militias were

dismantled leaving blacks largely unarmed against future atrocities at the same time the nucleus of the state's White Leagues became the Louisiana National Guard which defended the Redeemer government's repressive labor policies White supremacist victory cast its shadow over American race relations for almost a century Moving between national state and local realms Uncivil War demystifies the interplay of force and politics during a complex period of American history

Louisiana History ,2004 Mobilizing the South Christopher M. Rein,2022-08-23 Throughout its history the United States has fought its major wars by mobilizing large numbers of citizen soldiers While the small peacetime regular army provided trained leadership and a framework for growth the citizen soldier from the minuteman of the American Revolution to Civil War volunteers and the draftees of World War II have successfully prosecuted the nation's major wars But the Army and the nation have never fully resolved the myriad problems surrounding the mobilization and employment of reserve troops National Guard divisions in World War II suffered from neglect during the interwar period and Great Depression and regular Army commanders often replaced or relieved National Guard officers which generated lingering resentment At the same time draftees from across the nation diluted the regional affiliations of many units with a corresponding effect on morale and esprit de corps Chris Rein's study of one division recruited from the Gulf South and employed in the Southwest Pacific Theater in 1944 and 1945 highlights the challenges of reserve mobilization training and the combat deployment of National Guard units His account demonstrates the still strong connections between the local communities that hosted and supported National Guard companies before the war even after an influx of new personnel nationalized the units and they shipped overseas The 31st Division reorganized after combat deployment in World War I consisted primarily of infantry regiments from Florida Alabama Mississippi and until 1942 Louisiana Mobilized for federal service in late 1940 the division participated in the critical Louisiana and Carolina Maneuvers in 1941 but then languished for the next two years as a training organization though it provided trained cadres and replacements for other divisions the Army deployed to Europe and the Pacific In 1944 the division finally shipped overseas enduring the brutal conditions in the Southwest Pacific but successfully conducting landings on the New Guinea coast in support of Gen Douglas MacArthur's island hopping campaign directed at liberating the Philippines After a change in leadership on the second day of the amphibious assault on Morotai the division supported the liberation of Mindanao the southernmost major island in the archipelago before redeploying for demobilization at the end of 1945 Rein's study traces the division's decades of duty from the interwar period when it contended with a series of devastating natural disasters through its mobilization and combat deployment However within the 31st Division's story there are several significant issues that remain highly relevant for reserve deployment today The first centers on the issue of World War II era National Guard leadership The Army implemented a purge of overage and less competent National Guard division commanders in order to replace them with younger officers of the regular Army Maj Gen John C Persons a pre war Birmingham resident and Alabama National Guard officer commanded the division throughout the peacetime mobilization

and training and the first operation in New Guinea only to be summarily fired on the second day of the Morotai landings an action not adequately explained in the existing literature The second issue concerns the Army's nationalization of regional units While this policy has the benefit of spreading any casualties across the nation rather than duplicate the horrific losses of the Bedford Boys of the 29th Infantry Division that devastated one small Virginia community it also erodes regional identity and esprit de corps This work is a case study of the strength and weaknesses of units with a regional identity and explores the connections with the home front once that identity erodes It also examines the Dixie Division's operational and strategic evolution but just as importantly details drawn from soldiers' correspondence and oral histories to show how their exposure to a larger world including service alongside African American and Filipino units changed their views on race and post war society

The Great Call-Up Charles H. Harris, Louis R. Sadler, 2015-01-20 On June 18 1916 President Woodrow Wilson called up virtually the entire army National Guard some 150 000 men to meet an armed threat to the United States border raids covertly sponsored by a Mexican government in the throes of revolution The Great Call Up tells for the first time the complete story of this unprecedented deployment and its significance in the history of the National Guard World War I and U S Mexico relations Often confused with the regular army operation against Pancho Villa and overshadowed by the U S entry into World War I the great call up is finally given due treatment here by two premier authorities on the history of the Southwest border Marshaling evidence drawn from newspapers state archives reports to Congress and War Department documents Charles H Harris III and Louis R Sadler trace the call up's state based deployment from San Antonio and Corpus Christi along the Texas and Arizona borders to California Along the way they tell the story of this mass mobilization by examining each unit as it was called up by state considering its composition missions and internal politics Through this period of intensive training the Guard became a truly cohesive national then international force Some units would even go directly from U S border service to the battlefields of World War I France remaining overseas until 1919 Balancing sweeping change over time with a keen eye for detail The Great Call Up unveils a little known yet vital chapter in American military history
