## Collections

February 2000

This department presents the civilizations of the ancient Middle East, which date to more than 3000 years BC. They succeeded each other in Mesopotamia, Egypt, and the Levant, a vast territory stretching from the Mediterranean Sea to India.

### References

Created by Jean-François Champollion, this department illustrates the art of ancient Egypt by means of two decorated pages. The first is Champollion's *lexicon* or *catalogue* in Champollion, and the second is a *document*, highlighting specific aspects of Egyptian civilization. Two additional sections, devoted to Copia Egypt and Roman Egypt, round out this

Greek, Roman,  
and Modern Architecture

This department continues to actively produce the three national collections—Clothing, Furniture, and Books. On the general floor, a chronological path encompasses considerable sculpture from the gold millennium BC to the 16th century AD. On the first floor, the collection is organized by technique and type of material such as bronze, jewelry, silverware, and glassware as well as by various functions and uses.

### History of the Laboratory and Molecular Research

These two rooms and an archaeological path present the archaeological history of the colony.

1000

The collections in this department cover the history of European painting from the mid-15th century to the mid-19th century. They are divided into three major groups: the French school (a number of subgroups), the Italian and Spanish schools, and the Northern European schools (German, Flemish, and Dutch).

100

This department encompasses European sculpture from the High Middle Ages to the mid-eight century. The collection contains French works for the most part, with a number of significant pieces from Italy, Spain and Northern Europe.

100

The collections in this department – e.g. objects from the Middle Ages and the Renaissance, decorative arts of the 17th and 18th centuries, items from the 19th century in the Chinese collection belonging to the French crown, 19th century objects and furniture, and the Napoleon III apartments – mean many different periods.

The 1986 *Identifying Alternatives* will continue to be relevant until 2015, due to ongoing implementation supported by the High Ministry of Natural Resources, Forestry, and Environment, Department of Forestry, National Environmental Research Institute, The Conservation Company, United Nations, and the International Commission on the Great Lakes. The Ministry of Natural Resources, Forestry, and Environment, as well as the Conservation Company, will continue to support the project.

### Patient and Caregiver

The Prints and Drawings Department maintains the collection of drawings (more than one hundred thousand works) of the Florentine de Medici-Riccardi library and the greatest plans collection. These works may be viewed privately by arrangement. Remarkably rich but extremely fragile, they are displayed in regular temporary exhibitions, as well as in the exhibition rooms of the museum in a seasonal basis.
