Secrets, Lies, Betrayals Maggie Scarf, 2005-06-07 Reading Maggie Scarf's groundbreaking new book could change your life. In *Secrets, Lies, Betrayals*, the bestselling author of *Unfinished Business*, *Intimate Partners*, and *Intimate Worlds* brilliantly explores how the body holds on to painful episodes from the past, including secrets we may be keeping even from ourselves, and how we can release them to live freer, healthier lives. The body has a unique memory system in which early trauma and deeply buried feelings become woven into the fabric of our physical being. Certain events can trigger these body memories, which may then manifest themselves symptomatically as persistent anger, mood swings, headaches, muscle tension, and fatigue. These echoes from the past also cause destructive patterns in our lives and relationships. Why does a beautiful, successful woman like Claudia seek out abusive, explosively tense relationships in which she is forced to hide the truth about herself? Why does the presence of a strange woman's name in her husband's cell phone directory make Karen feel physically ill to the point where she cannot get through her daily life? And why does the author herself experience painful physical symptoms when she wrestles with contradictory memories of her mother? Exploring these and other personal narratives, Scarf reveals how the body, through its neurobiological systems, retains some of life's most important experiences and describes how new power therapies such as reprocessing and psychomotor have had immediate results where traditional therapies have had a lower success rate. Grounded in recent breakthroughs in mind-body science and drawing on Scarf's personal experiences, this book is a masterpiece of research, analysis, and insight into the human psyche and into human life. **Primary Psychiatry**, 1998 **The New York Times Magazine**, 1998-10 **Bibliographic Guide to Womens Studies 1998** New York Public Library Staff, 1999-08 The Mythological Unconscious Michael Vannoy Adams, 2010-12-15 Ancient gods and goddesses, heroes and heroines, and fabulous creatures are alive and well within our unconscious. Sigmund Freud speaks of endopsychic myths and psycho-mythology. C. G. Jung of the mythopoeic imagination and the myth-forming structural elements of the psyche. James Hillman contends that the essence of the psyche is myth. Michael Vannoy Adams provides persuasive examples of how myths appear in our dreams and fantasies and does so with erudition, wit, and eloquent clarity. Adam's authoritative study, now appearing in a second, expanded edition, has won high praise from fellow analysts. Ginette Paris called *The Mythological Unconscious* a treasure trove of the imagination, and Beverly Zabriskie cited its balance of charm and scholarship, humor, and gravitas, which simultaneously amuses and enlightens. The British National Bibliography Arthur James Wells, 2001 **Subject Guide to Books in Print**, 1991 **Love and Loss** Colin Murray Parkes, 2013-05-13 Loving and grieving are two sides of the same coin; we cannot have one without risking the other. Only by understanding the nature and pattern of loving can we begin to understand the problems of grieving. Conversely, the loss of a loved person can teach us much about the nature of love. *Love and Loss*, the result of a lifetime's work, has important implications for the study of attachment and bereavement. In this volume, Colin Murray Parkes reports his innovative research that enables us to bring together knowledge of childhood attachments and problems of bereavement, resulting in a new way of thinking about love, bereavement, and other

losses Areas covered include patterns of attachment and grief loss of a parent child or spouse in adult life social isolation and support The book concludes by looking at disorders of attachment and considering bereavement in terms of its implications on love loss and change in a wider context Illuminating the structure and focus of thinking about love and loss this book sheds light on a wide range of psychological issues It will be essential reading for professionals working with bereavement as well as graduate students of psychology psychiatry and sociology
