## Love And Madness:

**Love's Madness** Helen Small, 1996 *Love's Madness* is an important new contribution to the interdisciplinary study of insanity. Focusing on the figure of the love mad woman, it presents a significant reassessment of the ways in which British medical writers and novelists of the nineteenth century thought about madness, femininity and narrative convention. The book centers around studies of novels by Jane Austen, Sir Walter Scott, Charlotte Brontë, Wilkie Collins and Charles Dickens as well as of previously neglected writings by Charles Maturin, Lady Caroline Lamb and Edward Bulwer-Lytton among others.

Love Ryan Patrick Hanley, 2024 Love has been a central concept of philosophical inquiry over the last several millennia. Love: A History chronicles the most significant moments in this concept's long and complex evolutionary life and collectively tell the story of the ways in which love's horizons shifted from the transcendent to the immanent over the course of its conceptual history.

*Love Cures* Laine E. Doggett, 2012-04-30 What is love? Popular culture bombards us with notions of the intoxicating capacities of love or of beguiling women who can bewitch or heal to the point that it is easy to believe that such images are timeless and universal. Not so, argues Laine Doggett in *Love Cures*. Aspects of love that are expressed in popular music such as love is a drug, sexual healing and love potion number nine trace deep roots to Old French romance of the high Middle Ages. A young woman heals a poisoned knight. A mother prepares a love potion for a daughter who will marry a stranger in a faraway land. How can readers interpret such events? In contrast to scholars who have dismissed these women as fantasy figures or labeled them witches, Doggett looks at them in the light of medical and magical practices of the high Middle Ages. *Love Cures* argues that these practitioners as represented in romance have shaped modern notions of love. *Love Cures* seeks to engage scholars of love, marriage and magic in disciplines as diverse as literature, history, anthropology and philosophy.

**Madness, Love and Tragedy in Nineteenth and Twentieth Century Spain** Marta Manrique Gomez, 2014-01-16 How do Spanish writers of the 19th and 20th century define and represent madness, a basic and controversial aspect of world culture, and how do the different conceptions of madness intersect with love, religion, politics and other literary themes in Spanish society? This multi-author book analyzes the theme of madness in formative masterpieces of Spanish literature of the 19th and 20th century through the use of relevant critical and theoretical approaches. In this context, authors studied in this book include Juan Valera, Leopoldo Alas 'Clarín', Emilia Pardo Bazán, Caterina Albert, Benito Pérez Galdós, Miguel de Unamuno and Juan Goytisolo among others.

Love + Marriage = Death Sander L. Gilman, 1998 A pioneering interdisciplinary scholar examines the roles of images in the construction of stereotypes of the Jew's body in 20th century art and literature.

Victor Karandashev,2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world's cultures Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts future development A timely and thoughtful addition to the literature Romantic Love in Cultural Contexts delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations Flix Neto Professor of Psychology Faculdade de Psicologia e de Ciências da Educação Universidade do Porto Portugal      **Land, Nation and Culture, 1740-1840** Peter de Bolla,N.
