## **Love As Passion:**

Reality, Religion, and Passion Jessica Frazier, 2009-01-16 The problem of radical doubt has threatened the commitment to ultimate truth in many cultures and periods In *Reality Religion and Passion* Jessica Frazier compares two thinkers who sought to restore philosophy's passion for truth in cultures threatened by the dispassion of radical doubt In these complementary but divergent philosophies from Europe and India each grounded in a transcendental metaphysics that sees consciousness as the basis of reality two different ethics of vitality and passion take shape Frazier shows how Heidegger's heir Hans Georg Gadamer uses metaphysical insights borrowed from Plato Aristotle Hegel and Heidegger as the ground for an ethics of play which casts a uniquely positive light on the finitude and flux of the postmodern world view Complementing this continental European position the work of Rupa Goswami a poet theologian of early modern India develops a similar analysis of phenomenal reality into a philosophy not of play but of passion From Gadamer's philosophers and poets to Goswami's amorous goddess Radha both visions see salvation in a renewed passion for truth This journey toward a viable philosophy of life touches on a range of debates in Western philosophy and Indian religion including the nature of philosophical and religious truths the perceived goals of philosophy the history of emotion in reason and religion and the development of phenomenological accounts of subjectivity It establishes a model for comparative philosophical methodology and aims to contribute to a multicultural history of religious and philosophical reasoning Above all this book addresses Badiou's challenge to rediscover the passion of the real and Heidegger's injunction to all thinkers to seek the word that is able to call one to faith

A Love for Nothingness, A Love for Death Alberto Castelli, 2024-06-15 This book aims at explaining romantic love between straight adults through literary texts of the western canon from the nineteenth and twentieth century Each chapter comes with a multidisciplinary approach in which protagonists are mutilated in their quest for loving as alternative to annihilation The book emphasizes love as an obsession thus as an exploration of the mind From the passion myth of Tristan and Isolde to the nihilist modernist representations the western world has created a perverse

concept of love A love for nothingness for death Narcissistic and at times destructive love is gained by overcoming obstacles If without obstacles there is no love then love becomes love for obstacles Within this masochistic frame love falling in love being loved always stand at the edge of pathology At its core this book narrates a love story more precisely a story of loves the haunting evocation of a desire that by its very nature cannot be fulfilled Inherent in the nature of love is a subtle dialectical activity between presence and absence between creation and destruction reality and void Accordingly the narrative raises questions that the past two centuries were incapable of answering Does love only last the time of a kiss Is its promise fatally destined to dissolve What about violence Physical emotional temporal Is it an ineliminable part of love or its most extreme profanation And what is the mystery that accompanies loves that know how to last without resigning themselves to the death of desire It is to answer some of these questions that I wrote this text Love is an unconscious process that dominates reason and destroys it when reason cannot be a mode of communication Hence the amorous romance is madness and this text is written as a loud reminder

**Selected Poetry and Prose of Edmond Holmes** John Howlett, 2016-05-23 This book represents the first scholarly gathering together of the long neglected poetry of the School Inspector educationalist and philosopher Edmond Holmes 1850-1936. Alongside a generous selection from Holmes's six volumes of poetry, there is also a full reproduction of Holmes's essay 'What is Poetry' which served to delineate his thinking on the discipline. Supporting these original works is both a lengthy scholarly introduction and extensive endnotes which serve to locate Holmes's poetry not merely within the context of its time and amongst his own contemporaries but also to make a case for the importance of this body of work in its own right, particularly in its promulgation of original and innovative ideas. Holmes's poetry represents a particularly unique combination of traditional verse form coupled with innovative and esoteric subject matter, often drawing upon Eastern Buddhist philosophy as well as Western Romanticism and Pantheism, and so deserves to be more widely recognized as being wholly distinctive within the canon of Victorian and Modern poetry.

**Interpersonal Relationships** Diana Jackson-Dwyer, 2013-10-15 With a more specific focus than the all-encompassing textbook, each title in the Foundations of Psychology series enables students who are new to psychology to get to grips with a key area of psychological research while also developing an understanding of basic concepts, debates and research methodologies. In this book, Diana Jackson-Dwyer presents an introductory survey of classic and recent research on relationships and the theories that underpin them. The book starts with a brief overview of the place of relationships within the history of psychology and of their evolutionary roots: our need to belong, to attach and to affiliate. After a look at methodology, it considers different types of relationships: kinship, friendship, loving and mating. Theories are advanced to explain the formation, maintenance and breakdown of relationships. The book draws on a wide array of contemporary research and covers issues ranging from rising divorce rates to cultural variations in mating patterns, the issue of gay marriage and the effect of the internet on relationships. Each chapter contains numerous pedagogical features which will help students to engage with the material: Chapter-specific learning objectives and summaries of key points; Study boxes presenting reflective exercises, research questions and issues for discussion; Glossaries and suggestions for further reading. Assuming no prior knowledge of the subject, *Interpersonal Relationships* provides an accessible and up-to-date overview of this vibrant area of psychology. The book will be ideal reading for students who are new to higher-level study, whether at school, college or university, and will also be useful for first-year undergraduate students taking introductory courses in psychology.
