K. Gibran, 2015-08-01 The Falklands War is an ideal showcase for how British policy evolved in the 1970s and 1980s The background of the dispute over the island group in the remote South Atlantic called Las Malvinas by the Argentines is given first then the events that precipitated the 1982 conflict and extensive examination of the military aspects of the war are provided An overview follows of the many hypotheses offered for the British motivation to recapture the Falklands showing that only those theories pertaining to the British perception of their national honor and the defense of democratic principles are significant The Falklands War did not result in a dramatic shift in British defense policy but did show the importance of external developments and political realism in policy formation and these considerations are fully detailed here *The Soviet Naval Threat To Europe* Bruce W. Watson, Susan M Watson, 2020-01-09 Originally published in 1989 Given the events of 1987 and 1988 the death of Admiral Sergei G Gorshkov who had served as Commander in Chief of the Soviet Navy from 1956 to 1985 and was so influential in the development of the current Soviet Navy the Soviet policy of glasnost the U S Soviet arms negotiations Secretary Mikhail Gorbachev's visit to Washington President Ronald Reagan's visit to Moscow and the treaty concerning intermediate range nuclear weapons a study of the Soviet naval threat to Europe is particularly timely This study begins by examining Soviet military and naval strategy which provides a view of how the Soviets intend to use their forces Then the book explores Soviet naval capabilities and operations because a full understanding of Soviet naval power provides an understanding of the isolation that Europeans often feel In the fourth and fifth sections of the book we examine the threat to northern and southern Europe

No Shells, No Attack! - The Use Of Fire Support By 3 Commando Brigade Royal Marines During The 1982 Falkland Islands War Lieutenant Colonel Thomas R.

Hogan, 2014-08-15 The 1982 British campaign to recapture the Falkland Islands was a naval operation of relatively short duration Nevertheless many of the British lessons learned are applicable to the U S Army No notice deployment assignment as part of a naval landing force and combat operations beyond the range of land based close air support are all reasonable missions for light divisions This study analyzes one aspect of the British experience the use of fire support by 3 Commando Brigade Royal Marines Through historical review the study examines the use of mortars artillery naval gunfire and close air support to complement ground maneuver The purpose behind the study is to highlight the effectiveness with which 3 Commando Brigade utilized fire support during an island invasion slightly more than one year before the U S Army experience in Grenada Conclusions focus on three areas In the first area fire support relationships the study contends that the British marriage of maneuver and fire support is exceptionally strong and that the strength is largely attributable to the utilization of the artillery battery commander at maneuver battalion headquarters In the second area fire support for naval operations the importance of Army interoperability with naval gunfire and air support is developed In the third area fire support effects the study asserts that the mental effects of fire support were a major contributor to British victory

Sea-Based Airpower—The Decisive Factor In Expeditionary Operations? Norway 1940, Falkland Islands 1982

Major Willard A. Buhl,2015-11-06 This essay examines the British use of sea based aviation in support of two modern amphibious campaigns the British campaign in Norway in 1940 and in the Falkland Islands War in 1982 The purpose is to determine whether or not aircraft carriers sea based aviation were at the root of the success or failure of British efforts In April 1940 there were no airfields in central Norway capable of supporting modern high performance aircraft As the Norwegian campaign unfolded and the British faced a significant land based air threat from the Luftwaffe they failed to appreciate the tactical and operational potential of sea based aviation At the same time British naval aircraft were technically inferior in design and capability compared to their Luftwaffe land based counterparts in 1940 Nevertheless despite determined attacks on British naval assets at the tactical level at the operational level the German command limited their campaign goals and did not exploit their advantage in the air to the extent possible Their actions did however place great pressure on British sea based lines of communication in central Norway the operational pivot of the campaign In 1982 against the Argentines the British faced another opponent with superior land based aviation Although the British fully appreciated the need for air superiority they employed a tactical scheme not unlike what had occurred in Norway Nevertheless the British were able to successfully contest the airspace above the Falklands and ultimately succeeded in defeating Argentine ground forces and ejecting them from the islands **The Bottom of the Map** Ken
