Military And Militarism In Africa:

The Military and Militarism in Africa Eboe Hutchful, Abdoulaye Bathily, 1998 Military and Militarism in Africa Eboe Hutchful, 1989 **The Political Impact of African Military Leaders** Sabella Ogbobode Abidde, Felix Kumah-Abiwu, 2023-06-28 This edited volume examines the cases of four African military leaders who had enormous impact on the continent and beyond These military officers and later heads of state Jerry Rawlings of Ghana Moammar Gaddafi of Libya Thomas Sankara of Burkina Faso and Gamal Abdel Nasser of Egypt were provocative and polarizing figures beloved domestically but mostly viewed with suspicion and hostility by foreign governments This volume studies these leaders as a group engaging in a critical but systematic examination of their personalities leadership styles official performance legacies and their continuing impact on the future and political destiny of the continent Providing a survey of controversial but important African political figures this volume will be of use to scholars and students in the social sciences especially those interested in African history African studies military science Black studies political science leadership studies and the politics of developing nations **Budgeting for the Military Sector in Africa** Wuyi Omitoogun, Eboe Hutchful, 2006 In this comprehensive study 15 African experts describe and analyse the military budgetary processes and degree of parliamentary oversight and control in nine countries of Africa spanning across all the continent's sub regions Each case study addresses a wide range of questions such as the roles of the ministries of finance budget offices audit departments and external actors in the military budgetary processes the extent of compliance with standard public expenditure management procedures and how well official military expenditure figures reflect the true economic resources devoted to military activities in these countries *Coups and Army Rule in Africa* Samuel Decalo, 1976 The Military in African Politics William Gutteridge, 2023-12-20 Originally published in 1969 this book assesses the origin and nature of the 20th Century trend towards military intervention in the politics of African states It begins by examining the natures of African armies and their inheritance from the colonial period It scrutinizes the Nigerian and Ghana coups of 1966 and aspects of the East African mutinies in 1964 as well as events in certain French territories including Gabon and Dahomey The effect of foreign military aid on the role of the armed forces in Africa is analysed including the subtle influence of overseas military experience The problems facing army officers when they seize the reins of government are examined along with the difficulties which they encounter when attempting to reinstitute civilian rule Throughout the book the qualities which enable armies to intervene in politics are reviewed and related to those of the other institutions of African society Demilitarisation and Peace-Building in Southern Africa Peter Batchelor, 2018-12-17 First published in 2004 this work is based on a collaborative research project this trilogy considers the dynamics of demilitarisation and peace building in southern Africa in the aftermath of major violent conflicts The overall aim of the research is to support and facilitate the achievement of sustainable peace and human development in southern Africa by analysing demilitarisation and peace building processes in the region and identifying

policy options and interventions for peace building The central focus of the research is the extent to which demilitarisation following the termination of wars has contributed to broad processes of peace building in the affected region Has the military in southern Africa downsized and refocused towards new roles Has there been a peace dividend allowing more investment in economic and human development thereby dealing with some of the root causes of conflict Volume I provides a conceptual framework for the analysis of demilitarisation and peace building processes applicable particularly in the southern Africa context This volume argues that a broad concept of peace building has to take into account economic political social and cultural factors at the local national and regional level **Military Development In Africa** Bruce E. Arlinghaus, 2019-03-04

Increases in the number and improvements in the quality of arms transferred to sub Saharan African nations clearly will affect those nations economic development and political stability both immediately and in the long term Problems of technology absorption manpower development and the diversion of financial and human resources occasioned by such transfers become more and more critical as the demand for military modernization by African governments grows and the industrial nations compete to meet the demand Dr Arlinghaus evaluates conflicting assessments of the costs and benefits of military development from the perspective that it would be best for African nations to allocate resources for defense on the basis of socioeconomic considerations as well as their military and political goals **West Africa's Security Challenges**

Adekeye Adebajo, Ismail O. D. Rashid, 2004 Provides a context for understanding West Africa's security dilemmas highlighting the link between failures of economic development governance and democratization on the one hand and military insecurity and violent conflicts on the other **Soldiers in Revolt** Maggie Dwyer, 2018-02-01

Soldiers in Revolt examines the understudied phenomenon of military mutinies in Africa Through interviews with former mutineers in Sierra Leone Burkina Faso and The Gambia the book provides a unique and intimate perspective on those who take the risky decision to revolt This view from the lower ranks is key to comprehending the internal struggles that can threaten a military's ability to function effectively Maggie Dwyer's detailed accounts of specific revolts are complemented by an original dataset of West African mutinies covering more than fifty years allowing for the identification of trends Her book shows the complex ways mutineers often formulate and interpret their grievances against a backdrop of domestic and global politics Just as mutineers have been influenced by the political landscape so too have they shaped it Mutinies have challenged political and military leaders spurred social unrest led to civilian casualties threatened peacekeeping efforts and in extreme cases resulted in international interventions **Soldiers in Revolt** offers a better understanding of West African mutinies and mutinies in general valuable not only for military studies but for anyone interested in the complex dynamics of African states Contemporary Issues in

African Society George Klay Kieh, Jr., 2017-11-16 This book examines the twin critical processes of state building and nation building in Africa and the confluence of major domestic and global issues that shape them The book covers topics such as the expansive role of non governmental organizations the growing influence of charismatic Pentecostalism ethnic conflicts in

East Africa the failure of the African Union's peacekeeping efforts in Sudan's Darfur region and Africa's expanding relations with the European Union It combines discussion of these frontier issues shaping contemporary African society with analysis from leading policy experts Warfare in African History Richard James Reid, 2012 *Guarding the Guardians* Mathurin C. Hounnikpo, 2016-04-22 The relationship between civil society and the armed forces is an essential part of any polity democratic or otherwise because a military force is after all a universal feature of social systems Despite significant progress moving towards democracy among some African countries in the past decade all too many African militaries have yet to accept core democratic principles regulating civilian authority over the military This book explores the theory of civil military relations and moves on to review the intrusion of the armed forces in African politics by looking first into the organization and role of the army in pre colonial and colonial eras before examining contemporary armies and their impact on society Furthermore it revisits the various explanations of military takeovers in Africa and disentangles the notion of the military as the modernizing force Whether as a revolutionary force as a stabilizing force or as a modernizing force the military has often been perceived as the only organized and disciplined group with the necessary skills to uplift newly independent nations The performance of Africa's military governments since independence however has soundly disproven this thesis As such this study conveys the necessity of new civil military relations in Africa and calls not just for civilian control of the military but rather a democratic oversight of the security forces in Africa **The Overthrow of Robert Mugabe** Blessing-Miles Tendi, 2025-01-21 The Overthrow of Robert Mugabe Gender Coups and Diplomats argues the 2017 coup that ousted long time Zimbabwean president Robert Gabriel Mugabe and the generality of coups cannot be accurately and rigorously understood without examining the crucial role of gender and women's politics in military seizures of power Tendi's book shows that gender and women's politics pervade military coup causes dynamics justifications and international responses to coups Contrary to influential representations of Zimbabwe's 2017 coup and other recent coups as markedly different from past coups Tendi draws on long gendered histories of military coups in Africa to argue that there are significant continuities in coup characteristics across time Additionally Tendi's highly original study of Zimbabwe's 2017 coup identifies the motives dynamics and trigger of the coup Despite the existence of an international anti coup norm and democracy promotion in Africa by Western states Zimbabwean coup makers direct intervention in politics was largely not publicly condemned or penalized by Western and African diplomats Tendi uses original interviews with diplomats and politicians involved in external responses to the coup to address this important puzzle *The Cambridge History of Africa* J. D. Fage, Roland Anthony Oliver, Michael Crowder, 1975 The eighth and final volume of The Cambridge History of Africa covers the period 1940-75 It begins with a discussion of the role of the Second World War in the political decolonisation of Africa Its terminal date of 1975 coincides with the retreat of Portugal the last European colonial power in Africa from its possessions and their accession to independence The fifteen chapters which make up this volume examine on both a continental and regional scale the extent to

which formal transfer of political power by the European colonial rulers also involved economic social and cultural decolonisation A major theme of the volume is the way the African successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others The contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent a subject that is still the occasion for passionate debate **Warfare in African History** Richard J.

Reid,2012-04-16 This book examines the role of war in shaping the African state society and economy Richard J Reid helps students understand different patterns of military organization through Africa s history the evolution of weaponry tactics and strategy and the increasing prevalence of warfare and militarism in African political and economic systems He traces shifts in the culture and practice of war from the first millennium into the era of the external slave trades and then into the nineteenth century when a military revolution unfolded across much of Africa The repercussions of that revolution as well as the impact of colonial rule continue to this day The frequency of coups d tats and civil war in Africa s recent past is interpreted in terms of the continent s deeper past **New Directions in African Military History** Timothy J. Stapleton,2025-06-02 New

Directions in African Military History takes a thematic approach to the history of war and military structures in Africa and highlights the under researched areas African Military History represents a relatively new and fast growing sub field bridging the previously wide gap between the well established genres of African History and Military History Based on a synthesis of existing literature and aimed at a wide readership this book adopts a broad temporal range and uses select examples to highlight a series of points to cover the pre colonial to post colonial eras and offer examples from various parts of the continent This volume evaluates controversial academic debates examining evidence research methods approaches and changing historiographical contexts as well as pointing to potential new areas of research It comprises seven thematic chapters on ways of war weapons technology navies air power battles women combatants and genocide in African history This volume will be of value to students and scholars alike interested in Modern History Military History and African History

African Military History and Politics Y. Alex-Assensoh,2002-01-11 Africa s former colonial masters including Great Britain France Portugal and Spain trained members and leaders of the various colonial Armed Forces to be politically non partisan Yet the modern day Armed Forces on the continent made up of the Army Police Air Force and Navy have become so politicized that many countries in Africa are today ruled or have already been ruled by military dictators through coups d etat occasionally for good reasons as the book points out This book traces the historical cum political evolution of these events and what bodes for Africa where the unending military incursions into partisan politics are concerned *Inherent and Contemporary Challenges to African Security* Manu Lekunze,2019-11-23 This book presents a unique comprehensive yet accessible look at security in Africa The author provides a comprehensive review of the key security issues in Africa and offers a contemporary investigation into what security in Africa will mean for the future of Security Studies It focuses on

contemporary yet inherent security challenges facing the continent It engages with International Relation theories security literature and primary data from Cameroon related to other African case studies to situate African Security Studies in International Relations and develop a concept of security for African Security Studies It will be essential reading for students analysts and policy makers specializing in International Relations Sociology African Studies and Development Studies

The National Question in Nigeria Abubakar Momoh,Said Adejumobi,2017-11-01 This title was first published in 2002 Addressing the burning questions confronting the Nigerian nation state today this book explores the diverse dimensions and voices apparent in the challenges surrounding the national question Highlighting a range of under researched and unexplored issues it theoretically and empirically examines key aspects of the national question discourse and debate in Nigeria The contributors bring wide and varied experiences to bear on the volume and employ both these experiences and the multidisciplinary approach to illuminate and enrich the issues under study The National Question in Nigeria identifies challenges that must be addressed if the nation is to survive and critical issues that have been left unresolved and now threaten the nation state It is essential reading for social scientists policy makers politicians NGO activists and all observers and students of Nigerian history and politics
