Human Minds and Cultures Sanjit Chakraborty, 2024-03-29 This book puts forward a harmonious analysis of similarities and differences between two concepts human minds and cultures and strives for a multicultural spectrum of philosophical explorations that could assist them in pondering the striking pursuit of envisaging human minds and cultures as an essential appraisal of philosophy and the social sciences The book hinges on a theoretical understanding of the indispensable liaison between the dichotomy of minds and objectivity residing in semantic ontological conjectures The ethnographic sense of cultures confines the scope of cultural scientism an evolutionary paradigm on the functionalist turn where one could enthrall the cultural phenomenon from the contentment of the conflict of scientific quandaries Hence cultural relativism concedes that cultures have some descriptive contents like customs beliefs moral codes other minds etc that are followed by an individual or a group of people However the notion of societalsemiotics embarks on the semiotic conception of culture that deploys modernity and values centred on ethical conjectures Human Minds and Cultures conspicuously attune the cultural edifice of moral minds and cope with the enduring prospects of ethics genders laws and socio political affairs Essential reading for anyone with a sparkling interest in human minds and cultures
