MIND LANDSCAPES. Jerome Silbergeld,1987 *Mind Landscapes* Jerome Silbergeld,1987 Mind Landscapes Jerome Silbergeld,1987 **Mountains of the Mind** Chi-ch'ien Wang,1977 **The Art of Modern China** Julia F. Andrews,Kuiyi Shen,2012-09-24 In the early twenty first century China occupies a place on center stage in the international art world But what does it mean to be a Chinese artist in the modern age This first comprehensive study of modern Chinese art history traces its evolution chronologically and thematically from the Age of Imperialism to the present day Julia Andrews and Kuiyi Shen pay particular attention to the dynamic tension between modernity and tradition as well as the interplay of global cosmopolitanism and cultural nationalism This lively accessible and beautifully illustrated text will serve and enlighten scholars students collectors and anyone with an interest in Asian art and artists **Modern Chinese Artists** Michael Sullivan,2006-04-03 An important reference source for scholars and students of modern Chinese art collectors museums and libraries dealers and auction houses It includes biographical entries for approximately 800 Chinese artists who grew up or were trained in China and who are likely to be represented in collections exhibitions and auctions within and outside China

Visual Representations of the Cold War and Postcolonial Struggles Midori Yamamura,Yu-Chieh Li,2021-06-24 The essays and artworks gathered in this volume examine the visual manifestations of postcolonial struggles in art in East and Southeast Asia as the world transitioned from the communist capitalist ideological divide into the new global power structure under neoliberalism that started taking shape during the Cold War The contributors to this volume investigate the visual art that emerged in Australia China Cambodia Indonesia Korea Okinawa and the Philippines With their critical views and new approaches the scholars and curators examine how visual art from postcolonial countries deviated from the communist capitalist dichotomy to explore issues of identity environment rapid commercialization of art and independence These foci offer windows into some lesser known aspects of the Cold War including humanistic responses to the neo imperial exploitations of people and resources as capitalism transformed into its most aggressive form Given its unique approach this seminal study will be of great value to scholars of 20th century East Asian and Southeast Asian art history and visual and cultural studies **Dimensions of Originality** Katharine P Burnett,2013-03-13 This book investigates the issue of conceptual originality in art criticism of the seventeenth century a period in which China dynamically reinvented itself In art criticism the term which was called upon to indicate conceptual originality more than any other was qi literally different but secondarily odd like a number and by extension the novel and extraordinary This work finds that originality expressed through visual difference was a paradigmatic concern of both artists and critics Burnett speculates on why many have dismissed originality as a possible traditional Chinese value and the ramifications this has had on art historical understanding She further demonstrates that a study of individual key terms can reveal social and cultural values and provides a linear history of the increase in critical use of qi as originality from the fifth through the seventeenth centuries exploring what

originality looks like in artworks by members of the gentry elite and commoner classes and explains how the value lost its luster at the end of the seventeenth century **An Index of Early Chinese Painters and Paintings** James Cahill,James Francis Cahill,Osvald Sirén,Ellen Johnston Laing,1980-01-01 This is the most comprehensive English language compilation available on Chinese painters and their works from the late sixth through the mid fourteenth century Incorporating the work of Ellen Johnson Laing and Osvald Siren the Index includes biographical details of the artists their style and studio names

Chang,2008 Asian American Art A History 1850 1970 is a first ever survey exploring the lives and artistic production of artists of Asian Ancestry active in the United States before 1970 and features ten essays by leading scholars biographies of more than 150 artists and more than 400 reproductions of artwork and photographs of artists together creating compelling narratives of this heretofore forgotten American art history *Landscape Theory* Rachel

DeLue,James Elkins,2010-10-28 Artistic representations of landscape are studied widely in areas ranging from art history to geography to sociology This book brings together more than fifty scholars from many disciplines to establish new ways of thinking about landscape in art *Possessing the Past* 王仲良,Wen Fong,James C. Y. Watt,1996 A major scholarly work

published in conjunction with the exhibition titled Splendors of Imperial China Treasures from the National Palace Museum Taipei on display at the Metropolitan Museum of Art during 1996 and scheduled for several other American cities during 1996 1997 Written by scholars of both Chinese and Western cultural backgrounds and conceived as a cultural history the book synthesizes scholarship of the past three decades to present the historical and cultural significance of individual works of art and analyses of their aesthetic content as well as reevaluation of the cultural dynamics of Chinese history Includes some 600 illustrations 436 in color Annotation copyright by Book News Inc Portland OR **China—Art—Modernity** David Clarke,2019-01-22 China Art Modernity provides a critical introduction to modern and contemporary Chinese art as a whole It illuminates what is distinctive and significant about the rich range of art created during the tumultuous period of Chinese history from the end of Imperial rule to the present day The story of Chinese art in the twentieth and twenty first centuries is shown to be deeply intertwined with that of the country s broader socio political development with art serving both as a tool for the creation of a new national culture and as a means for critiquing the forms that culture has taken The book s approach is inclusive In addition to treating art within the Chinese Mainland itself during the Republican and Communist eras for instance it also looks at the art of colonial Hong Kong Taiwan and the Chinese diaspora Similarly it gives equal prominence to artists employing tools and idioms of indigenous Chinese origin and those who engage with international styles and contemporary media In this way it writes China into the global story of modern art as a whole at a moment in intellectual history when Western centred stories of modern and contemporary culture are finally being recognized as parochial and inadequate Assuming no previous background knowledge of Chinese history and culture this concise yet comprehensive and richly illustrated book will appeal to those who already have an established interest in modern Chinese art and those for

whom this is a novel topic It will be of particular value to students of Chinese art or modern art in general but it is also for those in the wider reading public with a curiosity about modern China At a time when that country has become a major actor on the world stage in all sorts of ways accessible sources of information concerning its modern visual culture are nevertheless surprisingly scarce As a consequence a fully nuanced picture of China's place in the modern world remains elusive China Art Modernity is a timely remedy for that situation Here is a book that offers a comprehensive account of the dizzying transformations of Chinese art and society in the twentieth and twenty first centuries Breaking free of conventional dichotomies between traditional and modern Chinese and Western that have hobbled earlier studies Clarke's highly original book is exactly what I would assign my own students Anyone eager to understand developments in China within the global history of modern art should read this book Robert E. Harrist Jr Columbia University Clarke's book presents a critically astute mapping of the arts of modern and contemporary China It highlights the significance of urban and industrial contexts migration diasporas and the margins of the mainland while imaginatively seeking to inscribe its subject into the broader story of modern art A timely and reliable intervention and indispensable for the student and non specialist reader Shane McCausland SOAS University of London

Modern Asian Art John Clark, 1998-01-01 A seminal publication focusing on the modern art of Japan China India Thailand and Indonesia A significant and challenging contribution to the discussion of the advent of modernism in Asia

Art and Artists of Twentieth-Century China Michael Sullivan, 2023-12-22 This visually stunning book focuses on the rebirth of Chinese art in the twentieth century under the influence of Western art and culture Michael Sullivan recognized throughout the world as a leading scholar of Chinese art vividly documents the conflicting pulls of traditional and Western values on Chinese art and provides 364 illustrations in color and black and white to show the great range of artistic expression and the historical processes that occurred within various movements A substantial biographical index of twentieth century Chinese artists is a valuable addition to the text Sullivan discusses artists and their work against China's background of oppression and relaxation despair and hope He expertly conveys the diverse and at times bizarre intertwining of Chinese cultural history and art during this century Included are the intense debates between traditionalists and reformers the creation of the first art schools and the birth of the idea shocking in ethnocentric China that art is a world language that obliterates all frontiers The scholarly traditions of classical Chinese painting the belated discovery of Western modernism the artistic upheaval under Communism and China's rethinking of the very nature of art all have a place in Sullivan's fascinating history Michael Sullivan has known many of the major figures in China's modern art movement of the 1930s and 1940s and has also gained the confidence of younger artists who rose to prominence following the 1979 Peking Spring This long awaited book richly documented and abundantly illustrated is a capstone to Sullivan's work and will be enthusiastically welcomed by art lovers everywhere
