EPA-600/5, 1974-02 *Revolutionary Changes in Understanding Man and Society* Johann Götschl, 2012-12-06 JOHANN GOTSCHL Over the last decades social philosophers economists sociologists utility and game theorists biologists mathematicians moral philosophers and philosophers have created totally new concepts and methods of understanding the function and role of humans in their modern societies The years between 1953 and 1990 brought drastic changes in the scientific foundations and dynamic of today s society A burst of entirely new revolutionary ideas similar to those which heralded the beginning of the twentieth century in physics dominates the picture This book also discusses the ongoing refutation of old concepts in the social sciences Some of them are the traditional concepts of rationality for example based on maximization of interests the linearity of axiomatic methods methodological individualism and the concept of a static society Today the revolutionary change from a static view of our society to an evolutionary one reverberates through all social sciences and will dominate the twenty first century In an uncertain and risky world where cooperation and teamwork is getting more and more important one cannot any longer call the maximization of one s own expectations of utility or interests rational

JUDENWELT Frank Luger, 2019-07-23 Judenwelt German lit Jew world is intended to complete Herzl s Judenstaat by filling the political framework with moral perfectionism The Jewish people have earned the right to prove to the world that they have not lived lies in the guise of illusions delusions but they are the Chosen people for serving God and teaching righteousness in benevolent ways The newly introduced term Mirism Russian both world and peace is intended to become the ideology of Cosmic Man whose moral maturation would be ensured by relevant education and Jews will finally fulfill their original mission of becoming Light unto the Nations a holy nation of Priests and teachers devoted to the pursuit of moral excellence without extraneous rituals or traditions Jewishness should be earned not inherited and proper education should finally result in world peace and fraternity with which then Man could advance into the Cosmic Era and a prosperous future

The Ethereal Aether Loyd S. Swenson, 1972-01-01 The Ethereal Aether is a historical narrative of one of the great experiments in modern physical science The fame of the 1887 Michelson Morley aether drift test on the relative

motion of the earth and the luminiferous aether derives largely from the role it is popularly supposed to have played in the origins and later in the justification of Albert Einstein's first theory of relativity its importance is its own As a case history of the intermittent performance of an experiment in physical optics from 1880 to 1930 and of the men whose work it was this study describes chronologically the conception experimental design first trials repetitions influence on physical theory and eventual climax of the optical experiment Michelson Morley and their colleague Miller were the prime actors in this half century drama of confrontation between experimental and theoretical physics The issue concerned the relative motion of Spaceship Earth and the Universe as measured against the background of a luminiferous medium supposedly filling all interstellar space At stake it seemed were the phenomena of astronomical aberration the wave theory of light and the Newtonian concepts of absolute space and time James Clerk Maxwell's suggestion for a test of his electromagnetic theory was translated by Michelson into an experimental design in 1881 redesigned and reaffirmed as a null result with Morley in 1887 thereafter modified and partially repeated by Morley and Miller finally completed in 1926 by Miller alone then by Michelson's team again in the late 1920s Meanwhile Helmholtz Kelvin Rayleigh FitzGerald Lodge Larmor Lorentz and Poincaré most of the great names in theoretical physics at the turn of the twentieth century had wrestled with the anomaly presented by Michelson's experiment As the relativity and quantum theories matured wave particle duality was accepted by a new generation of physicists The aether drift tests disproved the old and verified the new theories of light and electromagnetism By 1930 they seemed to explain Einstein relativity and space time But in historical fact the aether died only with its believers

ABSOLUTE ETHICS and COSMIC MORALITY
Frank Luger, 2019-07-23 This is the companion volume to Absolute Relativity and the Relativity of the Absolute The human relevance of the Absolute is Ethics which is manifest by cosmic morality via cosmodynamics the modus operandi of the Absolute Human morality ought to mirror cosmic morality for optimal alignment with the Absolute for which a new set of guidelines the Thirty Commandments were introduced together with the basic propositions of a new ideology called Mirism from the Russian Mir meaning both world and peace It was suggested that the solution to the external problems of Mankind is progressive colonization of outer space with the strict proviso of not exporting our Evil and contaminating the Cosmos thereby while the internal solution is moral maturation Once maturation will have reached the level of integrity then Mankind will have earned evolution into the next phase the Cosmic Era
