Mindanao Peril:

Mindanao Peril Ramsey Caine, 2002-10-01 Retired detective Patrick O Kuen is hired by a wealthy executive to deliver a ransom payment to fanatical kidnappers who are holding his daughter hostage deep in the Philippine Jungle Unwittingly O Kuen may facilitate release of a biological plague that threatens the population Seaborne Perils Bruce A. Elleman, 2018-02-19 This comprehensive survey of historical and contemporary issues related to maritime crime and piracy with a special focus on Africa South Asia and Southeast Asia explains why piracy is a growing problem and how it affects security policy making in the United States Here piracy is defined as taking place on the high seas while maritime crime takes place within a country's territorial waters Seaborne terrorism may occur in either one of these maritime zones Maritime piracy can be divided into several categories from pirates robbing a ship or its crew of petty items while at sea to taking a ship's cargo and taking control of a vessel reflagging it and then using this captured ship to smuggle drugs transport illegal immigrants or conduct further acts of piracy This is the most dangerous not only because pirates can use a captured ship to carry out more raids but also because they can use the ship's identity papers to transport goods and weapons potentially WMDs into otherwise secure port areas A special concern to the US is that the threat of piracy is growing most quickly in parts of the world such as Africa South Asia and Southeast Asia where both global trade is rapidly expanding and where international terrorist groups are actively functioning or have supporters This geographical overlap suggests that the risk that pirates and terrorists may one day cooperate to strike at the US or an ally is most likely also on the rise While many important African South Asia and Southeast Asian cases have received insufficient attention many well known historical piracy events stand in need of a reappraisal This book integrates a number of multinational multiregional and historical cases of piracy maritime crime and seaborne terrorism to investigate whether piracy and other forms of maritime crime are becoming a major United States national security concern It analyzes some of the most important cases especially of the 19th 20th and early 21st centuries as well as specific historical events This allows to draw lessons as to what are the components of successful and unsuccessful piracy common causes the type of navy necessary to control it and finally possible military political and economic consequences The book also discusses various types of cases including parasitic intrinsic episodic and opportunistic piracy Specific cases are also evaluated in terms of the changing interpretations of international law and the recent reported growth rates of piracy maritime crime and seaborne terrorism These findings are used to explore the impact of piracy on maritime security in particular in Africa South Asia and Southeast Asia and their surrounding waters which is where the majority of contemporary piracies and maritime crimes occur Different methods of policing piracy and maritime crime are evaluated including the viability of adopting greater Maritime Domain Awareness which would require that all ships at sea regardless of size or function emit a signal beacon identifying their name country of origin and route This combination of historical and modern day piracy and the many cases studied will provide readers with a broader

Civilizational Imperatives Oliver P. Charbonneau,2020-09-15 In *Civilizational Imperatives* Oliver Charbonneau reveals the little known history of the United States colonization of the Philippines Muslim South in the early twentieth century Often referred to as Moroland the Sulu Archipelago and the island of Mindanao were sites of intense US engagement and laboratories of colonial modernity during an age of global imperialism Exploring the complex relationship between colonizer and colonized from the late nineteenth century until the eve of the Second World War Charbonneau argues that American power in the Islamic Philippines rested upon a transformative vision of colonial rule Civilization protection and instruction became watchwords for US military officers and civilian administrators who enacted fantasies of racial reform among the diverse societies of the region Violence saturated their efforts to remake indigenous politics and culture embedding itself into

governance strategies used across four decades Although it took place on the edges of the Philippine colonial state this fraught civilizing mission did not occur in isolation It shared structural and ideological connections to US settler conquest in North America and also borrowed liberally from European and Islamic empires These circuits of cultural political and institutional exchange accessed by colonial and anticolonial actors alike gave empire in the Southern Philippines its hybrid character *Civilizational Imperatives* is a story of colonization and connection reaching across nations and empires in its examination of a Southeast Asian space under US sovereignty It presents an innovative new portrait of the American empire s global dimensions and the many ways they shaped the colonial encounter in the Southern Philippines *The Golden Bough: Taboo and the perils of the soul* James George Frazer,1914 **Reports from Her Majesty's Consuls on the Manufactures, Commerce, &c. of Their Consular Districts** Great Britain.
