The Materials and Techniques of Medieval Painting Daniel V. Thompson,2012-05-11 Medieval painters built up a tremendous range of technical resources for obtaining brilliance and permanence In this volume an internationally known authority on medieval paint technology describes these often jealously guarded recipes lists of materials and processes Based upon years of study of medieval manuscripts and enlarged by laboratory analysis of medieval paintings this book discusses carriers and grounds binding media pigments coloring materials and metals used in painting It describes the surfaces that the medieval artist painted upon detailing their preparation It analyzes binding media discussing relative merits of glair versus gums oil glazes and other matters It tells how the masters obtained their colors how they processed them and how they applied them It tells how metals were prepared for use in painting how gold powders and leaf were laid on and dozens of other techniques Simply written easy to read this book will be invaluable to art historians students of medieval painting and civilization and historians of culture Although it contains few fully developed recipes it will interest any practicing artist with its discussion of methods of brightening colors and assuring permanence A rich feast The Times London Enables the connoisseur artist and collector to obtain the distilled essence of Thompson s researches in an easily read and simple form Nature London A mine of technical information for the artist Saturday Review of Literature

The Painter's Methods and Materials A. P. Laurie,2013-03-21 Many of the valuable techniques and materials formerly used in painting have been lost or forgotten With the convenience of the art supply store the artist is no longer forced to acquaint himself with many of the operations performed by the great craftsmen painters of the past The result is that the modern painter often does not understand the chemical and physical reasons for the steps he follows This book bridges the gap between artist and craftsman and gives the reader insights into the classical techniques of the great masters as well as the procedures followed today Professor Laurie has based his book on an intensive study of great master paintings and manuscripts as well as on actual experiment He covers techniques for painting on wood panels paper walls and canvas and for dealing with watercolors tempera fresco pigments and colors balsams resins turpentine varnishes waxes sizings and various oils such as walnuts linseed and poppy The reader will also find much information on the behavior of light through various refractions prism

effect in layers of paint and the cleaning and preservation of pictures The discussion is illustrated by 48 full page plates These reproductions of actual paintings by major and minor masters Rembrandt Lippi Michelangelo Botticelli Rubens Hals and others were selected to show specific points of painting condition or technical procedures Microphotographs are used to show cross sections of painting age cracks flaking pigment particles and similar material **The Art of**
