Writing History Stefan Berger,Heiko Feldner,Kevin

Passmore,2020-02-20 The third edition of Writing History provides students and teachers with a comprehensive overview of

how the study of history is informed by a broader intellectual and analytical framework exploring the emergence and development of history as a discipline and the major theoretical developments that have informed historical writing. Instead of focusing on theory, this book offers succinct explanations of key concepts that illuminate the study of history and practical writing and demonstrates the ways they have informed practical work. This fully revised new edition comprehensively rewrites and updates original chapters but also includes new features such as new chapters on postcolonial, environmental, and transnational history; chapter introductions setting them within the context of historiography; a new substantive introduction from the editors providing a useful road map for students; an expanded glossary. In its new incarnation, *Writing History* is more than ever an invaluable introduction to the central debates that have shaped history.
