Political Leaders of Modern China Edwin Leung, 2002-10-30 Through the individual characteristics of China s political leaders a nation building process began Chinese leaders fell into two categories of reformers conservative and liberal Conservative reformers saw a corruption of the moral order of society that needed to be eliminated in order to restore the country's moral integrity while liberal reformers attempted to embrace the flaws and lead China toward Socialism One hundred Chinese leaders from the Opium War to 2001 are profiled in this comprehensive biographical dictionary This book provides the most up to date coverage of modern Chinese political leadership during the Imperial Republican and Communist periods Political leaders throughout each period had a common desire for reform within the country while maintaining China s political and cultural legacy Leung invokes the uniqueness of those leaders in their struggle for personal gain and national improvement as they fought to preserve traditional values Written by 30 international scholars and experts in the field using both Western and Chinese sources this is the most authoritative dictionary on the subject The Cambridge History of China Roderick MacFarquhar, John King Fairbank, 1987 Folk Literati, Contested Tradition, and Heritage in Contemporary China Ziying You, 2020-02-11 Ground breaking has implications for recognizing the existence and value of local grass roots intellectual agency elsewhere in China and the globe Mark Bender the Ohio State University In this important ethnography Ziying You explores the role of the folk literati in negotiating defining and maintaining local cultural heritage Expanding on the idea of the elite literati a widely studied pre modern Chinese social group influential in cultural production the folk literati are defined as those who are skilled in classical Chinese knowledgeable about local traditions and capable of representing them in writing The folk literati work to maintain cultural continuity a concept that is expressed locally through the vernacular phrase incense is kept burning You's research focuses on a few small villages in Hongtong County Shanxi Province in contemporary China Through a careful synthesis of oral interviews participant observation and textual analysis You presents the important role the folk literational play in reproducing local traditions and continuing stigmatized beliefs in a community context She demonstrates how eight folk literati have reconstructed shifted and negotiated local worship traditions around the ancient sage Kings Yao and Shun as well as Ehuang and N ying Yao s two daughters and Shun s two wives You highlights how these individuals conflictive relationships have shaped and reflected different local beliefs myths legends and history in the course of tradition preservation She concludes her study by placing these local traditions in the broader context of Chinese cultural policy and UNESCO s Intangible Cultural Heritage program documenting how national and international discourses impact actual traditions and the conversations about them on the ground One of the most important and far reaching books of folklore scholarship today Amy Shuman author of Other People's Stories An Intellectual History of Modern China Merle Goldman, Leo Ou-fan Lee, 2002-05-16 This book is the only comprehensive book on modern China s intellectual history The Cambridge History of China John King Fairbank, Denis Crispin

Twitchett, 1978 International scholars and sinologists discuss culture economic growth social change political processes and foreign influences in China since the earliest pre dynastic period Rooted in Hope: China - Religion - Christianity Vol 1 Barbara Hoster, Dirk Kuhlmann, Zbigniew Wesolowski, 2017-04-07 This Festschrift is dedicated to the former Director and Editor in chief of the Monumenta Serica Institute in Sankt Augustin Germany Roman Malek S V D in recognition of his scholarly commitment to China The two volume work contains 40 articles by his academic colleagues companions in faith confreres as well as by the staff of the Monumenta Serica Institute and the China Zentrum e V China Center The contributions in English German and Chinese pay homage to the jubilarian s diverse research interests covering the fields of Chinese Intellectual History History of Christianity in China Christianity in China Today Other Religions in China Chinese Language and Literature as well as the Encounter of Cultures The Discourse of Race in Modern China Frank Dikötter, 2015 Dik tter writes accessible history and has won the prestigious BBC Samuel Johnson Prize for his book Mao s Great Famine The author shows how and why notions of race became so widespread in China now updated to include the continuation of this trend into the twenty first century He examines how Western notions of scientific racism have played out Chinese Business Groups in Hong Kong and Political Change in South China 1900-1925 S. in China Chung, 1998-04-27 Politics can be a profitable business as can be found in Republican era Canton amidst a politically fragmented China Competing merchant groups in Hong Kong sought to finance the regional Canton government in return for financial concessions This patronage system made commercial endeavours dependent on politics and embedded business in A History of the Chinese Communist Party Stephen Uhalley, 1988 Global Space and the Nationalist Discourse politics of Modernity Xiaobing Tang, 1996-04-01 This book reexamines the historical thinking of Liang Qichao 1873 1929 one of the few modern Chinese thinkers and cultural critics whose appreciation of the question of modernity was based on first hand experience of the world space in which China had to function as a nation state It seeks to demonstrate that Liang was not only a profoundly paradigmatic modern Chinese intellectual but also an imaginative thinker of worldwide significance By tracing the changes in Liang's conception of history the author shows that global space inspired both Liang's longing for modernity and his critical reconceptualization of modern history Spatiality or the mode of determining spatial organization and relationships offers a new interpretive category for understanding the stages in Liang's historical thinking Liang's historical thinking culminated in a global imaginary of difference which became most evident in the shift from his earlier proposal for a uniform national history to one that mapped cultural history His reaffirmation of spatiality a critical concept overshadowed by the modernist obsession with time and history made it both necessary and possible for him to redesign the project of modernity Finally the author suggests that the reconciliation of anthropological space with historical time that Liang achieved makes him abundantly contemporary with our own time both inextricably modern and postmodern

Tradition of the Law and Law of the Tradition Xin Ren,1997-03-25 Traditionally social theorists in the West have

structured models of state social control according to the tenet that socialization is accomplished by means of external controls on behavior undesirable actions are punished and desirable actions result either in material reward or a simple respite from the oppressive attentions of an authoritarian state In this volume the author presents the tradition of law in China as an exception to the Western model of social control The Confucian bureaucracy that has long structured Chinese social life melded almost seamlessly with the Maoist revolutionary agenda to produce a culture in which collectivism and an internalized adherence to social law are in some respects congenital features of Chinese social consciousness Through her investigation of the Maoist concept of revolutionary justice and the tradition of conformist acculturation in China the author constructs a fascinating counterpoint to traditional Western arguments about social control **Explaining Chinese Democratization** Shaohua Hu,2000-01-30 Hu seeks to explain China's failure to establish a democratic system He demonstrates both continuity and change in China's democratization process Modern China regards power and wealth as primary goals and treats a strong state as a major means to these ends Such a preference puts democracy on a back burner Employing a theoretical framework which consists of five factors historical legacies local forces the world system socialist values and economic development Hu shows that while all of these factors were at work in all eras each assumes a special significance in a particular period Traditional China before the 1911 Revolution attempted to adjust itself to a new Western dominated world In the Republican era the control of local forces topped the political agenda Nationalist China sought to survive and develop in the world system while Maoist China set for itself the task of building a socialist state And of course economic development has been the priority of the Deng era As Hu shows these five factors have had determining impacts on the long struggle for democracy in China Nonviolent Action Ronald M. McCarthy, Gene Sharp, Brad Bennett, 2013-07-04 This comprehensive guide to research sources and theories about nonviolent action as a technique of struggle in social and political conficts discusses the methods and techniques used by groups in various encounters Although violence and its causes have received a great deal of attention nonviolent action has not received its due as an international phenomenon with a long history An introduction that explains the theories and research used in the study provides a practical guide to this essential bibliography of English language sources The first part of the book covers case study materials divided by region and subdivided by country Within each country materials are arranged chronologically and topically The second major part examines the methods and theory of nonviolent action principled nonviolence and several closely related areas in social science such as conflict analysis and social movements The book is indexed by author and subject **Democracy and** Socialism in Republican China Roger B. Jeans, 1997 This groundbreaking book is the first full length English language study to explore the struggles for constitutional democracy and democratic socialism of Zhang Junmai Carsun Chang 1887 1969 a major political and intellectual figure in Republican China Focusing on Zhang s writings Roger Jeans has provided detailed descriptions and extensive translations of Zhang s key books and essays He sets the context for these seminal works

by describing Zhang's personal situation the social and intellectual milieu and the political climate at the time Chiang Ching-kuo's Leadership in the Development of the Republic of China on Taiwan Shao Chuan Leng, 1993 he papers presented in this work provide insight into the substantial role that Chiang played in the social and economic development of the republic Topics include the historical setting for his rise to power his decision for political reform his policies toward mainland China and the outside world a reassessment of his legacy reflections on the man and his leadership and a discussion of the society and economy of Taiwan **Historical Dictionary of the Chinese Civil War** Christopher R. Lew, Edwin Pak-wah Leung, 2013-07-29 The Chinese Civil War which lasted several years or several decades depending on how you define it was one of the most momentous wars of the 20th century for it determined the fate of the world s most populous country and was bitterly fought with millions of combatants involved and hundreds of millions of civilians affected More to the point it was won by the Chinese Communist Party under Mao Zedong who imposed Communist rule while the Nationalists retreated to Taiwan It also heated up the Cold War for quite some time as the Communists were supported by the Soviet Union and the Nationalists by the United States This second edition of the Historical Dictionary of the Chinese Civil War studies the longer broader war and its chronology carefully tracks the major events The introduction then provides a broad overview describing the contending forces and showing how the Communists come out on top The details and these are crucial are laid out in over 200 cross referenced dictionary entries dealing with the opposing forces and parties the major campaigns and battles the Long March and of course the leadership on both sides This book one of few such in English provides a very solid basis for study but that can be accomplished more effectively by consulting the titles listed in an extensive bibliography Failure, Nationalism, and Literature Jing Tsu, 2005 How often do we think of cultural humiliation and failure as strengths Against prevailing views on what it means to enjoy power as individuals cultures or nations this provocative book looks at the making of cultural and national identities in modern China as building success on failure It reveals the exercise of sovereign power where we least expect it and shows how this is crucial to our understanding of a modern world of conflict violence passionate suffering and cultural difference **External Intervention and the Politics** of State Formation Ja Ian Chong, 2012-06-29 This book posits that when foreign actors face high opportunity costs of intervention in a weak state their behavior may foster state sovereignty. This occurs as foreign actors work with local groups to avoid their worst fear domination of the polity by rivals Drawing from primary and secondary sources Ja Ian Chong examines this argument by considering China Indonesia and Thailand between the late nineteenth and mid twentieth centuries The book augments existing perspectives on nationalism sovereignty and state formation by introducing insights from research on foreign intervention and local collaboration Party Vs. State in Post-1949 China Shiping Zheng, 1997-07-13 This book provides the most comprehensive analysis of one of the most important issues in China today the tensions between the Chinese Communist Party and the Chinese state legislative judicial administrative and military

institutions Taking the neo institutionalist approach the author suggests that the Communist Party in post 1949 China faces an institutional dilemma the Party cannot live with the state and it cannot live without the state Zheng demonstrates that it is not only conceptually constructive but analytically imperative to distinguish the state from the Communist Party Secondly he integrates detailed study with broader generalizations about Chinese politics thus making efforts to overcome the tendency toward specialized scholarship at the expense of comparative and systemic understanding of China He also opens a new dimension of Chinese politics the uncertain and conflictual relationship between the Communist Party and the Chinese state

The Study of Modern China Eberhard Sandschneider,1999 This volume of essays has been written in honour of Jurgen Domes a scholar who has spent his academic life striving to interpret political developments in the People's Republic of China and in Taiwan Domes was one of the first political scientists to apply the analytical instruments of their discipline to the study of Chinese politics
