commercial empire built on the sale of patent drugs in Southeast Asia and at the activities of European trading firms in Asia. The book should appeal to a wide range audience. Most directly concerned are economic historians.

Historical Archaeology of Early Modern Colonialism in Asia-Pacific Maria Cruz Berrocal, Cheng-hwa Tsang, 2017-12-28. The essential source for scholarly reassessment of the Asia Pacific region's diverse and significant archaeology and history. James P. Delgado coauthor of *The Maritime Landscape of the Isthmus of Panama*. Underpins a nuanced picture of Asia Pacific that shows how the activities of the Chinese and Japanese in East Asia, the spread of Islam from South Asia and the efforts of the Iberians and especially the Spanish from southern Europe ushered in a world of complex interaction and rapid and often profound change in local regional and wider cultural patterns. Ian Lilley editor of *Archaeology of Oceania*. Australia and the Pacific Islands. The history of Asia Pacific since 1500 has traditionally been told with Europe as the main player ushering in a globalized capitalist world. But these volumes help decentralize that global history revealing that preexisting trade networks and local authorities influenced the region before and long after Europeans arrived. In the volume *The Southwest Pacific and Oceanian Regions* case studies from Alofi, Vanuatu, the Marianas, Hawaii, Guam and Taiwan compare the development of colonialism across different islands. Contributors discuss human settlement before the arrival of Dutch, French, British and Spanish explorers tracing major exchange routes that were active as early as the tenth century. They highlight rarely examined sixteenth and seventeenth century encounters between indigenous populations and Europeans and draw attention to how cross cultural interaction impacted the local peoples of Oceania. The volume *The Asia Pacific Region* looks at colonialism in the Philippines, China, Japan and Vietnam emphasizing the robust trans regional networks that existed before European contact. Southeast Asia had long been influenced by Buddhist, Hindu and Muslim traders in ways that helped build the region's ethnic and political divisions. Essays show the complexity and significance of maritime trade during European colonization by investigating galleon wrecks in Manila, Japan's porcelain exports and Spanish coins discovered off China's coast. Packed with archaeological and historical evidence from both land and underwater sites impressive in geographical scope and featuring perspectives of scholars from many different countries and traditions these volumes illuminate the often misunderstood nature of early colonialism in Asia Pacific.
