Thomas,2016-07-26 Denmark has a millennium long continuous history and development from Viking times about 800 1050 AD to the modern welfare state The resilience of the Danish people is evident in the artistic golden age of the early 19th century despite national bankruptcy the agricultural revival during the final third of the 19th century Modern Denmark

coastal Norway The relationship between the center of the former Danish empire and its subordinates have rested on varying degrees of asymmetric power relations that are intertwined with political as well as emotional bonds With climate change a whole new reality is emerging in the Arctic and sub Arctic areas Power is moving north and new connections and partnerships are being developed As the North Atlantic countries share a history as being part of a Danish empire some of the hierarchies and mindsets inherited from the past still affect the present This calls for an in depth understanding of the cultural history of the North Atlantic as well as current relations What narratives make up the foundation for contemporary cooperation How are historical relations and narratives being reinterpreted today How do postcolonial relations affect decision making concerning natural resources How do North Atlantic communities envision the future A team of historians literary theorists art historians ethno graphers and culture and communication scholars with profound insight into the histories languages and cultures of the North Atlantic have collaborated on this study of the North Atlantic countries as an emerging new center in the North Foundations that made this publication possible Carlsberg Foundation
