Modern Poets One:

Classes on Modern Poets and the Art of Poetry James Dickey, 2004 Housman Gerard Manley Hopkins Robert Frost Walter de la Mare and Robert Bridges The Modern Poets of England John Frost, 1853 *A History of Modern Poetry* David Perkins, 1976 This book embraces an era of enormous creative variety the formative period during which the Romantic traditions of the past were abandoned or transformed and a major new literature created More than a hundred poets are treated in this volume and many more are noticed in passing **Trends and Movements in Modern Arabic Poetry** Salma Khadra Jayyusi, 1977 **Modern Poetry and the Idea of Language** Gerald L. Bruns, 2001 Gerald Bruns's ground breaking analysis compares two contrasting functions of language the hermetic where language is self contained and self referencing and the Orphic which originates from a belief in the mythical unity of word and being Bruns lucidly depicts the distinctions and convergences between these two lines of thought by examining the works of Mallarmé Flaubert Joyce Beckett and others

Modern Indonesian Literature, Volume 2 A. Teeuw, 2023-11-27 Rhythm in Modern Poetry Eva Lilja, 2023-11-02 A pioneering work in cognitive versification studies scrutinizing the rhythmical means of free verse Investigating a previously neglected area of study Rhythm in Modern Poetry establishes a foundation for cognitive versification studies with a focus on the modernist free verse Following in the tradition of cognitive poetics by Reuven Tsur Richard Cureton and Derek Attridge every chapter investigates the rhythms of one modern poem by Lawrence Ferlinghetti Sylvia Plath and others and engages each element in the broader interpretation of the poem in question In her examination of modernist poetry in English and other Germanic languages Eva Lilja expands her analysis to discuss both the Ancient Greek and Norse origins of rhythm in free verse and the intermedia intersection comparing poetic rhythm with rhythm in pictures sculptures and dance Rhythm in Modern Poetry thus expands the field of cognitive versification studies while also engaging readers writ large interested in how rhythm works in the aesthetic field **Trends and Movements in Modern Arabic Poetry** Jayyusi, 2024-08-26

Modern Poetry Louis MacNeice, 1968 Aberration in Modern Poetry Lucy Collins, Stephen Matterson, 2011-12-22 This critical work considers the role played by elements that might be considered aberrational in a poet's oeuvre With an introductory essay exploring the nature of aberration these fourteen contributions investigate the work of major 20th century poets from the U S Britain Ireland Australia and New Zealand Aberration is considered from the standpoint of both the artist and the audience prompting discussion on a range of important issues including the formation of the canon Each essay discusses the status of the aberrant work and the ways in which it challenges enlarges or supports the overall perception of the poet Modern Poetry and the Tradition Cleanth Brooks, 2018-02-01 This study presents the revolutionary thesis that English poetry and poetic theory were deflected from their richest line of development by the scientific rationalism that came with Hobbes and has continued its restrictive influence to the present day when such poets as Yeats and Eliot have begun the reestablishment of the earlier line of development Originally published in 1939 A UNC Press Enduring Edition UNC Press

Joshua Adams, 2025-06-12. Modern literature is often described in terms of its impersonality. What is the significance of this fact? In *Skepticism and Impersonality V*, Joshua Adams follows the history of impersonality in modern poetry from Mallarmé and Eliot through to the present, engaging with work by major poets and critics but also contemporary philosophers. Rather than seeing impersonality exclusively as a literary historical phenomenon, Adams argues that we should understand it as an attempt to address skeptical problems arising from the limitations of first person experience. Defending impersonality as a response to skeptical problems including doubts about the publicity of our experiences, our knowledge of other minds, the capacity of our language to describe the world, the relationship between mind and body, and the fictionality and continuity of our sense of self, Adams analyzes what he calls experiments in impersonality as means of working through skeptical doubt. The writers discussed transform this doubt into art whilst also ironizing it as corrosive and self-defeating. Ultimately, this leads Adams to reinterpret literary impersonality as a therapeutic philosophical project. *Skepticism and Impersonality* promises a new theoretical justification for our practical interest in literary texts to renovate our conception of how those texts might do philosophical work and to expand our sense of what a philosophical poem can be. Routledge Handbook of

Modern Chinese Literature. Ming Dong Gu, 2018-09-03. The *Routledge Handbook of Modern Chinese Literature* presents a comprehensive overview of Chinese literature from the 1910s to the present day. Featuring detailed studies of selected masterpieces, it adopts a thematic comparative approach. By developing an innovative conceptual framework predicated on a new theory of periodization, it thus situates Chinese literature in the context of world literature and the forces of globalization. Each section consists of a series of contributions examining the major literary genres including fiction, poetry, essay, drama, and film. Offering an exciting account of the century-long process of literary modernization in China, the handbook's themes include Modernization of people and writing, Realism, Romanticism, and Modernist Aesthetics, Chinese literature on the stage and screen, Patriotism, war and revolution, Feminism, liberalism, and socialism, Literature of reform, reflection, and experimentation, Literature of Taiwan, Hong Kong, and new media. This handbook provides an integration of biographical narrative with textual analysis, maintaining a subtle balance between comprehensive overview and in-depth examination. As such, it is an essential reference guide for all students and scholars of Chinese literature. **A Poetry-book of Modern Poets** Amelia B.

Expressivity in Modern Poetry Donald Wellman, 2019-02-26 Expressivity in Modern Poetry explores three interrelated subjects The first is a general exposition of the radical or deeply realistic aspects of the poetry and visual arts of the modern period The focus is on the works of Ezra Pound as understood through a prism of postmodern thought The second subject is the poetry and poetics of Charles Olson a pivotal figure during the transition from modernism to postmodernism The third subject is contemporary innovative poetry with special attention to transcultural neobarroco and language centered aspects of composition The grounding for this section is found in the works of William Carlos Williams Aime Cesaire and Jose Lezama Lima A reversal of the relation between the center and periphery decentering the New York to Paris vector is crucial for understanding the Caribbean as a seedbed for both innovative and identity based poetics Wellman's purpose is to amplify the cultural importance of expressivity in a field where critical discussion is often dominated by constructivism and conceptualism Expressivity in Modern Poetry offers a new reading of the relation between twentieth century modernism and contemporary poetic practice The Modern Poet Robert Crawford, 2001-08-09 Addressed to all readers of poetry this is a wide ranging book about the poet's role throughout the last three centuries It argues that a conception of the poets as both primitive and sophisticated emerged in the 1750s Encouraged by the classroom when English literary works began to be studied in universities this view continues to shape our own attitudes towards verse Whether considering Ossian and the Romantics Victorian scholar gypsies Modernist poetries of knowledge or contemporary poetry in Britain Ireland and America The Modern Poet shows how many successive generations of poets have needed to collaborate and to battle with academia

Counter-revolution of the Word Alan Filreis, 2012-09-01 During the Cold War an unlikely coalition of poets editors and politicians converged in an attempt to discredit if not destroy the American modernist avant garde Ideologically diverse yet willing to bespeak their hatred of modern poetry through the rhetoric of anticommunism these anticommunist antimodernists as Alan Filreis dubs them joined associations such as the League for Sanity in Poetry to decry the modernist conspiracy against form and language In Counter revolution of the Word Filreis narrates the story of this movement and assesses its effect on American poetry and poetics Although the antimodernists expressed their disapproval through ideological language their hatred of experimental poetry was ultimately not political but aesthetic Filreis argues By analyzing correspondence decoding pseudonyms drawing new connections through the archives and conducting interviews Filreis shows that an informal network of antimodernists was effective in suppressing or distorting the postwar careers of many poets whose work had appeared regularly in the 1930s Insofar as modernism had consorted with radicalism in the Red Decade antimodernists in the 1950s worked to sever those connections fantasized a formal and unpolitical pre Depression High Modern moment and assiduously sought to de radicalize the remnant avant garde Filreis's analysis provides new insight into why experimental poetry has aroused such fear and alarm among American conservatives
