Causatives and Causation Jae Jung Song, 2014-06-11 Causatives and Causation is the first comprehensive study of causative constructions found in the world's languages This important new research based on a data base of more than 600 languages not only investigates fully the richness and variety of causative types but also presents an alternative perspective to the traditional typological approach The new typology enables a better understanding of how the human mind cognizes causation and how this is reflected in language Causatives and Causation is also an important attempt to integrate language typology with diachrony by constructing a diachronic model of causative affixes on the basis of this new typology Drawing on the theoretical insight of Role and Reference Grammar this book provides a case study of the causative constructions in Korean providing additional support for both the proposed new typology and the diachronic model It also examines the pragmatic foundations of causatives an important but previously unexplored area of study

The Coasts of Bohemia Derek Sayer, 2020-06-30 In *The Winter's Tale* Shakespeare gave the landlocked country of Bohemia a coastline a famous and to Czechs typical example of foreigners ignorance of the Czech homeland Although the lands that were once the Kingdom of Bohemia lie at the heart of Europe Czechs are usually encountered only in the margins of other people's stories In *The Coasts of Bohemia* Derek Sayer reverses this perspective He presents a comprehensive and long needed history of the Czech people that is also a remarkably original history of modern Europe told from its uneasy center Sayer shows that Bohemia has long been a theater of European conflict It has been a cradle of Protestantism and a bulwark of the Counter Reformation an Austrian imperial province and a proudly Slavic national state the most easterly democracy in Europe and a westerly outlier of the Soviet bloc The complexities of its location have given rise to profound and often profoundly comic reflections on the modern condition Franz Kafka Jaroslav Hasek Karel Capek and Milan Kundera are all products of its spirit of place Sayer describes how Bohemia's ambiguities and contradictions are those of Europe itself and he considers the ironies of viewing Europe the West and modernity from the vantage point of a country that has been too often ignored *The Coasts of Bohemia* draws on an enormous array of literary musical visual and documentary sources ranging from banknotes to statues museum displays to school textbooks funeral orations to operatic stage sets murals in subway stations to censors indexes of banned books It brings us into intimate contact with the ever changing details of daily life the street names and facades of buildings the heroes figured on postage stamps that have created and recreated a sense of what it is to be Czech Sayer's sustained concern with questions of identity memory and power place the book at the heart of contemporary

intellectual debate It is an extraordinary story beautifully told *Essays on the Sound Pattern of English* Didier L. Goyvaerts, Geoffrey K. Pullum, 1975-01-01 This book is a collection of readings in phonological theory with special reference to English The essays it contains are all concerned to a significant extent with discussion and criticism of the theory of phonology developed by Noam Chomsky and Morris Halle in their monograph *The Sound Pattern of English* The aim in compiling this collection has been to bring together new papers and papers that were previously only available in informal duplicated form or in comparatively inaccessible publications This collection is of value to anyone teaching or studying English or general linguistics who wishes to make a serious study of current phonological theory and serves as a reference anthology of permanent value to the specialist **A Frequency Dictionary of Czech** František Cermák, Michal

Kren, 2010-11-26 A Frequency Dictionary of Czech is an invaluable tool for all learners of Czech providing a list of the 5 000 most frequently used words in the language Based on data from a 100 million word corpus and evenly balanced between spoken fiction non fiction and newspaper texts the dictionary provides the user with a detailed frequency based list as well as alphabetical and part of speech indexes All entries in the rank frequency list feature the English equivalent a sample sentence with English translation and an indication of register variation The dictionary also contains twenty thematically organised and frequency ranked lists of words on a variety of topics such as family food and drink and transport A Frequency Dictionary of Czech enables students of all levels to get the most out of their study of vocabulary in an engaging and efficient way It is also a rich resource for language teaching research curriculum design and materials development Former CD content is now available to access at www.routledge.com/9780415576628 as support material Designed for use by corpus and computational linguists it provides the full text in a format that researchers can process and turn into suitable lists for their own research work **Operation Mallory Major from Below** Paolo A. Dossena, 2021-12-02 The Allied Operation

Mallory Major northern Italy July 1944 aimed at the destruction of all bridges across the Po River and its tributaries and at isolating the enemy in the northern Apennine mountains the Gothic Line The Allied Air Forces could count on the ground support of the guerrillas from the Great Partisan Pocket in the Apennines south of Piacenza and were opposed by the Flak This army was led by aging German officers and NCOs leading young non German women and men in Wehrmacht service the Czech guards *Regierungstruppe* and the Italian Slovak Polish and former Soviet gunners the Wehrmacht had transferred its German young men to front line units Yet this improbable Flak force proved to be effective and supported by Luftwaffe aircraft outnumbered by at least 10 to 1 it faced both a hailstorm of Allied bombs and guerrilla ground attacks Women played a major role in this campaign Axis guerrillas and Allied intelligence used women to infiltrate the enemy and as auxiliaries nurses and fighters Another aspect of this battle was the Hitler Bene confrontation an intelligence guerrilla war which took place within the ranks of the *Regierungstruppe*
