## **Modern Dualism:**

The Moral Order of the World in Ancient and Modern Thought Alexander Balmain Bruce, 1899      Philosophy of Mind in the Early Modern and Modern Ages Rebecca Copenhaver, 2018-07-06 The early modern period is arguably the most pivotal of all in the study of the mind teeming with a variety of conceptions of mind Some of these posed serious questions for assumptions about the nature of the mind many of which still depended on notions of the soul and God It is an era that witnessed the emergence of theories and arguments that continue to animate the study of philosophy of mind such as dualism vitalism materialism and idealism Covering pivotal figures in philosophy such as Descartes Hobbes Kant Leibniz Cavendish and Spinoza Philosophy of Mind in the Early Modern and Modern Ages provides an outstanding survey of philosophy of mind of the period Following an introduction by Rebecca Copenhaver sixteen specially commissioned chapters by an international team of contributors discuss key topics thinkers and debates including Hobbes Descartes philosophy of mind and its early critics consciousness the later Cartesians Malebranche Cavendish Locke Spinoza Descartes and Leibniz perception and sensation desires mental substance and mental activity Hume and Kant Essential reading for students and researchers in philosophy of mind enlightenment philosophy and the history of philosophy Philosophy of Mind in the Early Modern and Modern Ages is also a valuable resource for those in related disciplines such as religion history of psychology and history of science      Early Modern Philosophy Jonathan Head, John Grey, 2024-11-28 For anyone in search of the philosophers who influenced one of the richest moments in Western intellectual history this inclusive reader is the place to start Early Modern Philosophy showcases an unrivalled range of thinkers Through them you are introduced to a selection of their texts that return important philosophical ideas and debates to our understanding of modern philosophy Addressing a one sided view of intellectual history that has persisted for centuries this reader goes beyond the usual focus on rationalism and empiricism with readings organised into three parts Dualistic theories of human nature as the union of a mind and a body Debates concerning social relations and education The nature of reality and the way in which the mind reveals or constructs our understanding of the world The thematic approach puts women philosophers and understudied figures in direct conversation with canonical thinkers Extracts from primary sources are accompanied by biographical details questions for reflection further reading and summaries that place philosophers in their historical contexts      **Modern Nirvanaism** William Danmar, 1914      **Orthodox yet Modern** Cory C. Brock, 2020-07-22 Herman Bavinck showed that orthodox theology continues to speak authoritatively today Since the English translation from Dutch of Herman Bavinck's magisterial 4 volume Reformed Dogmatics there has been a blossoming interest in Bavinck's theology Readers have been drawn to Bavinck for his faithfulness to the Reformed tradition while also engaging the questions of 19th century Europe Far from simply revisiting the older dogmatic systems Bavinck faithfully engages modern trends like historical criticism the epistemological problems raised by Kant the rationalism of the philosophes and the radical changes ushered in through the French and European

revolutions The question then is was Bavinck orthodox modern or both In Orthodox yet Modern Cory C Brock argues that Bavinck acts as a bridge between orthodox and modern views insofar as he subsumes the philosophical theological questions and concepts of theological modernity under the conditions of his orthodox confessional tradition By exploring the relation between Bavinck and Schleiermacher Orthodox yet Modern presents Herman Bavinck as a theologian eager to engage the contemporary world rooted in the catholic and Reformed tradition absorbing the best of modernity while rejecting its excesses Bavinck represents a theologian who is at once orthodox yet modern **Modern Nirvanaism, Or, The**

**Philosophy of Life and Death** William Danmar,1914 **The Social Origins of Modern Science** P. Zilsel,2013-03-07

Edgar Zilsel 1891 1944 lived through the best of times and worst of times through the renewal of scientific optimism and humane politics and through the massive social collapse into idolatrous barbarism With it all and with his personal and family crises in Vienna and later in America Zilsel was I believe a th heroic indeed a model scholar of the first half of the 20 century He was widely admired as a teacher at high schools in workers education in research tutoring and seminars He was an original investigator on matters of the methodology of science and of the history of the sciences He was a social and political analyst as a critical Marxist of the turmoil of Vienna in the 20s Above all he achieved so much as a sociological historian who undertook re search on two central facts of the early modern world recognition of the cre ative individual and the ideal of genius and the conditions and realities of the coming of science to European civilization **The Cambridge**

**Modern History** ,1910 *Modern Science Essayist* ,1889 *Heaven, the Heart's Deepest Longing* Peter

Kreeft,2013-02-11 A major book on the subject of heaven this expanded edition examines the hunger for heaven that is so strong in all of us Fascinating and upbeat Heaven the Heart s Deepest Longing thoroughly explores the psychological and theological dimensions of this search for total joy and for the ultimate reality that grounds it *Know Thyself* Thomas O.

Buford,2011-11-25 Know Thyself An Essay in Social Personalism proposes that social Personalism can best provide for self knowledge In the West self knowledge has been sought within the framework of two dominant intellectual traditions order and the emerging self On the one hand ancient and medieval philosophers living in an orderly hierarchical society governed by honor and shame and bolstered by the metaphysics of being and rationalism believed persons gain self knowledge through uniting with the ground of their being once united they would understand what they are what they are to be and what they are to do On the other hand Renaissance and modern thinkers such as Pico della Mirandola Copernicus Descartes Locke and Kant shattered the great achievement of the high middle ages and bequeathed to posterity an emerging self in a splintered world Continuing their search for self knowledge the moderns found themselves faced with the dualism of the emerging self of the Renaissance and the natural world as understood by modern scientists New problems spun out of this dualism including the mind body problem the other minds problem free will and determinism the nature and possibility of social relationships values moral norms and their relationship to the natural and social worlds and the relationships between

science and religion Finding self knowledge among these splinters without a guiding orientation has proven difficult Even though luminaries such as Spinoza Berkeley and Hegel attempted to bring order to the sundered elements their attempts proved unsatisfactory We contend that neither order nor the emerging self can adequately provide for self knowledge Since those culturally embodied master narratives lead us to an impasse we turn to social Personalism Self knowledge developed in this book shows how persons in relation to the Personal learn who they are what they are to become and what they must do to achieve that goal It also shows that the achievement of self knowledge is supported by a natural social and cultural environment rooted in trust In this humane and timely discussion Thomas O Buford offers a personalist understanding of self knowledge that avoids the impersonalisms that erode the dignity of persons and their moral life which characterize modern life     The Cambridge Modern History Planning by the Late Lord Acton ... ,1910     *Theosis* Michael Paul Gama,2017-02-20

Evangelicalism is reaching an inflection point The exodus of millennials from Evangelical churches and the growth of those self identifying as Nones as in None of the Above for their church affiliation is concerning for the movement s future Evangelical leaders offer mixed responses to this challenge from circling the wagons to an enthusiastic Everything must change posture Theosis takes a different approach Seeking to understand Evangelicalism and its origins this book suggests that Evangelicalism is best understood as the sibling of western Enlightenment Modernity which served it well until the modern cultural ethos began to shift dramatically toward post modernity In this shift young Evangelicals principally postmoderns themselves are abandoning their father s Evangelicalism and its perceived linearity hyper rationalism either or exclusivity and faith expression too often perceived as stripped of mystery and wonder Theosis proposes that to move forward Evangelicalism must go back to the future to re engage with the patristic understanding of salvation as theosis deification or union with God This radical return and broadening of the doctrine of salvation has begun to gain traction in Western Christendom slowly being considered as it has always in the Christian East as mere Christianity     **The Fundamental Concepts of Modern Philosophical Thought** Rudolf Eucken,1880     **Founders of Modern Psychology** Granville Stanley Hall,1912     Introduction to Philosophy Oswald Külpe,2018-08-06 First published in 1927 this translation of Külpe s *Einleitung in die Philosophie* 1895 covered psychology logic ethics esthetics and general philosophy The author adopted a uniform approach of positivity interest and impartiality aiming his work at a wider public than students of philosophy The volume was intended as an elementary but complete guide to philosophy past and present and included facts and arguments previously confined to philosophical encyclopaedias     **Milk, Modernity and the Making of the Human** Richie Nimmo,2010-02-25 This book undertakes a critique of the pervasive notion that human beings are separate from and elevated above the nonhuman world and explores its role in the constitution of modernity The book presents a socio material analysis of the British milk industry in the late nineteenth and early twentieth centuries It traces the dramatic development of the milk trade from a cottage industry into a modernised and integrated system of production and distribution examining the

social economic and political factors underpinning this transformation and also highlighting the important roles played by various nonhumans such as microbes refrigeration technologies diseases and even cows themselves Milk as a substance posed deep social and material problems for modernity being hard to transport and keep fresh as well as a highly fertile environment for the growth of bacteria and the transmission of diseases such as tuberculosis from cows to humans Milk Modernity and the Making of the Human demonstrates how the resulting insecurities and dilemmas posed a threat to the nature culture divide as milk consumption grew along with urbanization and had therefore to be managed by emergent forms of scientific and sanitary knowledge and expertise Milk Modernity and the Making of the Human is an ideal volume for any researcher interested in the hybrid socio material economic and political factors underpinning the transformation of the milk industry
