Bezalel, 2023-12-18 Teaching Classroom Controversies is the essential guide for all teachers trying to navigate their way through issues of controversy in the age of fake news and alternative facts Arguing that schools have a key role to help turn the tide and promote intellectual humility and openness the book shows teachers how they can set the boundaries to ensure a purposeful learning environment that thinks about controversy in terms of evidence reasoned argument and critical reflection Drawing on the latest research the first part of the book provides frameworks for teaching and learning about controversy including how to facilitate respectful discussion the biases that impact student beliefs and the pedagogical techniques that should be applied in the classroom The second part offers practical guidance on how to teach the most contentious issues facing young children and teenagers in society today dealing with wide ranging questions such as Is Santa Claus real Do I have a normal family Is the Holocaust a hoax Should there be any limits on free speech Teaching Classroom Controversies offers teachers the tools to develop their students critical thinking on the timely and cutting edge issues of controversy that are shaping our world *Controversies and Subjectivity* Pierluigi Barrotta, Marcelo Dascal, 2005-01-01 This collective volume focuses on two closely connected issues whose common denominator is the embattled notion of the subject The first concerns the controversies on the nature of the subject and related notions such as the concepts of I and self From both theoretical and historical viewpoints several of the contributors show how different and incompatible perspectives on the subject can help us understand today s world its habits style power

relations and attitudes For this purpose use is made of insights in a broad range of disciplines such as sociology psychoanalysis pragmatics intellectual history and anthropology This interdisciplinary approach helps to clarify the multifaceted character of the subject and the role it plays nowadays as well as over the centuries The second issue concerns the subject in inter personal as well as in intra personal controversies The enquiry here focuses on the ways in which different aspects of the subject and subjective differences affect the conduct content and rationality of controversies with others as well as within oneself on a variety of topics Among such aspects the contributors analyse the subject's emotions cognitive states argumentative practices and individual and collective identity The interaction between the two issues the controversies on the subject and the subject of controversies sheds new light on the debate on modernity and its alleged crisis

Crisis, Controversy and the Future of Religious Education L. Philip Barnes, 2019-12-05 *Crisis Controversy and the Future of Religious Education* sets out to provide a much needed critical examination of recent writings that consider and respond to the crisis in religious education and more widely to a crisis in non confessional forms of religious education wherever practised The book is critical wide ranging and provocative giving attention to a range of responses some limited to the particular situation of religious education in England and some of wider application for example that of the role and significance of human rights and that of the relevance of religious studies and theology to religious education It engages with a variety of positions and with recent influential reports that make recommendations on the future direction of religious education Constructively it defends both confessional and non confessional religious education and endorses the existing right of parental withdrawal Controversially it concludes that the case for including non religious worldviews in religious education and for the introduction of a statutory objective national religious education curriculum for all schools are both unconvincing on educational philosophical and evidential grounds Timely and captivating this book is a must read for religious and theological educators RE advisers classroom teachers student teachers and those interested in the field of religious education
