Carnell, 2007-11-01 Introducing the Edward Carnell Library Nine Titles Listed Inside A Philosophy of the Christian Religion is not a defense of the Christian faith in the conventional sense The gamut of contending values and the systems of thought preoccupying the contemporary mind are analyzed here with admirable comprehension and lucidity These competing philosophies are severally evaluated by the whole perspective of the Christian system and demonstrated as partial here and now values incapable of satisfying the demands of the whole man Christianity is a coherent religion It never asks the heart to trust values which the reason is obliged to discard as contradictory No value commitment is completely satisfying until the complete man is satisfied from the preface      *Policy Document: Corruption Within Modern Christianity, Form #08.012* Sovereignty Education and Defense Ministry (SEDM), 2020-02-06 Issues that pastors either refuse to discuss or misrepresent to Congregations      *Speculations on Black Life* Darrell Jones, Monifa Love, Anthony B. Pinn, 2023-05-18 Is God a white racist Posed by William R Jones in his ground breaking book of the same name this question disrupted the theological assumptions that marked Black religious thought from early writings of the 1800s to the formation of Black theology in the 1960s This book compiles his key and essential writings related to over three decades of critical reflection on race religion secularism and oppression in the United States Over the course of 30 years Jones pushed questions and considerations that refined Black theology and that gave greater shape to and understanding of Black philosophers intervention into issues of racial and structural inequality His philosophical

work related to the grid of oppression fosters an approach to the nature and meaning of oppression in the United States encouraging rational interrogation of structures of injustice and thought patterns supporting those structures Still relevant today the straightforward style of communication used by Jones makes these essays easily accessible to a popular audience while maintaining intellectual rigor making the book also suitable for an academy based audience      **Towards a**

**Post-Modern Understanding of the Political** A. Bielskis,2005-08-19 While claiming that liberalism is the dominant political theory and practice of modernity this book provides two alternative post modern theoretical approaches to the political Concentrating on Nietzsche s and Foucault s work it offers a novel interpretation of their genealogical projects It argues that genealogy can be applied to analyze different forms of cultural kitsch vis vis the dominant political institutions of consumer capitalism The problem with consumer capitalism is not so much that it exploits individuals but that it fosters cheap human existence saturated with the artefacts of kitsch Contrasting genealogy with hermeneutic philosophy it calls for a renewal of hermeneutics within the Thomistic tradition      **The Christian Century** ,1939      **Presumption: Chief**

Dostal, 2022-01-15 In *Gadamer's Hermeneutics* Robert J. Dostal provides a comprehensive and critical account of Hans Georg Gadamer's hermeneutical philosophy arguing that Gadamer's enterprise is rooted in the thesis that being that can be understood is language. He defends Gadamer against charges of linguistic idealism and emphasizes language's relationship to understanding though he criticizes Gadamer for too often ignoring the role of the prelinguistic in our experience. Dostal goes on to explain the concept of the inner word for Gadamer's account of language. The book situates Gadamer's hermeneutics in three important ways in relation to the contestability of the legacy of the Enlightenment project in relation to the work of his mentor Martin Heidegger and in relation to Gadamer's reading of Plato and Aristotle. Dostal explores both Gadamer's claim on the Enlightenment and his ambivalence toward it. He considers Gadamer's dependence on Heidegger's accomplishment while pointing out the ways in which Gadamer charted his own course rejecting his teacher's reading of Plato and his antihumanism. Dostal points out notable differences in the philosophers' politics as well. Finally, Dostal mediates between Gadamer's hermeneutics and what might be called philological hermeneutics. His analysis defends the civic humanism that is the culmination of the philosopher's hermeneutics: a humanism defined by moral education, common sense, judgment, and taste. Supporters and critics of Gadamer's philosophy will learn much from this major achievement      *The Rhetoric of American Civil Religion* Jason A. Edwards, Joseph M. Valenzano III, 2016-09-30 The tie that binds all Americans regardless of their demographic background is faith in the American system of government. This faith manifests as a form of civil or secular religion with its own core documents, creeds, oaths, ceremonies, and even individuals. In *The Rhetoric of American Civil Religion: Symbols, Sinners, and Saints*, contributors seek to examine some of those core elements of American faith by exploring the proverbial saints, sinners, and dominant symbols of the American system      *Reformed and Always Reforming* Roger E. Olson, 2007-10 Well-known theologian Roger Olson defines and traces the history of postconservative evangelical theology      *Religion & Politics in America* Dr. Mohamad Arif Zakaullah, 2011-09-14 This study discusses the dimensions and interactions of both religion and politics in the United States of America (USA) and with special reference to the strong influential role of Christian Evangelists in determining the US policies. Though the subject was previously explored by several writers, this book is specially distinguished by analyzing the historical background and the roots of Christian Evangelism all the way till their present status and power. Remarkably, the author presents in perfect doses a blend of ideology and events past and present, updated till late 2006, all tied up in a well-organized, concise academic approach      *Metaphysics and the Future of Theology* William J. Meyer, 2010-01-01 William J. Meyer engages in critical and illuminating conversation with major figures in contemporary philosophy and theology in order to explain why theology has been marginalized in modern culture and why modernity has had such difficulty integrating religion and public life. Wrestling with notable philosophers like MacIntyre and Stout and

theologians such as Gustafson Hauerwas Porter Milbank and Reinhold Niebuhr Meyer argues that theology must embrace modernity's formal commitments to public and democratic discourse while simultaneously challenging its substantive postmetaphysical outlook Drawing on the philosophical perspectives of Whitehead and Hartshorne and the theologies of Ogden and Gamwell he concludes that a process metaphysical theology offers the most promising path for theology to regain a vital public voice in the world of the twenty first century
