**Stefan Lorant** Michael Hallett, 2005-12-05 Hungarian born Stefan Lorant s work as a visual and literary editor allowed him to pioneer and develop the genre of picture based journalism at a period that saw the emergence of modern mass communications Lorant became a guiding force on an international scale disseminating his ideas and political knowledge throughout Europe in the late twenties and thirties by working in Hungary Germany and England His innovative layouts his exclusive interviews and his thirst for knowledge became a familiar part of millions of everyday lives largely through the pages of his own creations and in particular the legendary Picture Post Eventually his sphere of influence spread to America where he introduced the concept of the pictorial biography His vision of photography as a documentary medium inspired Life and Look magazines and paved the way for the eventual emergence of the television documentary For this he has become recognized as the godfather of photojournalism Lorant s work enlightened the world yet his own world was shrouded with darkness His secret past hidden throughout his lifetime reveals the changing attitude of sexual politics as it evolved throughout the century His serial womanizing and scandalous love affairs provide insight into the unhappy alliance between his sexual fulfillment and intellectual frustration his searching in others for what he could not find within himself

Michael Hallett first interviewed Stefan Lorant in late 1990 and spent the following years researching and interviewing his subject. Hallett examines Lorant's public image, his huge ego, his manipulative nature, and his devious love of subterfuge and confusion. Hallett also reveals Lorant's warmth, his generosity, his callousness, his passions, and his extraordinary humanity. This biography encompasses the 20th century while focusing on the emergence of modern mass communications throughout Europe and the United States. Additionally, there is a small but key section that highlights Lorant's [pl](#) [Print Matters](#) Maria Antonella Pelizzari, Andrés Mario Zervigón, 2025-11-11. This volume presents a nuanced exploration of how illustrated magazines shaped global visual culture between 1910 and 1970. In the early to mid-twentieth century, the vast majority of printed photographs appeared in the pages of illustrated magazines. Publications such as Life, China Pictorial, Drum, Picture Post, and Ebony did more than showcase photographs; they crafted visual narratives by combining images, text, and graphics into influential cultural artifacts. These periodicals shaped public perception and mass media consensus like the Internet does today, bringing a shared visual experience to homes and newsstands around the world. The essays in this volume delve into the technologies and visual strategies behind these publications, showing how their layouts were affected by political, commercial, editorial, and artistic factors leading up to World War II. The commentaries also explore how democracy, dictatorships, colonization, and modernity at large gave rise to experimental magazine designs, turning avant-garde art and lifestyle reporting into popular formats. Featuring over 150 images, [Print Matters](#) traces how illustrated magazines evolved across countries and continents, offering new insights into their history and enduring impact on culture and society. [The Making of Visual News](#) Thierry Gervais, Gaëlle Morel, 2020-09-23. [The Making of Visual News](#) sets out to show how photography has changed the way we read, report, and sell the news. It investigates how photographs first became news images at the end of the nineteenth century and how magazines in the USA, the UK, France, and Germany have put them to use ever since. Drawing on a wide selection of images, author Thierry Gervais, in collaboration with Gaëlle Morel, analyses news photographs in the context of their original presentation in print. Highly illustrated, the book contains 85 full-colour magazine layouts and spreads, offering the reader a view of how photographs were and are used in print publications, including Life, Picture Post, the Berliner Illustrierte Zeitung, and VU. It examines how photographs were employed to attract new readers throughout the twentieth century, arguing that photography was the main tool by which news editors sought to communicate the news and attract a broader readership. Looking beyond the roles of photographer and journalist, this study also highlights the contributions of picture editors and artistic directors by commissioning photographs and incorporating images into magazine layouts; these figures played critical but often overlooked roles in the construction of visual news, even as they crafted unique styles for their publications. Charting changes in technology and reportage as well as broader social and political histories, [The Making of Visual News](#) offers new insight into the history of photojournalism, making this an essential resource for students and scholars of photojournalism and the history of photography, media, and culture.
