Modesty and Arrogance in Judgment Barry Sharpe, 1999-05-30 Barry Sharpe examines Hannah Arendt's *Eichmann in Jerusalem* and the controversy it spurred as a way of exploring basic features and issues of judgment After giving careful attention to Arendt's portrait of Adolf Eichmann and the Jewish Central Councils as

well as considering Eichmann in the context of Arendt's other work Sharpe concludes that Eichmann is an unintentionally ironic example of both the need for and the blindness of distance in judgment **Attribution Theory in the**

Organizational Sciences Mark J. Martinko, 2006-08-01 This book argues that conventional interpretations of Freudian psychology have not accounted for the existence and complexity of death anxiety and its intrinsic relation to the creation of illusions and delusions This book contends that there is sufficient evidence to support the view that death anxiety is not only a symptom of certain modes of psychopathology but is a very normal and central emotional threat human beings deal with only by impeding awareness of the threat from entering consciousness The immanence of the fear of death requires vigilant defensive and coping techniques especially the distortion of reality through these defenses and fantasies so that overwhelming terror does not psychologically cripple the organism The fear of death is so horrific that human beings must insulate themselves in religious social and private illusions rituals obsessive pursuits self glorification and myriad desperate attempts to lie about the quintessential nature of reality Death is that terror that induces psychopathology This book demonstrates that a careful reading of Freud reveals a copious amount of material supporting these propositions

Hannah Arendt Newsletter, 1999 **Power, Judgment and Political Evil** Danielle Celermajer, 2016-04-08 In an interview with G nter Gaus for German television in 1964 Hannah Arendt insisted that she was not a philosopher but a political theorist Disillusioned by the cooperation of German intellectuals with the Nazis she said farewell to philosophy when she fled the country This book examines Arendt's ideas about thinking acting and political responsibility investigating the relationship between the life of the mind and the life of action that preoccupied Arendt throughout her life By joining in the conversation between Arendt and Gaus each contributor probes her ideas about thinking and judging and their relation to responsibility power and violence An insightful and intelligent treatment of the work of Hannah Arendt this volume will appeal to a wide number of fields beyond political theory and philosophy including law literary studies social anthropology and cultural history Social Comparison, Judgment, and Behavior Jerry M. Obama and the Politics of Redemption Stanley A. Renshon, 2012-03-15 Every new president raises many questions in the public mind Because Barack Obama was a relative newcomer to the national political scene he raised more questions than most Would he prove to be a pragmatic centrist or would his politics of hope ultimately flounder on the rocky shoals of America's deep political divisions What of his leadership style How would the uncommonly calm character he demonstrated on the campaign trail shape Obama's political style as commander in chief Based on extensive biographical psychological and political research and analysis noted political psychologist Stanley Renshon follows Obama's presidency through the first two years He digs into the question of who is the real Obama and assesses the advantages and limitations that he brings to the presidency These questions cannot be answered without recourse to psychological analysis And they cannot be answered without psychological knowledge of presidential leadership and the presidency itself Renshon explains that Obama's ambition has been fueled by a desire for redemption his own that of his parents and ultimately for the country he now leads which has enormous consequences for his choices as president of a politically divided America **Hume on Testimony** Dan

O'Brien, 2022-10-21 This book is the first devoted to Hume's conception of testimony Hume is usually taken to be a reductionist with respect to testimony with trust in others dependent on the evidence possessed by individuals concerning the reliability of texts or speakers This account is taken from Hume's essay on miracles in An Enquiry concerning Human Understanding O'Brien though looks wider than the miracles essay turning to what Hume says about testimony in the Treatise the moral Enquiry the History of England and his Essays There are social aspects of testimonial exchanges that cannot be explained purely in terms of the assessment of the reliability of testifiers Hume's conception of testimony is integrated with his account of how history informs our knowledge of human nature the relation between sympathy and belief and between pride and the conception we have of our selves the role played by social factors in the judgment of intellectual virtue and the importance Hume places on epistemic responsibility and the moral and personal dimensions of testimonial trust It is not possible to focus on testimony without allowing other aspects of our nature into the frame and therefore turning also to consider sympathy wisdom history morality virtue aesthetic judgment the self and character O'Brien argues that Hume's reliance on the social goes deep and that he should therefore be seen as an anti reductionist with respect to testimony Hume on Testimony will be of interest to researchers and advanced students working on Hume and on early modern and contemporary approaches to the epistemology of testimony **Virtue and the Making of Modern Liberalism**
