Waldren, 2021-04-26 The fact that tourism is a major global industry forecast to continue its dramatic growth well into the twenty first century is often cited as a rationale for its analysis However while the connection between individual locations and the world s global markets is an obvious product of tourism the heart of the tourist experience is the construction of identity the relation of the traveller to resident populations the participants views of themselves and others tourists search for authenticity and their testing of boundaries This book significantly furthers current debates on tourism by asking important and vexing questions about the nature of the tourist experience folk museums that forget many of the folk who live in the areas represented the environments and events that are shaped to meet the imagined dreams of tourist spectators the categorization of visitors and returnees who take up residence and participate in the construction of local identities the evolving meanings associated with indigenous culture tradition heritage representation reality and authenticity In renegotiating the definitions of tourism for the new millennium this book represents a major contribution to an emerging and highly topical area of study The arts of Nepal II Pratapaditya Pal, 1974 *Art of Nepal* Los Angeles County Museum of Art, Pratapaditya Pal, 1985-01-01 **Kathmandu** Thomas Bell, 2016-10-24 Kathmandu is the greatest city of the Himalayas a unique survival of cultural practices that died out in India 1000 years ago It is a carnival of sexual licence and hypocrisy a jewel of world art a hotbed of communist revolution a paradigm of failed democracy a case study in bungled Western intervention and an environmental catastrophe Closed to the outside world until 1951 and trapped in a medieval time warp Kathmandu s rapid modernization is an extreme version of what is happening elsewhere in many traditional societies The many layers of the city s developments are reflected in the successive generations of its gods and goddesses witches and ghosts the comforts of caste the ethos of aristocracy and kingship and of late the destabilizing spirits of consumer aspiration individuality egalitarianism communism and democracy Kathmandu follows the author s story over a decade in the city and unravels the city s history through successive reinventions of itself Erudite entertaining and accessible this is the distinctive chronicle of a fascinating city *Dance In Indian Painting* , Asia , 1983 **The Circle of Bliss** John C.
