Pattern In The Web Charles Williams:

The Pattern in the Web Roma Alvah King, 1990 Charles Williams has achieved considerable reputation for his novels He has been recognized as a brilliant theologian and a sensitive literary critic But Williams himself wished most to be remembered as a poet and trusted his future literary reputation to the two volume series of poems on the Arthurian theme Taliessin Through Logres and The Region of the Summer Stars Of the first volume Williams wrote The matter and the style require and reward attention The poems do not so much tell a story or describe a process as express states or principles of experience The names and incidents of the Arthurian myth are taken as starting points for investigation and statement on common and profound experience In this first full length study of these poems they receive in both matter and style the close attention that Williams requested The emphasis in this study is on the quality of these poems as poetry and only secondarily upon their religious content Although essentially Christian they are placed within the context of the multifaceted many changing forms of recurring myths Thus they represent one of the few attempts in the twentieth century to encapsulate and age old and ever recurring pattern in the web in a brilliant structure that is thoroughly modern **Charles Williams** Brian Horne, 1995 *The Ideal of Kingship in the Writings of Charles Williams, C.S.
