Sullivan, 2009-08-31 Highly accessible A Z of the major terms in the social and behavioural sciences spanning anthropology communication and media studies criminal justice economics education geography human services management political science psychology and sociology      **Understanding Power and Leadership in Higher Education** Mark Kretovics, 2019-11-28 Within higher education power is often perceived negatively Rather than avoiding the idea of power this book explores the importance of embracing and effectively engaging power to affect positive change on campus Understanding Power and Leadership in Higher Education gives college and university administrators the tools to understand the relationship between leadership power and influence within higher education Highlighting real stories of effective college and university administrators this book helps readers understand and analyze the use of power preparing leaders for the realities of today s administrative environment      *For the Souls of Black Folks* Cari Jackson, 2013-05-21 For the Souls of Black Folks examines the impact of black religious culture in shaping the ethical values and sociopolitical condition of U S blacks The book reviews the nexus of theological traditions and historical factors that have formed black churches as environments where preachers serve as the moral compass for black churchgoers For the Souls of Black Folks builds upon the work of sociologist W E B Du Bois who highlighted the presence of a double consciousness in the collective psyche of blacks stemming from racial oppression The book explores the ways in which that double consciousness often reflected in black preaching socializes black Christians to subjugate their own moral authority to that of black preachers The central argument is that this socialization to submit to preachers greatly underserves black churchgoers in developing and exercising their own power and authority as social agents and thus significantly impedes the full sociopolitical liberation of all blacks The book offers important new preaching strategies that more effectively facilitate the empowerment of blacks as critical agents of social transformation and healing in the twenty first century      **Power, Authority, Justice, and Rights** Anthony de Crespigny, 2017-07-05 Although political scientists and their students tended prior to the seventies to approach political theory as the history of political ideas a rapid growth of interest in political theory as the analysis of political concepts led to the publication of this book The approach outlined here remains significant today not only for its contribution to normative analysis but also because it shows how

political scientists can view their subject matter with a more profound understanding of the concepts they deal with in their work De Crespigny and Wertheimer selected fourteen essays on seven fundamental political concepts for this volume power authority liberty equality justice rights and political obligation These essays explore the basic ideas and values of politics and are the works of scholars with considerable reputations as theorists among their contemporaries They continue to represent some of the best Anglo American thinking of the century The editors discuss the nature and possibilities of political theory and in particular they examine the adequacy of the criticisms that have commonly been directed at the main works of traditional political thought They provide an incisive introduction to each chapter These explanatory materials result in a volume that can be used as the primary text in courses in political theory and political philosophy in a course in the history of political thought or as a guide to basic issues underlying political thought irrespective of its historical context **The**
