Rainbow Body and Resurrection Francis V. Tiso, 2016-01-26 A leading authority on the rainbow body traces its history in the encounter of religions in medieval Central Asia exploring a previously unimagined connection between early Dzogchen and the resurrection of Jesus Francis V Tiso a noted authority on the rainbow body explores this manifestation of spiritual realization in a wide ranging and deeply informed study of the transformation of the material body into a body of light Seeking evidence on the boundary between physical science and deep spirituality that might elucidate the resurrection of Jesus he investigates the case of Khenpo A Ch a Buddhist monk who died in eastern Tibet in 1999 Rainbow Body and Resurrection chronicles the dissolution of Khenpo's material body within a week of his death including eye witness interviews Tiso describes the spiritual practices that give rise to the rainbow body and traces their history deep into the encounter of religions in medieval Central Asia His erudite exploration of the Tibetan phenomenon raises the fascinating question of whether there is a connection between the rainbow body and the dying and rising of Jesus Drawing on a wealth of recent research Tiso expands his discussion to include the contemplative geography out of which Dzogchen arose some time in the eighth century along the great Silk Road across Central Asia The result is an illuminating consideration of previously unimagined relationships between spiritual practices and beliefs in Central Asia

You Are the Eyes of the World Longchenpa, 2011-03-16 Just as the images on television are nothing more than light so are our experiences merely the dance of awareness Often we form attachments to or feel enslaved by these experiences But they are only reflections As easily as television pictures vanish when the channel is changed the power of our experiences fades if we penetrate to the heart of reality the light of the natural mind within everyone You Are the Eyes of the World presents a method for discovering

awareness everywhere all the time This book does not discuss how to turn ordinary life off and it does not describe how to create beautiful spiritual experiences it shows how to live within the source of all life the unified field where experience takes place *Romanticism and Esoteric Tradition* Paul Davies, Senior Research Fellow in the Centre for Commercial Law Paul Davies, 1998-02-15 Spiritual quest is at the very heart of poetry but in the materialistic climate of the late twentieth century this has been almost forgotten even by those claiming to be experts in interpreting literature How does the worldview common to the main esoteric traditions of East and West correspond to the aims of such Romantic poets as Shelley Keats Blake Coleridge and Wordsworth In *Romanticism and Esoteric Tradition* Paul Davies maintains that only in the light of the spiritual teachings of these traditions can the poetry and thinking of the Romantics be understood as they intended This is one of the first books to connect the creative nature of poetry to the core teachings of the esoteric tradition and thereby to bring out the true meaning of several Romantic writers whose works have been trivialized by a culture that has marginalized the spiritual and tied itself to material historical and social issues The author also shows that the Romantics were the first Western poets to imagine the relationship of the self to the environment as personal encounter In this sense the Romantics were recalling a long held secret of the esoteric human sciences not inventing a new one This book brings the deepest interests of the Romantics directly into contact with issues closest to present day students of the spiritual traditions and holistic perspectives **Indestructible Truth** Reginald A. Ray, 2002-07-23 One of the most thorough yet accessible

introductions to the Tibetan Buddhist worldview ever published The author presents complex and sophisticated teachings and practices in nontechnical language using engaging stories and personal anecdotes to illustrate his points *Indestructible Truth* presents Tibetan Buddhism in its traditional form but also shows how the Tibetan traditions are applicable to the problems and challenges of modern life in the West In *Indestructible Truth* Tibetan Buddhism is introduced not as an exotic religion but rather as an expression of human spirituality that is having a profound impact on the modern world In addition it presents the point of view of meditation and the practice of the spiritual life paying special attention to contemplative practice and meditation as taught in the Kagyu and Nyingma schools *Rigpai Kujyug* Namkhai Norbu, 1990 *The*

Civilized Shamans Geoffrey Samuel, 1993 Samuel identifies the two main orientations of this religion as clerical primarily monastic and shamanic associated with Tantric yoga The specific form that Buddhism has taken in Tibet is rooted in the pursuit of enlightenment by a minority of the people lamas monks and yogins and the desire for shamanic services in quest of health long life and prosperity by the majority Shamanic traditions of achieving altered states of consciousness have been incorporated into Tantric Buddhism which aims to communicate with Tantric deities through yoga The author contends that this incorporation forms the basis for much of the Tibetan lamas role in their society and that their subtle scholarship reflects the many ways in which they have reconciled the shamanic and clerical orientations This book the first full account of

CHOCOLATE TREE YOUNG ALLEN M, 1994-09-17 The Chocolate Tree chronicles the natural and cultural history of Theobroma cacao and explores its ecological niche Tracing cacao s journey out of the rain forest into pre Columbian gardens and then onto plantations adjacent to rain forests Allen M Young describes the production of this essential crop explaining how the seeds are extracted from the large colorful pods He details the environmental price of Europeanized cultivation and

ways that current reclamation efforts for New World rain forests can improve the natural ecology of the cacao tree

Recounting more than a dozen years of ecological fieldwork in and around cacao plantations in Costa Rica Young reviews his research into the problem of poor levels of natural pollination on plantations He recalls encounters with sloths toucans butterflies giant tarantula hawk wasps and other creatures found in cacao groves Among these creatures Young discovered a tiny fly that provides a vital link between the chocolate tree and its original rain forest habitat This discovery leads him to conclude that cacao trees in cultivation today may have lost their original insect pollinators due to the plants long history of agricultural manipulation
