Transfigurations of Hellenism László Török, 2021-11-29 This book deals with the architecture and visual arts in late antique early Byzantine Egypt as an organic part of the art of the Mediterranean region in the period between the 3rd and 8th centuries The richly illustrated book discusses the survival and transformations of Hellenistic themes and forms in the Roman and late antique periods It also presents a history of Coptic art history *Transfigurations of Hellenism* is an outstanding addition to this scholarship tracing out in detail the continuity of the Hellenistic tradition in Egyptian art All scholars of late antiquity will find much of interest in this fine work Stanley M Burstein California State University Los Angeles *Religion in Roman Egypt* David Frankfurter, 2020-06-30 This exploration of cultural resilience examines the complex fate of classical Egyptian religion during the centuries from the period when Christianity first made its appearance in Egypt to when it became the region's dominant religion roughly 100 to 600 C E Taking into account the full range of witnesses to continuing native piety from papyri and saints lives to archaeology and terracotta figurines and drawing on anthropological studies of folk religion David Frankfurter argues that the religion of Pharonic Egypt did not die out as early as has been supposed but was instead relegated from political centers to village and home where it continued a vigorous existence for centuries In analyzing the fate of the Egyptian oracle and of the priesthoods the function of magical texts and the dynamics of domestic cults Frankfurter describes how an ancient culture maintained itself while also being transformed through influences such as Hellenism Roman government and Christian dominance Recognizing the special characteristics of Egypt which differentiated it from the other Mediterranean cultures that were undergoing simultaneous social and political changes he departs from the traditional decline of paganism triumph of Christianity model most often used to describe the Roman period By revealing late Egyptian religion in its Egyptian historical context he moves us away from scenarios of Christian triumph and shows us how long and how energetically pagan worship survived *The Apocalypse of Paul (Visio Pauli) in Sahidic Coptic* Lautaro Roig Lanzillotta, Jacques van der Vliet, 2022-12-28 The apocryphal Apocalypse of Paul Visio

Pauli plunges us right into the heart of early Christian conceptions of heaven and hell Its vivid eyewitness account of otherworldly punishment and reward was translated into many different languages and inspired numerous later authors among whom Dante This book offers a re edition and English translation of the ancient Coptic version An exhaustive commentary makes the text accessible and situates it in the time and place where it was written fourth century Egypt As this new study shows the Coptic version is by far the best available witness of the original Apocalypse of Paul *Textiles in Egypt, 200-1500 A.D.* Marianne Erikson,1997 *The Encroaching Desert: Egyptian Hagiography and the Medieval West* Jitse Dijkstra,Han van Dijk,2006-11-30 This volume presents a series of case studies concerning the use and reuse of Egyptian hagiography in Late Antiquity and the Middle Ages The first three contributions analyze the use of Egyptian hagiography in the context of late antique Egypt and in particular examine to what extent these texts can be used as historical sources for the reconstruction of traditional pagan religion The other contributions illustrate the different contexts in which Egyptian hagiography was reused in the medieval West The book is an important contribution to the current debate about the usefulness of Egyptian hagiography as a historical source for late antique Egypt and to the study of the reception of the desert fathers in the medieval West Contributors include Lynda L Coon Mathilde van Dijk Jitse H F Dijkstra David Frankfurter Conrad Leyser Peter van Minnen Claudia Rapp Bert Roest Eric L Saak Gabriela Signori and Jacques van der Vliet *Ancient Synagogues - Archaeology and Art: New Discoveries and Current Research* Rachel Hachlili,2013-09-30 *Ancient Synagogues Archaeology and Art New Discoveries and Current Research* presents archaeological evidence the architecture art Jewish symbols zodiac biblical tales inscriptions and coins which attest to the importance of the synagogue When considered as a whole all these pieces of evidence confirm the centrality of the synagogue institution in the life of the Jewish communities all through Israel and in the Diaspora Most importantly the synagogue and its art and architecture played a powerful role in the preservation of the fundamental beliefs customs and traditions of the Jewish people following the destruction of the Second Temple and the loss of Jewish sovereignty in the Land of Israel The book also includes a supplement of the report on the Qazion excavation ידעידה קלפון ידעידה קלפון ידעידה קלפון ידעידה קלפון ידעידה קלפון Yedida Kalfon Stillman,2019-04-03 *Tod und Ritual in den christlichen Gemeinden der Antike* Ulrich Volp,2015-12-22 The development of Early Christian rituals in connection with death and burial has so far not sufficiently been explored Volp s study focuses on the surviving literary sources both pagan and Christian together with inscriptions and other archaeological remains while taking into account recent results from science and humanities A summary of death and ritual in the ancient Mediterranean religions is followed by detailed analyses of the Christian sources from the 2nd to the 5th century Thus basic developments are being discovered which led to and accompanied the forming of Christian rituals such as ritual purity or the social structure of family and society Being the first such interdisciplinary approach it also represents the first monographic work on the topic since 1941
