Right In France Nationalism And The State 17891996:

The Lure of Fascism in Western Europe D. Orlow, 2016-04-13 This book breaks new ground by analyzing the reciprocal relationship between a fascism that had reached the power phase Nazi Germany and fascist movements in two neighbouring countries which were attempting to come to power in their respective societies *Capital, Race and Space, Volume I* Richard Saull, 2023-05-15 In this first volume of Capital Race and Space Richard Saull offers an international historical sociology of the European far right from its origins in the 1848 revolutions to fascism Providing a distinct and original explanation of the evolution and mutations of the far right Saull emphasizes its international causal dimensions through the prism of uneven and combined development Focusing on the twin political and economic transformations that dominated the second half of the nineteenth century the book discusses the connections between class race and geography in the evolution of far right movements and how the crises in the development of a liberal world order were central to the advance of the far right ultimately helping to produce fascism Volumes I and II of Capital Race and Space were shortlisted for the 2024 BISA IPEG book prize for best book published in the field of IPE in 2023 and subsequently recognised by the IPEG Book Prize Committee as Highly Commended The shortlisted books represent the very best of IPE scholarship cutting across disciplinary boundaries and addressing timely topics Funerals, Politics, and Memory in Modern France 1789-1996 Avner Ben-Amos, 2000-10-12 This is an interdisciplinary study of the state funerals that were celebrated in France between the French Revolution and the death of François Mitterrand Its aim is to explain how the funerals of such prominent figures as Voltaire Napoleon Gambetta Hugo and de Gaulle became major public events that helped to mould the national memory Combining the insights of anthropologists and sociologists with a historical analysis it argues that the dual character of the ceremony a political festival and final rite of passage turned the state funeral into a gripping event to which few French people could remain indifferent The book focuses on the republican tradition of state funerals which emerged in the French Revolution and has continued through the Fifth Republic Whether in power or in opposition the republicans used the funerals of their leaders and militants to educate the masses and mobilize public support This book the first comprehensive analysis of French state funerals is also a major contribution to the study of republican culture *Conditions of Surrender* Ulrike Jordan, 1997 During six months in 1945 the victorious Allies formulated a wide range of policies toward the defeated Germany This pivotal period between Yalta and Potsdam was to herald the re integration of Germany into postwar Europe and eventually into the international system of democratic states It was the struggle for the soul of Germany This collection of contributions exposes the intense differences between the Allies regarding Germany's future The contributors are politicians journalists and academics and include eye witnesses from both the Allies and the German side There are personal experiences letters from the front personal war diaries and material from previously unpublished sources in Britain and Germany The British papers include an unknown War Cabinet memo showing in graphic terms the British and Allied views of

Germany in the face of total defeat **Subject Guide to Books in Print** ,2001 Books in Print ,2005 *Whitaker's Books in Print* ,1998 *Writing National Histories* Stefan Berger,Mark Donovan,Kevin Passmore,2002-01-22 This book examines comparatively how the writing of history by individuals and groups historians politicians and journalists has been used to legitimate the nation state against socialist communist and catholic internationalism in the modern era Covering the whole of Western Europe the book includes discussion of history as legitimation in post revolutionary France unity and confederation in the Italian Risorgimento German historians as critics of Prussian conservatism right wing history writing in France between the wars British historiography from Macauley to Trevelyan the search for national identity in the reunified Germany **The Road to Verdun** Ian Ousby,2009-12-23 On February 21 1916 the Germans launched a surprise offensive at Verdun an important fortress in northeastern France sparking a brutal and protracted conflict that would claim more than 700 000 victims The carnage had little impact on the course of the war and Verdun ultimately came to symbolize the absurdity and horror of trench warfare Ian Ousby offers a radical reevaluation of this cataclysmic battle arguing that the French bear tremendous responsibility for the senseless slaughter He shows how the battle's roots lay in the Franco Prussian war and how its legacy helped lay the groundwork for World War II Merging intellectual substance with superb battle writing *The Road to Verdun* is a moving and incisive account of one of the most important battles of the twentieth century From the Trade Paperback edition **France** Julian Jackson,2001 This new history of Occupied France explores the myths and realities of four of the most divisive years in French history p 4 of cover **Books in Print Supplement** ,2002 The Cumulative Book Index ,1999 *The British National Bibliography* Arthur James Wells,1998 **The Republic of Men** Geoff Read,2014-05-12 In *The Republic of Men* Geoff Read explores the intersection of gender bias and the eight most important political parties in interwar France breaking new scholarly ground in profound ways The first to compare gender discourse across the political spectrum in a national context and trace the origins of the fascist new man in other political traditions Read evaluates the impact of gender discourse upon policy during a pivotal period in French history Skillfully exploring how differing political traditions from left to right influenced and reacted to each other Read shows that regardless of the party predominant notions of gender manifested themselves in misogyny and double standards when it came to women's emancipation Despite the hostility of male politicians and party members and despite women's exclusion from both parliament and the vote Read argues that women were nonetheless crucial to politics and visibly prominent within almost every political party in interwar France Read explains this seeming contradiction by demonstrating the existence of a conservative trend in gender politics that by the mid 1930s had enveloped even the Communist Party Through his masterful analysis Read closes significant gaps in the existing historiography and presents a truly revisionist assessment of early twentieth century French politics **Heroes and Legends of Fin-de-Siècle France** Venita Datta,2011-04-11 In *Heroes and Legends of Fin de Siècle France* Venita Datta examines representations of fictional and real heroes in the boulevard

theater and mass press during the fin de siècle 1880-1914 illuminating the role of gender in the construction of national identity during this formative period of French history The popularity of the heroic cult at this time was in part the result of defeat in the Franco-Prussian War in 1870 as well as a reaction to changing gender roles and collective guilt about the egoism and selfishness of modern consumer culture The author analyzes representations of historical figures in the theater focusing on Cyrano de Bergerac, Napoleon and Joan of Arc and examines the press coverage of heroes and anti-heroes in the Bazar de la Charité fire of 1897 and the Ulm spy case of 1907

Debating Turkey in Europe Caner Tekin, 2019-12-16 In contemporary history a much debated issue has been whether European nations have a common identity and what relevance the European Union has for a shared definition of Europeanness The present book examines the link between historical conceptions of Europe and the contestations over Turkey's compatibility with the European Union during the 2000s

Reconstructing the Middle Ages Carolina Armenteros, 2009-05-27 Reconstructing the Middle Ages looks at nineteenth century medievalism in France using as a case study Gaston Paris philologist, literary critic and professor of medieval studies Gaston Paris's method traditionally seen as a combination of romanticism and positivism exemplifies several elements of nineteenth century medievalism in the Parisian academy in late nineteenth century France The text investigates Gaston Paris's theories about three medieval literary genres: epic, fabliaux and Arthurian tales to understand how Paris's view of medieval literature and history cross-related with nationalism at a time when France was particularly vulnerable and at which French academics were especially eager to make a long-lasting contribution Examining the work of Gaston Paris and his interaction with other scholars in the Parisian milieu Reconstructing the Middle Ages offers a look at academic medievalism and the history of philology, linguistics and literary and textual criticism in late nineteenth century France In particular the book shows that when it comes to the self-image of France medievalism was a topic that reached far beyond the walls of academia as it was related to national pride, memory and identity

Ottoman/Turkish Visions of the Nation, 1860-1950 D. Gürpınar, 2013-10-17 Seeing the critical phase in the construction of a Turkish historical imagination between 1860 to 1950 disregarding the political disruptions this book demonstrates how history and historical imagery had been instrumental in the nation-building process

Funerals, Festivals, and Cultural Politics in Porfirian Mexico Matthew D. Esposito, 2010 When President Benito Juárez died unexpectedly of a heart attack in 1872 the Mexican government declared a seven day period of mourning Nearly the entire population of Mexico City filed past Juárez's body as it lay in state in the National Palace Over 100 000 people watched the magnificent procession of his hearse and countless mourners vied for position to listen to his eulogies Juárez's was the last state funeral for a sitting president in republican Mexico and the public response proved the existence of a Mexican national community It also gave birth to the cultural politics and mythical discourse of the Porfirian regime that would overthrow Juárez's successor in 1876 In 1902 Mexican journalist congressman and intellectual Justo Sierra asserted that Mexico gained both national pride and its international personality during the long reign of Porfirio Díaz Matthew Esposito argues that much of this identity stemmed from Díaz's reliance on memorialism Over the course of thirty five years the Porfirian state constructed dozens of national monuments performed countless commemorations and held 110 state funerals While most historians have argued that Díaz's reign owed its longevity to extralegal activities and personal appeals to loyalty Esposito examines Díaz's successful manipulation of cults of the dead hero cults and national memory to shape the perception of his leadership
