A wooden cross stands against a dramatic sky at sunset or sunrise. A vibrant red cloth is draped over the cross, with its ends hanging down. The sky is filled with soft, golden light and wispy clouds, creating a serene and contemplative atmosphere.

## **Rights And Christian Ethics:**

**Rights and Christian Ethics** Kieran Cronin,1992 Kieran Cronin helps philosophers and theologians to understand each other's perspectives on rights making this book a significant contribution to Christian ethics and moral philosophy The Cambridge Companion to Christian Ethics Robin Gill,2001 Provides a comprehensive introduction to Christian ethics which is both authoritative and up to date **Christian Ethics** John Elliot Ross,1919 **The value of the language of rights in Christian ethics, with particular reference to reproductive rights** Kieran Cronin,1988 **Christian Ethics** Norman L. Geisler,2010 This update of a classic text evaluates contemporary ethical options and pressing issues of the day from a biblical perspective Economic Compulsion and Christian Ethics Albino Barrera,2005-09-08 Markets can often be harsh in compelling people to make unpalatable economic choices any reasonable person would not take under normal conditions Thus workers laid off in mid career accept lower paid jobs that are beneath their professional experience for want of better alternatives Economic migrants leave their families and cross borders legally or illegally in search of a livelihood These are examples of economic compulsion These economic ripple effects have been virtually ignored in ethical discourse because they are generally accepted to be the very mechanisms that generate the market's much touted allocative efficiency Albino Barrera argues that Christian thought on economic security offers an effective framework within which to address the consequences of economic compulsion **Christian Ethics** John Elliot Ross,1923 *The Common Good and Christian Ethics* David Hollenbach,2002-08 The Common Good and Christian Ethics rethinks the ancient tradition of the common good in a way that addresses contemporary social divisions both urban and global David Hollenbach draws on social analysis moral philosophy and theological ethics to chart new directions in both urban life and global society He argues that the division between the middle class and the poor in major cities and the challenges of globalisation require a new commitment to the common good and that both believers and secular people must move towards new forms of solidarity *Women's Rights and the Bible* Richard H. Hiers,2012-05-03 In this volume Richard Hiers challenges the popular assumption that the Bible has a low view of women and that biblical law either ignores women or requires them to be subject and subservient to men He does so by identifying and carefully examining hundreds of biblical texts and allowing them to speak for themselves Among the findings that biblical tradition generally represents women positively as strong and independent persons that no text represents wives as subject to their husbands and that no biblical law requires such subjection that biblical laws provide many protections for women's rights and interests in several instances rights equal to those enjoyed by men The book focuses particularly on the Old Testament and Old Testament law and argues that Old Testament laws and their underlying values provide important resources for Christian ethics and social policy today *The Global Face of Public Faith* David Hollenbach,2003-10-09 The Global Face of Public Faith addresses the hotly debated question of the role religion should play in politics in both the American and international contexts It engages the fears that public religion threatens American

democracy and could lead to a global clash of civilizations and new wars of religion It analyzes how Christianity can attain common ground with other religious communities thus becoming a force for peace and human rights The separation of church from state need not mean the privatization of religion Religious engagement in public life can strengthen civic life by encouraging active citizen participation that promotes both justice and peace The question of religion and politics should thus become an argument about how faith becomes public not whether it does Religious communities Christianity in particular should be vigorous advocates of human rights democratic governance and economic development worldwide In so doing they will also become peacemakers David Hollenbach is a calm voice of reason in a chaotic world with an eye that sees beyond national horizons to where human needs and human rights converge He is convinced that religious traditions can find common ground through the use of rights and rights language The Global Face of Public Faith reinforces his commitment to confronting such issues as poverty and economic development globalism and interreligious dialogue He focuses here on faith and the Catholic tradition in politics the role of the church in American public life and the wider issues of global challenges and ethics in a search for a common set of moral standards and a international ethic through a commitment to universal human rights While not denying the difficulties of forging such a consensus he nonetheless sees the possibility for justice and reasons for hope And hope is something the world can always use **Christian Ethics Introduced** Hans O.

Tiefel,2024-03-11 Christian Ethics Introduced asks why humans count as ends in themselves The biblical answer was is that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice It seemed that both traditional religion and enlightened reason fell short of what had been hoped And the cause of failure may not lie in traditional religion or in human irrationality Rather the problem might lie in human conduct Specifically it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct acknowledge it in regard to oneself ask for forgiveness and make amends and peace with God and with those wronged Tensions in Christian Ethics Malcolm Brown,2011-01-01 The book draws on the author s
