War, Religion and Empire Andrew Phillips, 2010-12-23 What are international orders how are they destroyed and how can they be defended in the face of violent challenges Advancing an innovative realist constructivist account of international order Andrew Phillips addresses each of these questions in War Religion and Empire Phillips argues that international orders rely equally on shared visions of the good and accepted practices of organized violence to cultivate cooperation and manage conflict between political communities Considering medieval Christendom's collapse and the East Asian Sinosphere's destruction as primary cases he further argues that international orders are destroyed as a result of legitimation crises punctuated by the disintegration of prevailing social imaginaries the break up of empires and the rise of disruptive military innovations He concludes by considering contemporary threats to world order and the responses that must be taken in the coming decades if a broadly liberal international order is to survive

The Causes of War and the Spread of Peace Azar Gat, 2017-04-14 Azar Gat sets out to resolve one of the age old questions of human existence why people fight and can they stop Spanning warfare from prehistory to the 21st century the book shows that neither an irresistible drive nor a cultural invention deadly violence and warfare have figured prominently in our behavioural toolkit since the dawn of our species People have always alternated between cooperation peaceful competition and violence to attain evolution shaped human desires A marked shift in the balance between these options has occurred since the onset of the industrial age Rather than modern war becoming more costly it hasn't it is peace that has become more rewarding Scrutinizing existing theories concerning the decline of war such as the democratic peace and capitalist peace Gat shows that they in fact partake of a broader Modernization Peace that has been growing since 1815 By now war has disappeared within the world's most developed areas Finally Gat explains why the Modernization Peace has been disrupted in the past as

during the two World Wars and how challenges to it may still arise They include claimants to alternative modernity such as China and Russia anti modernists and failed modernizers that may spawn terrorism potentially unconventional While the world has become more peaceful than ever before there is still much to worry about in terms of security and no place for complacency *Einstein, Michael Jackson & Me* Howard Bloom,2020-04-15 Howard Bloom called the greatest press agent that rock and roll has ever known by Derek Sutton the former manager of Styx Ten Years After and Jethro Tull is a science nerd who knew nothing about popular music But he founded the biggest PR firm in the music industry and helped build or sustain the careers of our biggest rock and roll legends including Michael Jackson Prince Bob Marley Bette Midler Billy Joel Billy Idol Paul Simon Peter Gabriel David Byrne AC DC Aerosmith Queen Kiss Grandmaster Flash and the Furious Five Run DMC ZZ Top Joan Jett Chaka Khan and one hundred more What was he after He was on a hunt for the gods inside of you and me Einstein Michael Jackson Me is Bloom s story the strange tale of a scientific expedition into the dark underbelly of science and fame where new myths and movements are made *Colonial Armies in Southeast Asia* Tobias Rettig,Karl Hack,2005-12-21 Colonial Armies in Southeast Asia offers the reader an accessible journey through Southeast Asia from pre colonial times to the present day with themes ranging from conquest and management to decolonization **The Burdensharing Debate** Simon Duke,1993-06-18 Examines critically the history and assumptions behind the divisive question of allied contributions to the common defence It looks at the methodology of the burdensharing debate and focuses on political economic and military ramifications of the debate The British Empire Jeremy Black,2016-03-09 What was the course and consequence of the British Empire The rights and wrongs strengths and weaknesses of empire are a major topic in global history and deservedly so Focusing on the most prominent and wide ranging empire in world history the British empire Jeremy Black provides not only a history of that empire but also a perspective from which to consider the issues of its strengths and weaknesses and rights and wrongs In short this is history both of the past and of the present day discussion of the past that recognises that discussion over historical empires is in part a reflection of the consideration of contemporary states In this book Professor Black weaves together an overview of the British Empire across the centuries with a considered commentary on both the public historiography of empire and the politically charged character of much discussion of it There is a coverage here of social as well as political and economic dimensions of empire and both the British perspective and that of the colonies is considered The chronological dimension is set by the need to consider not only imperial expansion by the British state but also the history of Britain within an imperial context As such this is a story of empires within the British Isles Europe and later world wide The book addresses global decline decolonisation and the complex nature of post colonialism and different imperial activity in modern and contemporary history Taking a revisionist approach there is no automatic assumption that imperialism empire and colonialism were bad things Instead there is a dispassionate and evidence based evaluation of the British empire as a form of government an economic system and a method of engagement with the world
