Ulmer, 2008 Developments have created the need for health communication to expand its parameters into the field of crisis communication This book spans the fields of crisis communication health communication and public health by taking a broad based approach to the issue of crisis communication and public health

Effective Risk Communication V.T. Covello, David B. McCallum, Maria T. Pavlova, 2012-12-06 One of the greatest challenges facing those concerned with health and environmental risks is how to carry on a useful public dialogue on these subjects In a democracy it is the public that ultimately makes the key decisions on how these risks will be controlled The stakes are too high for us not to do our very best The importance of this subject is what led the Task Force on Environmental Cancer and Heart and Lung Disease to establish an Interagency Group on Public Education and Communication This volume captures the essence of the Workshop on the Role of Government in Health Risk Communication and Public Education held in January 1987 It also includes some valuable appendixes with practical guides to risk communication As such it is an important building block in the effort to improve our collective ability to carry on this critical public dialogue Lee M Thomas Administrator U S Environmental Protection Agency and Chairman The Task Force on

Environmental Cancer and Heart and Lung Disease Preface The Task Force on Environmental Cancer and Heart and Lung Disease is an interagency group established by the Clean Air Act Amendments of 1977 P L 95 95 Congress mandated the Task Force to recommend research to determine the relationship between environmental pollutants and human disease and to recommend research aimed at reducing the incidence of environment related disease The Task Force s Project Group on Public Education and Communication focuses on education as a means of reducing or preventing disease

Risk and Health Communication in an Evolving Media Environment H. Dan O'Hair, 2018-01-12 Broadcast media has a particular fascination with stories that involve risk and health crisis events disease outbreaks terrorist acts and natural disasters contexts where risk and health communication play a critical role An evolving media landscape introduces both challenges and opportunities for using communication to manage extreme events and hazardous contexts Risk and Health Communication in an Evolving Media Environment addresses issues of risk and health communication with a collection of chapters that reflect state of the art discussion by top scholars in the field The authors in this volume develop unique and insightful perspectives by employing the best available research on topics such as brand awareness in healthcare communication occupational safety climate change communication local broadcasts of weather emergencies terrorism and the Ebola outbreak among many other areas It features analysis of new and traditional media that connects disasters crises risks and public policy issues into a coherent fabric This book bridges a substantial but sometimes disconnected body of literature and by doing so asks how contexts related to risk and health communication are best approached how researchers balance scientific findings with cultural issues and how scholars study an increasingly media savvy society with traditional research methods
