One-Party Classroom David Horowitz, Jacob Laksin, 2009-03-10 David Horowitz has single handedly exposed the intellectual corruption that exists within the classrooms of American colleges Like all forms of corruption indoctrination flourishes when kept in the dark Here Horowitz turns on the bright lights to expose what has become profoundly wrong with our colleges and universities We are

all in his debt Ward Connerly former regent University of California David Horowitz and coauthor Jacob Laksin take us inside twelve major universities where radical agendas have been institutionalized and scholarly standards abandoned The schools they examine are not the easily avoided bottom of the barrel Rather they are an all too representative sampling of American higher education today Horowitz and Laksin have conducted the first comprehensive in depth multiyear investigation of what is being taught in colleges and universities across the country public to private from large state schools to elite Ivy League institutions They have systematically scrutinized course catalogs reading lists professors biographies scholarly records and the first person testimonies of students administrators and faculty Citing more than 150 specific courses they reveal how academic standards have been violated and demonstrate beyond dispute that systematic indoctrination in radical politics is now an integral part of the liberal arts curriculum of America s colleges The extreme ideological cant that today s students are being fed includes Promoting Marxist approaches as keys to understanding human societies with no mention of the bloody legacy of these doctrines and total collapse in the real world of the societies they created Instilling the idea that racism brutally enforced by a white male patriarchy to oppress people of color and other marginalized groups has been the organizing principle of American society throughout its history and into the present Requiring students to believe that gender is not a biological characteristic but a socially created aspect of human behavior designed by men to oppress women Persuading students that America and Israel are imperialistic and racist states and that the latter has no more right to exist than the South African regime in the days of apartheid In page after shocking page Horowitz and Laksin demonstrate that America s colleges and universities are platforms for a virulent orthodoxy that threatens academic ideals and academic freedom In place of scholarship and the dispassionate pursuit of truth that have long been the hallmarks of higher learning the new militancy embraces activist zealotry and ideological fervor In disturbingly large segments of today s universities students are no longer taught how to think but are told what to think
