their many senses *The Shaman's Coat* Anna Reid, 2009-05-26 The fascinating history of an unknown people A vivid mixture of history and reporting The Shaman's Coat tells the story of some of the world's least known peoples the indigenous tribes of Siberia Russia's equivalent to the Native Americans or Australian Aborigines they divide into two dozen different and ancient nationalities among them Buryat Tuvans Sakha and Chukchi Though they number more than one million and have begun to demand land rights and political autonomy since the fall of communism most Westerners are not even aware that they exist Journalist and historian Anna Reid traveled the length and breadth of Siberia one twelfth of the world's land surface larger than the United States and Western Europe combined to tell the story of its people Drawing on sources ranging from folktales to KGB reports and on interviews with shamans and Buddhist monks reindeer herders and whale hunters camp survivors and Party apparatchiks The Shaman's Coat travels through four hundred years of history from the Cossacks campaigns against the last of the Tatar khans to native rights activists against oil development The result is a moving group portrait of extraordinary and threatened peoples and a unique and intrepid travel chronicle **The Shamanic Themes in Chechen Folktales** Michael Berman, 2009-03-26 All intellectuals driven by nationalist sentiments directly or indirectly are always preoccupied with searching for the most ancient roots of their budding nations in order to ground their compatriots in particular soil and to make them more indigenous Znamenski 2007 p 28 In Chechnya as in the neighbouring countries of Georgia and Armenia these roots lie in shamanism and the stories in this collection clearly show this to be the case The history of the Nokhchii the name the Chechens have given themselves and their land is filled with rich and colourful stories which have survived for thousands of years through oral traditions that have been passed down generation by generation through clan elders However legends have blended with actual events so that the true history is difficult to write The 1994-1996 war destroyed most of Chechnya's treasured archaeological and historical sites though fortunately ancient burial sites architectural monuments and several prehistoric cave petroglyphs still remain in the mountains These valuable relics coupled with the histories and stories of the elders provide the people with virtually the only remaining evidence of who their ancient ancestors were This book contains both the texts of some of the tales and commentaries on them focusing in particular on their shamanic elements Shamans/Neo-Shamans Robert J. Wallis, 2003-12-08 Robert J Wallis explores the interface between the new and prehistoric shamans of popular culture and anthropology drawing on interviews with a variety of practitioners particularly contemporary pagans in Britain and orth America Tsimshian Mythology Franz Boas, 1916 **Annual Report** Smithsonian Institution. Bureau of American Ethnology, 1887 List of publications of the Bureau of American Ethnology comp by Frederick Webb Hodge **Circle of Shaman** Karen Berggren, 1998 The shamanic flight of ecstasy distinguishes shamanism from other spiritual and healing practices By healing themselves of dysfunctional outworn or egocentric patterns and beliefs shamans provide the model for the greater community to heal and transform itself Integration of the ecstatic experience into modern culture is crucial to

humanity's continued survival and unfolding destiny as partner with the earth **The Shaman's Mirror** Hope

MacLean, 2012-08-24 Huichol Indian yarn paintings are one of the world's great indigenous arts sold around the world and advertised as authentic records of dreams and visions of the shamans. Using glowing colored yarns, the Huichol Indians of Mexico paint the mystical symbols of their culture: the hallucinogenic peyote cactus, the blue deer spirit who appears to the shamans as they croon their songs around the fire in all-night ceremonies deep in the Sierra Madre mountains, and the pilgrimages to sacred sites high in the central Mexican desert of Wirikuta. Hope MacLean provides the first comprehensive study of Huichol yarn paintings from their origins as sacred offerings to their transformation into commercial art. Drawing on twenty years of ethnographic fieldwork, she interviews Huichol artists who have innovated important themes and styles. She compares the artists' views with those of art dealers and government officials to show how yarn painters respond to market influences while still keeping their religious beliefs. Most innovative is her exploration of what it means to say a tourist art is based on dreams and visions of the shamans. She explains what visionary experience means in Huichol culture and discusses the influence of the hallucinogenic peyote cactus on the Huichols' remarkable use of color. She uncovers a deep structure of visionary experience rooted in Huichol concepts of soul energy and shows how this remarkable conception may be linked to visionary experiences as described by other Uto-Aztec and Meso-American cultures.
