The New Wealth of Cities John Montgomery, 2017-09-29 Over the past two decades city economies have restructured in response to the decline of older industries This has involved new forms of planning and urban economic development a return to traditional concerns of city building and a focus on urban design During this period there has also been a marked rise in our understanding of cultural development and its role in the design economy and life of cities In this book John Montgomery argues that this amounts to a shift in urban development He provides a long overdue look at the dynamics of the city that is how cities work in relation to the long cycles of economic development and suggests that a new wave of prosperity built on new technologies and new industries is just getting underway in the Western world The New Wealth of Cities focuses on what effect this will have on cities and city regions and how they should react Original and wide ranging this book will be a definitive resource on city economies and urban planning explaining why it is that cities develop over time in periods of propulsive growth and bouts of decline

The Sassoons Joseph Sassoon, 2025-08-12 A spectacular generational saga of the making and undoing of a family dynasty the riveting untold story of the gilded Jewish Bagdadi Sassoons who built a vast empire through global finance and trade cotton opium shipping banking that reached across three continents and ultimately changed the destinies of nations With full access to rare family photographs and archives Engaging compelling well paced and supremely satisfying The New York Times They were one of the richest families in the world for two hundred years from the 19th century to the 20th and were known as the Rothschilds of the East Mesopotamian in origin and for more than forty years the chief treasurers to the pashas of Baghdad and Basra they were forced to flee to Bushir on the Persian Gulf David Sassoon and sons starting over with nothing and beginning to trade in India in cotton and opium The Sassoons soon were building textile mills and factories and setting up branches in shipping in China and expanding beyond to Japan and further west to Paris and London They became members of British parliament were knighted and owned and edited Britain's leading newspapers including The Sunday Times and The

Observer And in 1887 the exalted dynasty of Sassoon joined forces with the banking empire of Rothschild and were soon joined by marriage fusing together two of the biggest Jewish commerce and banking families in the world Against the monumental canvas of two centuries of the Ottoman Empire and the changing face of the Far East across Europe and Great Britain during the time of its farthest reach Joseph Sassoon gives us a riveting generational saga of the making of this magnificent family dynasty *The Zhangs from Nanxun* Nanchen Zhang, Laurence Chang, 2010 **Planet of Slums** Mike Davis, 2007-09-17 The profound brilliant account of the rise of the world's slums and the failures of modern urbanization by the world's leading urbanist Arundhati Roy activist and Booker Prize winning author According to the United Nations more than one billion people now live in the slums of the cities of the South In this brilliant and ambitious book Mike Davis explores the future of a radically unequal and explosively unstable urban world From the sprawling barricadas of Lima to the garbage hills of Manila urbanization has been disconnected from industrialization and even from economic growth Davis portrays a vast humanity warehoused in shantytowns and exiled from the formal world economy He argues that the rise of this informal urban proletariat is a wholly unforeseen development and asks whether the great slums as a terrified Victorian middle class once imagined are volcanoes waiting to erupt **Luke Him Sau, Architect** Edward Denison, Guang Yu Ren, 2014-05-29 Luke Him Sau Lu Qianshou 1904 1991 is best known internationally and in China as the architect of the iconic Bank of China Headquarters in Shanghai One of the first Chinese students to be trained at the Architectural Association in London in the late 1920s Luke's long prolific and highly successful career in China and Hong Kong offers unique insights into an extraordinary period of Chinese political turbulence that scuppered the professional prospects and historical recognition of so many of his colleagues Global interest in China has risen exponentially in recent times creating an appetite for the country's history and culture This book satiates this by providing a highly engaging and visual account of China's 20th century architecture through the lens of one of the country's most distinguished yet overlooked designers It features over 250 new colour photographs by Edward Denison of Luke's buildings and original archive material The book charts Luke's life and work commencing with his childhood in colonial Hong Kong and his apprenticeship with a British architectural firm before focusing on his education at the Architectural Association 1927 30 In London Luke was offered the post of Head of the Architecture Department at the newly established Bank of China where IM Pei's father was a senior figure Luke spent the next seven years in the inimitable city of Shanghai designing buildings all over China for the Bank before the Japanese invasion in 1937 forced him and countless others to flee to the proxy wartime capital of Chongqing In 1945 he returned to Shanghai where he formed a partnership with four other Chinese graduates of UK universities but civil war between the Communists and Nationalists once again caused him and others to uproot in 1949 Initially intent on fleeing with the Nationalists to Taiwan Luke was almost convinced to stay in Communist China but decided finally to move to Hong Kong There for the third time in his life he had to establish his career all over again Despite many challenges he eventually
